FACTORYVILLE.

Factoryville, May -29,---Tunkhannock will come up here today with the expectation of taking home with them all the honors there are in winning a game of base ball. The game will be a hot one, between Tunkhannock High school team and Keystone academy. The latter team, however, will be badly crippled on account of the absence of several of their best players, who are ne on vacations

Wyoming and Lackawanna Dairy association, at a meeting last Saturday night, elected officers, and will, as soon as convenient, apply for a charter and become incorporated. Business at the butter factory is improving every day, and much satisfaction is expressed the dairymen.

The census enumerator will commence his work in this borough next Friday morning, and if you haven't got all places of birth and ages, back as far as your grandfathers and grandmothers, look them up and have them ready for him. It is necessary that the population of our borough be as large as possible, for the interest of the town, and every resident should take an interest in the census and assist the numerator in making it as near perfect as possible.

CROSS-ROADS' LOGIC: "WHEN YOU ARE IN DOUBT FOLLOW THE MAIN TRAVELED ROAD."

THAT is what the farmer said when he was directing a stranger on his journey. "When you come to the cross-roads keep to the main traveled way." There's a sound logic in that advice which those who are starting out in search of health might well heed. "Stick to the main traveled

road and you will come out all right."

Many hundreds of thousands of people have marked a path for you to follow. It has led them to health. This path which they have trodden leads to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., where Dr. Pierce, the chief consulting physician, and his staff numbering nearly a score of experienced and skilled specialists, are every day engaged in the treatment and cure of chronic diseases. Much of the treatment is by correspondence. Any sick person is invited to consult Dr. R. V. Pierce by letter absolutely free of charge and under the promise of absolute privacy.

There is hope for everyone who begins the use of Dr. Pierce's treatment. Out of the many thousands treated, ninety-eight per cent. have been absolutely cured by Dr. Pierce and his staff of physicians A great number of these were the "hopeless" cases for which the home doctor said nothing could be done. People with weak lungs, obstinate cough, bronchitis, and other forms of disease which if neglected, or badly treated, lead on to consumption, have been positively cured through the advice of Dr. Pierce and his staff of skilled specialists, and the use of that marvelous medicine. Dr. Pierce's Golden Medical Discovery.

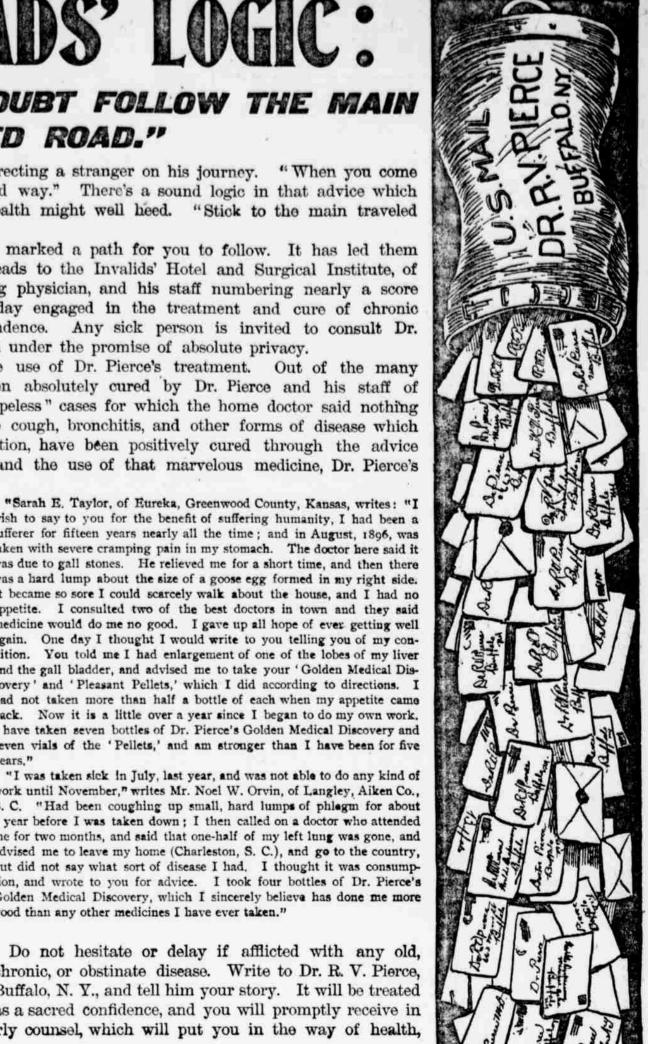

wish to say to you for the benefit of suffering humanity, I had been a sufferer for fifteen years nearly all the time; and in August, 1896, was taken with severe cramping pain in my stomach. The doctor here said it was due to gall stones. He relieved me for a short time, and then there was a hard lump about the size of a goose egg formed in my right side. It became so sore I could scarcely walk about the house, and I had no appetite. I consulted two of the best doctors in town and they said medicine would do me no good. I gave up all hope of ever getting well again. One day I thought I would write to you telling you of my condition. You told me I had enlargement of one of the lobes of my liver and the gall bladder, and advised me to take your 'Golden Medical Discovery' and 'Pleasant Pellets,' which I did according to directions. I had not taken more than half a bottle of each when my appetite came back. Now it is a little over a year since I began to do my own work. I have taken seven bottles of Dr. Pierce's Golden Medical Discovery and seven vials of the 'Pellets,' and am stronger than I have been for five years,"

"I was taken sick in July, last year, and was not able to do any kind of work until November," writes Mr. Noel W. Orvin, of Langley, Aiken Co., S. C. "Had been coughing up small, hard lumps of phlegm for about a year before I was taken down; I then called on a doctor who attended me for two months, and said that one-half of my left lung was gone, and advised me to leave my home (Charleston, S. C.), and go to the country, but did not say what sort of disease I had. I thought it was consumption, and wrote to you for advice. I took four bottles of Dr. Pierce's Golden Medical Discovery, which I sincerely believe has done me more good than any other medicines I have ever taken."

Do not hesitate or delay if afflicted with any old, chronic, or obstinate disease. Write to Dr. R. V. Pierce, Buffalo, N. Y., and tell him your story. It will be treated as a sacred confidence, and you will promptly receive in
