Story of gowns can be repeated with the Underskirts. There are dozens of styles, no two alike, and not to be found in any other store save here. In buying the Jonas Long's Sons Undergarments one must remember that exclusiveness comes with price littleness.

## THE MARKETS.

### Wall Street Review.

New York, June 3.—There was manifest hesitation in the trend of prices today and a doubt was cast upon the general movement. The only stock in demand for London was the Standard Oil stock, which reached 5 1/2 in the New York market, an advance of 1/2 on rumors of an early dividend. Sugar, which was the subject of two minor raising stocks which moved upward, but the raising influence, however, failed to hold the market and the bulls sought to take profits, with resulting losses in price which reached between 1 and 2 points in some stocks. The iron and steel materials were conspicuous sufferers on the depressing opinions regarding the shutting down of additional mills of the steel and wire company which was raised. Sugar, however, held its rights, and was comparatively dull. The closing was calm and unexciting on a feeling that the bull sales, 10,000 shares, in the bond market have been some improvement in demand and in prices as a result of the accumulation of idle money and the speculative demand for funds in the money market. The value offering of well secured bonds is small and prices advanced without any considerable demand. United States registered bonds when issued and are to be declined by and old is considerable and is in the bid price.
