

Government Laboratory, Chicago, March 1, 1900.

I have examined Warner's Safe Cure and am pleased to say that I find it a valuable herbal remedy, containing ingredients calculated to give health and renewed power and energy to the sick. I have tried it personally and find it a fine tonic for a sluggish liver, restoring it to a natural healthy action and bringing back the vim and energy of perfect health.

MARIA ARMSTRONG, Microscopist.

Washington, D. C., Feb. 21, 1900.

In my experience with the sick, I have seen some very serious cases of kidney and bladder troubles cured through the use of Warner's Safe Cure, after doctors had failed to do any good. I have used it myself several times when bilious and indigestion and never failed to find help from its use. I am therefore pleased to endorse it as well worthy the confidence of those suffering with stomach troubles or diseases of the pelvic organs.

MARIE L. ANDERSON, 1007 13th Street.

Marie L. Anderson was for several years nurse at the Los Angeles, Cal., Hospital. Is now in Washington in the same capacity.

RIDGE TURNPIKE REMAINS FETTERED

(Concluded from Page 3.)

for his support at his new boarding house.

What hurt him most was the action of his cousin in making constant references to his dead wife, as a dirty woman, and referring at frequent times to the fact that he had a brother who died in an insane asylum.

Next to this in the way of offending were some slight cast upon his religion. Every Sunday, for four or five Sundays in succession, when he would come home from church, his cousin's husband would taunt him with the unvarying question: "Did the minister say anything about the weather today?" This made the old man indignant, and he several times left the dinner table and went to his room to avoid a quarrel.

At another time when he was ill some one came to see him, but his cousin would not allow the caller to come in, saying the old man was too ill to have visitors. She told the old man about the visitor when he inquired as to who it was, she said, "I don't know, but I guess he was an Episcopalian minister—he was dressed so shabby." This cut the old man to the quick and he determined to leave the house as soon as he got well, which he did. He went to live with William Doyle, at Dundaff; but after a few months moved to George Yarrington's, at Newton Lake, and seven months later returned to Carbondale to live with Roland Hawkins.

The defense will try to show that the old man imagined the ill treatment he complained of. The plaintiff had rested and the defense had concluded its opening at adjourning time. E. C. Newcomb represents the plaintiff and Major Everett Warren and Hon. C. P. O'Malley, of Willard, Warren & Knapp, the defense.

The jury in the case of Adeline F. Smith against George A. Clearwater reached an agreement after being out two hours, and yesterday morning returned a verdict in favor of the defendant.

In the trespass case of Mary Jones, of Spring Brook, against George A. Sommers and others, the jury found for the plaintiff in the sum of \$4,117. The case of the Peck Lumber Manufacturing company against the Dolph Coal company was on all day before Judge Archbald, except for two hours of the forenoon, when a recess was taken to confer on a proposition for amicable settlement. The defense devoted most of its attention to showing that no one colliery is responsible for the plaintiff's dam being filled up with culm.

It was proven that over twenty collieries enter dump or water culm into the Lackawanna or its tributaries between Peckville and the site of the damaged dam, and Forest City, the northern limit of the Lackawanna valley coal bed.

Amicable adjustments were had in the cases of A. Schmidt, a partner of Baltimore, against John Lahotsky and Joseph Lahotsky. Verdicts for the plaintiff were entered by agreement for \$161.15 in the first case and \$124.50 in the second. Whiskey bills were in dispute.

Released on Common Bail.

J. C. Buck, one of the four men arrested for slandering W. E. Gilhool, the West Side carriage manufacturer, was brought in on a capias yesterday and at a hearing before Judge Kelly was discharged on common bail, which is equivalent to furthering his case.

Immediately afterwards a similar suit, alleging another instance of the same offense, was instituted by Mr. Gilhool's attorney, Joseph F. Gilroy, in which Mr. Buck is charged with having done the plaintiff \$10,000 damage by making false utterances concerning his method of conducting business.

It was stated in the bill that the alleged slanders were uttered by Mr. Buck March 12 last, in the presence of A. J. Casey and P. J. Casey, of Casey Bros., and J. C. Ludlum, of the Atlantic and Pacific Tea company, and that as a result of these utterances he has lost his trade, which had been worth to him \$5,000 a year.

He also claims that a further result of the alleged slanders he has lost the patronage of the Casey & Kelly Brewing company, E. Robinson's Sons, the Anthracite Brewing company, the Danville Brewing company, J. J. Neelis, J. F. Armbrust and the Scranton Transfer company, all of which means a loss to him of \$5,000 per year.

A capias on which bail in the sum of \$1,000 was demanded was issued for Mr. Buck's arrest.

Shutcock Succeeds Besaligow.

Mike Shutcock was yesterday appointed high constable of Olyphant borough, vice William Besaligow, resigned.

The appointment was made by Judge Kelly for the court, on the petition of the borough council.

FOR MONUMENT FOUNDATION

Ground Was Broken Yesterday by Contractor Stipp.

Ground was broken yesterday for the foundation of the soldiers' and sailors' monument on the Washington avenue side of court house square.

Contractor Mattias Stipp, with a large force of men, entered upon the excavation of a well one hundred feet in circumference which is to extend down to the gravel strata, estimated to be thirty feet below the surface. Nearly half the distance will be made through clay, cobbles and ashes with

which the ground about the court house was filled. After that the diggers will encounter a strata of turf which underlies the old swamp on which court house square was laid out. In excavating for the Mears building it was necessary to go down thirty-five feet.

Contractor Stipp expects to have the foundation laid in five weeks, and the Harrison Granite company, which has the contract for the construction of the monument will begin work on the superstructure immediately thereafter.

County Commissioner John Penman and Engineer Edmund Bartl went to New York yesterday to consult with the monument contractors regarding some changes in the plan of the foundations, suggested by Mr. Bartl.

The dirt taken from the excavation is being used to level off the Washington avenue side of the court house lawn to make it conform to the new grade of the sidewalk and curb, which was raised by City Engineer Phillips when the pavement on that block was recently resurfaced.
