Washington, June 1 .- At the opening of the senate today Mr. Perkins (Cal). presented a petition from organizations and individuals of his state asking congress to make an appropriation for the relief of the famishing people in possession of sufficient information to enable him to prepare a proper resolution dealing with the question. In 1897 he had asked for and procured a ship No official acknowledgement of that donation ever had been received, so far as he was aware. He hesitated now, therefore, to press a resolution looking to the relief of the people of India, lest the government of Great Britain might not look with favor upon the action of congress in sending to India unsolicited aims, just as it might

I should like to ask the senator what England has done for the people of India. She has spent tens and hundreds of millions of dollars in striking down and crushing republics. It is the most brutal manifestation of strength against liberty and weakness that the world has ever seen, and I am moved, therefore, to ask the senator what Great Britain has done to relieve the suffering of her Indian subjects.
