PROF. COLES FOR JUNE.

From Storms and Signa.

The month of June may prove a very eculiar and exciting month; as all the planets except Neptune and Mars will be with the earth on the same side of the sun, and as earth will be in the "House of Enemies" opposed by the "House of Elekness" she will undoubtedly receive great affliction from the other planets, and we may witness some unusual disturbances, both on land and son, such as shipwrecks, rail-road accidents, mine-caves, destructive conflagrations, riots, strikes, panics, murders, disease epidemics, phenomenal heat, unseasonable cold-resulting in frost and snow in some localitiesseismic disturbances, tornadoes, and hot-shot thunder bolts. Great men and rulers will be in danger of bodily harm. The deadly influence of the late collpse shadow will be plainly observable all along the "line;" and yet the month of June, although completely surrounded with the "Low Ebb vital forces, will prove a prosperous one for America; and in the main be a delightful month, filled with the delayed blossoms of May, and the beautiful natural "roses of Juna."

THE STORMS AND SIGNS. So many planets will be bunched together this month and all on the same side of the sun, it is hard to tell just

what will happen to Old Mother Earth but we believe that this strange meeting will cause the weather to play many new tricks, and give us all a surprise. There will be some beautiful sunset scenes and strange appearing sunbows. The greatest danger from storm periods will be between the 1st and 5th, the 7th and 16th, the 12th and 15th, the 17th and 22d, and 24th and 29th. As a Mercury period is central on the 24th, many localities will be Mose G George, of Newfield, N. Y. The week

Mr. and Mrs. Jesse Darney, of Binghamton. tressed by floods, and the central and eastern states will receive affliction by electrical storms; resulting in floods and hurricanes. The earth will be in excursion to New York Tuesday evening, return- position to become overcharged with electricity from the other planets and Mr. and Mrs. C. M. Lewis and Mrs. Partridge this surplus electricity will undoubtedly cause numerous hurricanes and cyclones in all parts of the world.

VALUABLE INFORMATION.

Persons having surgical operations performed on or within five days of July 1, seldom recover. The most fortunate days of the current month for mankind in general will be the 3d and Sth. Females born on the following days in June-10th, 11th, 15th, 23d or daughter, Flora, who have been spending several months in Philadelphia, have returned home sess some superior qualities and will be admired by their superiors, thereby The Women's Christian Temperance union will having chances to rise above the meet at the home of Mr. and Mrs. It. G. Mack, on Tuesday evening.
Union services will be held in the Methodist that every woman undergoes some im that every woman undergoes some important event in her thirty-first year, and man in his forty-second year. It may be good or it may be evil, therefore all should be cautious at this time. Mr. and Mrs. Frank A. Baker are spending a The best days to perform surgical operations during the current month will be the 7th, 8th, 14th, 19th, 23d or 28th. The best days to fish will be the 9th, 14th, 19th and 28th; and the next best days will be the 1st, 5th, 8th, 12th, 15th, 18th, 20th, 22d or 27th. Always bleed the fish as soon as they are taken from the water, as the blood is very A meeting of the subscribers of the proposed poisonous to all persons born in the same sign in which the fish are caught.

WORDS OF WARNING. The "Potato Louse" will do great damage this summer, and unless potatoes are planted at High Flood time the crop will prove a failure. The "chinch bugs" will do great damage to grain. The 'army worms' will make their appearance. A new vegetable microbe will also make its appearance and do such damage. The 'tent cater-pillar' will do untold damage, unless immediate action is taken to burn them out. (An iron bowl containing a few burning peanuts, raised to their nests by the aid of a pole, will cremate them almost instantaneously and will not injure the tree unless the dame is applied too long.) Speculators must be careful how they invest their money this month, as only those who were born under the planet Jupiter and "ruled" by the planet Earth will stand much of a . ance. Do not kill any pork, beef, mutton or fowls on the 4th, 5th, 1171, 16th, 19th or 30th. Gather all your berries at High Flood time if you want them to save well. Next month will be the time to destroy noxious weeds. For the proper days to destroy weeds, p'ant seeds, set hens, prune, timnselent and harvest, and all such information, send ten cents to Prof. C. Coles, Kingston, Pennsylvania, and get a copy of his Storms and Signs.

FREMONT, WASH.

The number of women who consider themselves as really sick or invalids, are few in comparison to the number of women who feel miserable month after month, but will not give up, continuing to do their regular work.

Perhaps it is a tired housewife with a large family and house to take care of. She is not actually sick in bed, but manages to drag herself around wearily through her daily tasks. She is subject to backache, bearing-down sensations in the lower part of the abdomen, perhaps nervous headache and poor digestion. Such a person would be benefited beyond description by taking a course of Peruna. Peruna never fails to produce a good appetite, regular sleep, and expels all impurities from the system. During the summer months Dr. Hartman will direct the treatment of any and all women who apply to him, who are suffering with diseases peculiar to their sex.

An excellent little treatise on the diseases peculiar to women, entitled "Health and Beauty," written by Dr. Hartman, sent free by The Peruna Medicine Company, Co-

lumbus, Ohio.

New York, June 1.—The stock market developed activity and strength today which have been foreign to it for many weeks past. The dealings were to a large extent concentrated in a limited number of stocks but here was nevertheless a broadening of the market and general gains througout even in the less active stocks. The industrials and specialities were emphatically relegated to the background and, with the exception of Sugar and the Tobaccos, there were no nutable points of strength or features of activity in that department. It was a movement of railroad stocks devidedly and the advance was made in face of a number of incidents which would have been quickly saked upon the bears in the lately provaling temper of appoulation to force down prices. Today, on the centrary, the outstanding shorts were eager to cover their contracts and when they sought to secure stocks, they found a very limited amount of business and resulting rise is privag was rapid and sharp. Whatever the source of the domand it was large and urguent and made its way though all offerings with no apparent doubt or hostfution. It was reported in Wall street that a large short account, amounting to over 20,000 shares of various stocks, was being closed out preliminary to an European tour. The buying in some individual stocks was attributed to operations by a pool. The facts disclosed indubitably by the surface indications were that operations were on a much harcer scale than for some time past and that only liberal advances in the budding for atocks would bring out the desired offerings. The opening of the market disclosed a mood of depression over the disappointing effect of the war new on foreign markets. London sold about as many stocks in this market as were bought for that account yesterday and drugged prices below hat night's level. The steel stocks, after fractional advances, turned heavy on the news of the day and was a frace at the unriked. In fact the strength in the foreign showed the gains in grown and spread to Union Pacifis, the Atchso Wall Street Review.

HOW TO BE BEAUTIFUL FREE

A Bottle of the Misses Bell's Cele bated Complexion Tonic Without Cost

This generous offer is made in order that all may have an oppor-

ion. If the skin is clear and smooth, a woman will be classed as beautiful even if nature has not given her pefect

The Misses Bell, of 76 Fifth Avenue, New York, when they placed their now justly delebrated Complexion Tonic before the public, gave to those suffering from poor complexions a boon long needed. Thousands have made their skins absolutely perfect by its use. Now, in order to still further intro-

duce it, the Misses Bell will give to any lady writing them during the present month an opportunity to try one large bottle (the price of which is \$1) at absolutely no cost. Do not wait, but SEND AT ONCE. The Misses Bell's Complexion Tonte is not a paint or powder to cover up the freekles, pimples or moth patches, but

is, as its name implies, a tonic for the skin. It eradicates the blemish entirely and forever. It not only does this, but it beautifies the skin, smoothing away wrinkles, drawing out ALL discolora-tions, removing all pimples, acno, eczema or roughness.

The Misses Bell have at their parlors more than ten thousand letters from

patrons acknowledging wonderful im provements in their complexions. The monial in public print, as they value a woman's delicacy in such things, but the original letters can be seen any time at parlors, 76 Fifth Avenue. Remember an opportunity is given you

to try one bottle of this really wonderful Tonic for the skin FREE. Address THE MISSES BELL 76 Fifth Avenue, New York City
