GARDEN VILLAGE WEDDING. Miss Jessie Sax and Amantes Alexander Eby Are Married.

Special to the Scranton Tribune. Pittston, May 23 .- A pretty wedding took place in the Gorden Village at high noon today, when Miss Jessie, daughter of George M. Saxe, of Wyoming avenue, became the wife of Amantes Alexander Eby, a prominent Hazieton gentleman. The ceremony was performed at the bride's home by Rev. Dr. Harshaw, of the Presbyterian church, the couple standing beneath a Gothle arch in front of a bank of palms, forns, cut flowers and hydrangeas. The bride was attired in duchesse ratin, with pearl trimmings and point lace and carried bridal roses. Mrs. Ira D. Saxe, of Wilkes-Barre, was the maid of honor, and Helen Saxe, of Wilkes-Barre, was the flower girl. The groom's best man was James Blanchard, of Hagleton. After the ceremony the guests, numbering about 100, partook of a wedding dinner. Mr. and Mrs. Eby left this afternoon on a wedding journey and will soon be at home. The following Scranton people attended: Mr. and Mrs. George Memory, Dr. and Mrs. G. Edgar Mrs. T. H. Watkins, Mrs. M. R. Walter, Miss Saxe, Misses Addle and Mary Saxe, also Mr. and Mrs. Jerome Lillibridge, of Jermyn.

IRON AND STEEL REVIEW.

Cheerful Spots in the Situation as Viewed by the American Manufacturer.

Pittsburg, May 23.-The American Manufacturer, in its iron and steel review, will say tomorrow:

There are cheerful spots in the iron and steel situation, but they are not sa large nor as brilliant as the producers would like to see. Conditions have improved slightly over last week in the matter of production. Almost all of the finishing mills that were been put into operation again to meet the increased business. Inquiries are more plenty and there is a good trade in sight, ready to move just as soon as values are finally adjusted.

The whole situation is waiting upon the Bessemer producers. Prices for finished stuffs are as low as they can go under the prevailing tariffs for raw and semi-finished material. They cannot be bought down any further until the cost of Bessemer has been has enti-cly disappeared. I consider set down to meet the expect busi-Chamberlain's medicines the best on ness. But with Bessemer for the secend half of the year on a basis of say \$20 per ton, the costs of finished stuff may be reduced to meet the demands of large buyers and still leave a healthy margin. It will not be a bad guess to say that the steel business of the next six months following July will be on a basis of \$20 Beessmer. Plates are not weaker but are not stronger, and may be bought in good lots for \$1.65. Sheets and structural are the mainstays of the case.

Trade in Chicago is slightly better. The Northern Pacific is in the market for one thousand freight cars. Deering Harvesting company is in the market for two thousand tons of foundry and malleable iron, prompt shipment.

ANNOUNCEMENTS THE MARKETS. OF THE RAILROADS

Wall Street Review.

Wall Street Review.

New York, May 23.—An effort was made to repeat yesterday's lively demonstration in Sugar, in a hope that the traders would find sufficient price movement in that stock to yield profix on the day's turn, but the stock developed its customary obstinacy and refused to advance to any marked extent, or to hold what moderate gain was made. Its extreme range was 2% and it closed with a net like of %. The street was flooded with "tips" this morning promising a repetition of yesterday's sudden jump and the professional traders took on stock quite liberally. The closing out of short contracts yesterday left the market without support on that account and the buying did not attend much beyond the ranks of the professional bulls. In spite of the announcement of a further advance of 10 cents a hundred pounds in refined sugar made by the American company and followed by the other refiners there was not sufficient demand for the stock to enable the traders to take their profits and the price was brought back to about where it started under the pressure of that process. Today's advance in the price of refined sugar makes a total of fifteen cents a hundred pounds during the week and the quick response made by all the companies to the advance gave color to the peristent asertion that a working agreement has been arrived at between the rival companies. The fact of a concurrent advance at the end of the dull season in the trade and with the large demand incident to the canning season to be met detracts from the protestations made with official sanction that business is conducted under present conditions on ruinous terms and that an irresponsible conflict still rages among the companies. The Pacifics made the best show of strength especially Northern Pacific, which was affected by pecially Northern Pacific, which was affected by nics. American Tobacco made a further advance. The Pacifics made the best show of sitrength especially Northern Pacific, which was affected by rumors of an increased dividend rate and was benefited also by the timely rains in the northwest. The buying of Northern Pacific was attributed in part to Berlin account. International houses were sellers on balance to a small extent, the foreign markets continuing generally depressed. A number of the largest professional operators in stocks are preparing for vacation trips to Europe, there some of the buying of stocks is said to be the closing out of accounts on the short side for their benefit. Total sales, 294,500 shares. The bond market was dull and small and irregular changes in prices were the rule. Total sales, par value, \$1,400,000. United States new 4s registered advanced \(\frac{1}{2} \) and old 4s and 5s declined \(\frac{1}{2} \) in the price.
