PERSONAL

Mrs. William Hennemann, of 223 Mulberry street, is very ill.

Superintendent E. E. Leomis, of the Delaware, Lackawanna and Western coal department, went to New York yesterday afternoon.

J. A. Meers, Mr. and Mrs. J. H. Fisher, Edward Williams, M. P. Flynn and O. F. Byrnes, of this city, were recently registered at Hotel Albert, New York city.

General Superintendent F. G. Russell, of the Lackawanna railroad, is temporarily located at Superintendent Daly's office, awaiting the completion of the new quarters at the station.

ECLIPSE WAS ECLIPSED HERE.

Clouds Prevented More Than a Brief Peep at the Phenomenon.

Owing to the heavy clouds this locality was denied anything more than a peep at the solar eclipse yesterday. Shortly after 9 o'clock the sun passed over a clear bit of blue and for the brief duration of this transit thousands doubtless enjoyed the beautiful and inspiring spectacle.

Fortunately, very favorable atmospheric conditions prevailed in the belt of total obscuration, where the country's greatest astronomers had located themselves and we are thus enabled to make up somewhat for our disappointment by looking at the phenomenon through the expert eyes with help of the Associated Press.

OPEN AIR CONCERT TONIGHT.

To Be Given by Lawrence's Band at the Municipal Building.

The following is the programme of the concert to be given by Lawrence's band at the municipal building this evening:

A Quick Lute March....."Chief Wolf" (Willie-Barre to Scranton on May 22.)
Selection from Meritona.....Wallace
Waltz, Wedding.....Wallace
March, North Wind.....Chambers
Patrouille.....Kistler
"Vermächte-Nachrichten".....Kistler
Oh Ladies to the Band, Medley.....W. C. Ott
(Played only by Lawrence.)

THE VISITING COAL DEALERS.

Arrangements for Their Reception Have Been Completed.

Complete arrangements have been made for the reception and entertainment of the 150 members of the Michigan and Indiana Retail Coal Dealers' association, who will arrive in this city tomorrow night on a tour of inspection of the anthracite coal mines in this vicinity. Secretary D. B. Atherton, of the board of trade, will act as chairman of the reception committee recently appointed by that body.

The association met in annual convention in Detroit yesterday, and the members will leave that city this morning at 11:30 o'clock. They will arrive in Buffalo at 5 a. m. tomorrow morning and will spend the morning inspecting the coal docks in that city. They will leave Buffalo at 2:30 in the afternoon on a special Lehigh Valley train and will arrive in this city tomorrow night at 10:30 o'clock, and will be taken to Hotel Jermyn, where accommodations have been secured for them.

On Thursday morning at 9 o'clock the visiting ladies will be taken for a carriage drive over the Elmhurst boulevard and Lake Scranton. The gentlemen will, in the meantime, be divided into two parties, one of which will be taken through the Pennsylvania company's mines in Dunmore. The other and larger party will be taken on a special train over the Lackawanna to the Bellevue mines.

In the afternoon the visitors will be taken around the city, and any who may desire will be shown the various industries. They will leave the city that night at midnight. Secretary Atherton yesterday received a booklet advertising the excursion, which was circulated among the various members in it Scranton is referred to as "The Newcastle of America."

KIT OF THE CENSUS TAKER

It is a Rather Formidable One and Will Weigh Two Pounds.

What It Contains.

The census enumerator will soon be at your door, following out the instructions laid down by the commissioner of census, in order to learn what kind of people inhabit the United States. The enumerator has a task that is not the most congenial, and there are connected with his work a great many details that are not fully appreciated by the outside world.

The outfit of an enumerator is rather a formidable affair. The chief article is a portfolio about 12 by 20 inches in size when shut. When opened the portfolio forms a large desk just the size of the largest sheet upon which the data are to be written.

Inside the cover of the portfolio on one side is a full set of instructions to the enumerator to help him in doing his work. On the other side is a description of the enumerator's territory—in some cases accompanied by a map.

Folded within the portfolio are the "popular schedules" upon which the popular data will be placed. Upon the left side of the sheet are to be placed the names taken and to the right the answers to about twenty questions are to follow. Fifty names can be placed on each side of the sheet, and as 100 will constitute a fair day's work, a single sheet will contain them all.

There are, however, other blanks to fill, and in some of these difficult work will be experienced. In all districts special information will be gathered concerning physical peculiarities, such as blindness and deafness. In the country districts the manufacturing industries are to be made out upon one sheet and the farming industries upon another. Each farm is to have a separate sheet.

The kit the enumerator will have to carry will not weigh over two pounds and can easily be attached to a bicycle, which many use. With each kit is a metallic badge about the size of a silver dollar. The design is of a poised eagle bearing a shield with the inscription, "United States Census, 1900."

Two sets of daily report cards bearing consecutive dates from June 1 to the time when the work is finished, which is thirty days in the country and fifteen in the city, are furnished the enumerators. One of these reports is sent to the supervisor of the district and the other to the director of the census at Washington.

The daily report cards are to be filled with the number of names, farms and shops, taken during the day and the number of hours consumed in the work.

The purpose of the district is to enable the supervisor of the district to keep watch of the progress of the work and to enable him to call to account or discharge the enumerators who are not doing their duty.

THE VARIOUS BIDS.

The wide variance of the fifteen bids is pointed out by an indication of the part good fortune, not to say chance, played in the sale:

W. J. Hayes & Sons, Cleveland.....	\$106,742 00

DAVIS WAS WOUNDED.

States That Highwaymen Who Held Him Up on Capouse Avenue Fired Upon Him.

According to the story John Davis, of Pine Brook, tells, desperate highwaymen have been at work on Capouse avenue.

About 1 o'clock yesterday morning Davis entered the Lackawanna hospital and requested treatment for his right arm, in which there was a revolver cartridge. He claimed to have been held up by highwaymen on Capouse avenue, who, after an assault, fired at him. He was accompanied by Matthew Lathan, formerly one of the hospital orderlies, who found him shortly after the accident and took him to the hospital.

Dr. John W. Busch examined the man and found that the cartridge had entered his right forearm. The bone was not broken, but merely a deep flesh wound inflicted. The bullet was removed, after which Davis left for his home.

He declared that he was walking along Capouse avenue when two men suddenly stopped him and demanded in the style of the proverbial highwayman "his money or his life."

He struck at one of the men and knocked him to the ground. The other drew a revolver and, firing at him, struck him in the arm.

He fell to the ground and his two assailants left him. He was found soon after by a patrolman, McLean.

The affair has not been reported to the police and no arrests have been made.

CATHOLIC HISTORICAL SOCIETY

Prof. Flood Read a Paper Last Night on Father Ryan.

Professor Edward Flood, of the High school faculty, read an excellent paper on the poetry of Father Ryan, the sweet singer, of the south, before the Catholic Historical society.

He referred especially to the deep spirituality and religious feeling which pervades the work of the poet and also to his great devotion to the south.

He read selections from several of the poet's poems, including "The Sword of Robert Lee" and "Erlin's Flag." It was his first poem that endeared Father Ryan to the hearts of the south and it was the last that glorified Ireland's green banner as it had never been glorified in verse before.

Rev. D. J. MacGoldrick stated that he would announce the names of the Catholic Historical society's officers at the next meeting.

POLICE PICKINGS.

A large number of new helmets for the patrolmen were received at headquarters yesterday. They are the regular summer helmets, a light grey in color.

Miss Davis and Katie Thomas were arrested late Sunday night by Patrolman Fred Karus on the charge of street walking, and were taken to the house street police station. Both were fined \$5 yesterday morning.

Patrolman Karus was called to the Delaware, Lackawanna and Western railway station yesterday afternoon by the station agent, McLean, who asked him to arrest a young boy who was making himself generally obnoxious about the place. Mr. McLean will appear against him this morning.

The police have been notified of the theft of a horse belonging to Searis' livery in Wilkes-Barre. It was driven to Creek, and there left outside a building. Some one detached from the livery and made off with it. The animal was cream colored with a white mane and tail and a high top.

Patrolman Thomas Thomas and Watkins yesterday arrested a man living in Park place, North Scranton, at the request of his family who declared that he was acting in an insane manner. He was taken to the central police station, where he was examined by Dr. Bessey, station physician for the poor board in North Scranton, and other physicians. The case will be brought before the poor board.

Decorations Day at Speedway.

Gentlemen drivers and horse admirers will have a gala day tomorrow at the Speedway. Great racing is promised during the entire afternoon. There is no more delightful place hereabouts than this particular spot on the beautiful boulevard to spend the afternoon or the entire day, for that matter. The homelike Speedway hotel, with its magnificent verandas facing directly on the boulevard, within a few minutes' walk from the shores of Lake Scranton, surrounded by beautiful woods and ideal roads, offers unexcelled accommodations for the day's outing.

All Erie and Wyoming Valley trains now stop within a stone's throw of the hotel. Fare one way, ten cents. Return tickets, fifteen cents.

Hear J. T. Watkins and a large surprised choir sing "The Holy City," at the Lyceum tomorrow night.

BIG PREMIUM FOR THE SCHOOL BONDS

BONUS OF \$93,450 IS OFFERED BY DICK BROS. & CO.

This Will Realize the District Within \$10,000 as Much as if the Bonds Were Sold at Three and One-Half Instead of Four and One-Half Per Cent.—Highest Premium Ever Paid in This State for Like Bonds. Bids for School Desks Opened. Committee Reports.

Thanks to the fortunate circumstance that there is plenty of investment money lying around, the Scranton school district will succeed in floating its \$100,000 issue of four and one-half per cent. bonds at a loss of not more than \$10,000. When the bids were opened by the finance committee yesterday afternoon an offer was disclosed from Dick Brothers & company, of Philadelphia, of \$23,450 premium, and on the recommendation of the committee the offer was accepted at last night's regular meeting.

It is the highest premium ever paid for a Scranton city or school board bond and the biggest ever paid for a similar bond in Pennsylvania.

This is not saying, however, that it is the best investment ever made, as the bids could have been floated at three and one-half per cent., and fully \$10,000 saved thereby. A three and one-half per cent. bond would have called for a premium of about \$5,000. By paying higher interest a larger premium is secured. In the present instance a one per cent. increase in the rate of interest brings an additional \$18,000 ready money. The district needed the ready money, and hence the high rate of interest. A larger premium is secured, and the school district is to be congratulated on its good fortune in offering its bonds at an opportune time.

STRENGTHENS MARIANI

(MARIANI WINE.)

Gives power to the brain, strength and elasticity to the muscles, and richness to the blood. It is a promoter of good health and longevity. MARIANI WINE is invaluable for overworked men, delicate women, and sickly children. It soothes, strengthens and sustains the system.

Sold by all druggists. Refuse Substitutes. Mariani & Co., 48 W. 15th St., New York, publish a handsome book of endorsements of Empress, Princess, Cardinal, Archbishops and other distinguished personages. It is sent gratis and postpaid to all who write for it.

training school to attend the public exhibition of teaching this afternoon at 2 o'clock.

Mr. Roche, for the building committee, reported a resolution directing Secretary Fellows to inform the owners of the buildings now being used as annexes for Nos. 2, 5, 9 and 35 that they were to be vacated.

The vacancies committee caused by the death of D. L. Phillips were filled by President Jayne as follows: Teachers' committee (chairmanship), A. L. Francois; building and text book committee, John H. Phillips; insurance committee, E. J. Leonard.

WERE ENTERTAINED AT LAKE CLEMO

PLEASANT DAY SPENT AT THAT RESORT.

Number of Men from This City and Its Vicinity Were the Guests of the Lake Clemo Real Estate Company at Their New Property, High Up Among the Hills of Wayne County—Lake Covers One Hundred Acres and Has a White Sand Bottom.

At Lake Clemo, Wayne county, a party of men from this city and its vicinity were entertained yesterday by the Lake Clemo Real Estate company, which is comprised of the following: Colonel Ezra H. Ripple, County Treasurer, M. J. Kelly, ex-Senator M. E. McDonald, of this city, and Oscar Yost and E. W. Bishop, of Dunmore. It was the occasion for the formal opening to the public of the lake and a hotel which has been erected by the company near the shores of the lake.

There are many fine bodies of landlocked water in this part of the state, but none that in some respects compare with Lake Clemo. Its most striking characteristic is its bottom of fine white sand, which gave the lake for many years the local name of Sand pond. It is fed by springs and is as clear as crystal. The water ranges in depth from a few inches to seventy feet and so clear and pure is it that even in the deepest parts the bottom can be seen.

This lake was greatly admired and sought by the Indians, who called it "Umbugo," meaning clear. Many of them believed its waters contained great curative powers. The lake covers one hundred acres and is set high up among the hills, 1,700 feet above sea level and surrounded on all sides by gently rising foothills that fade into a beautiful and verdant forest. In the mountains that seemed to shut the lake and its peaceful surroundings out from the noise and turmoil of the world. Somewhat oval in shape, the lake is almost girl around by a beautiful forest, in which a picnic ground is to be fitted up.

ROAD TO THE LAKE.

By the turnpike road the lake is two miles from Clemo station on the Erie and Wyoming Valley railroad. A board-walk has been built up the hillside which reduces the distance to the lake to the pedestrian to one mile and the company has had a survey made of the boulevard to the lake and that will be but one and one-quarter miles in length.

This boulevard will skirt the picnic ground and the corner of the lake and end at the hotel, which stands on a slight eminence several hundred feet southeast of the lake. In the winter time the path cut through the woods for the board-walk will be used for sliding ice from the lake down to the railroad.

The company owns two hundred acres of land besides the lake and has planned some extensive improvements, the work on which has practically only begun. The first step was the erection of a twenty-five room hotel, with all modern improvements, including gas, which is now open under the management of Byron Simons. It is roomy and home-like, with broad piazzas from which a grand view of the fine sweep of landscape is obtained. A number of row boats have been placed on the lake and a boulevard to be built around it one hundred feet or so back from the water's edge. The lots for cottages will run from the boulevard to the lake. The place is intended more as a family resort and for cottagers rather than for a general excursion resort and the improvements will be made with that idea in mind.

Hot Weather Shirts.
