## HARD COAL TRADE.

Exports of Coal from the United States-Reading Road to Return to the Policy of Manufacturing Its Own Rolling Stock-The Board For To-day-Tobacco Company Incorporated to Do Business Here-Iron Market Is a Waiting One-Lower Prices Prevail.

The hard coal trade shows no activity worth particular mention. The movement of coal up the lakes is not heavy, and the demand from points east of Cape Cod shows no new development. This is, indeed, the dull season and there is small chance of any increase in demand before July at the earliest.

In Chicago territory trade is pretty quiet, though there is reported to be a little more life to the market. At the head of the lakes there is but little doing. At Buffalo and at all eastern seaboard points trade is dull. The large companies remain pretty firm on prices and seem well together in hold-ing down the output to market needs. There are the usual concessions, "made by independent operators," but there is nothing to show that there is likely to be later on a repetition of the tendency to sacrifice prices for a big tonnage showing that prevailed in 1898 and many a previous year .-- Engineering and Mining Journal.

### Exports of Coal.

The exports of coal from the United States, which are rather closely watched just now, reached in April a total of only 537,052 short tons, 473,140 tons being bituminous and 63,912 tons anthracite. The total was an increase of 149,-242 tons over last year, Canada taking \$2,145 tons of the gain, and 60.6 per cent, of the total exports. There was a small increase in shipments to the West Indies, and Brazil took 6,338 tons this year, against none last year. The exports to Europe this year were 21,-294 tons, as compared with 7,295 tons last year; a large relative increase, but 10 s. m.-F. Van Visit. still a very small total. Of these shipments 10,237 tons went to France, which | 3.50 p. m.-F. F. Stevens with J. F. Stevens' took only 1,000 tons last year. For the ten months of the fiscal year | 1.45 p. m.-G. Rafferty. ending with April the total exports were 5,804,750 tons, showing the substantial gain of 1,734,245 tons, or 42.6 per cent., over the previous year. This our two near neighbors, the shipments 10 s. m.-fleavers, PUSHERS, tons, and those to Mexico one of 147,-645 tons. Fourth-I give and bequeath to each of the following nermed persons, to be for the sole use of himself or herself and his or her assigns re-spectively as follows, to wit: To Mrs. Alfretta Beidleman, of Scranton, Pa., the sum of the thousand dollars; to Miss Laura Amerman, of Danville, Pa., the sum of \$10,000; to Mrs. Chro-line Corgy, of Marsilon, Oblo, the sum of \$10,-000; to John J. Van Nort, of Scranton, Pa., the NOTICE. John McCue out Monday, Wednerday and Fri-day at 6 a. m., second-class engine on pick up. M Madigan will report at my office at 9 a. m., This and That. The Cardenas and Jucaro railroad, of Cardenas, Cuba, has placed a contract with the Rogers Locomotive company, There was a time when the Reading of Paterson, N. J., for three mogul engines and one eight-wheel switching en-The Baldwin Locomotive works, of Philadelphia, Pa., is about to ship to Bordeaux, France, ten locomotives for the Paris and Orleans railway. Twenty more engines for the same road are Imports of iron ore into the United States in April were 21,726 tons only, against 42,482 tons last year. For the ten months of the fiscal year from July 1 to April 30 the imports were 759,169 tons, which compares with 187,127 tons in 1899, and 340,429 tons in 1898. The Jeansville Iron Works company, of Jeanesville, Luzerne county, through its Denver branch, A. Middlebrook. manager, has contracted with the Rialto Leasing and Mining company to furnish a compound condensing pump, capacity 900 gallons per minute, 1,000 feet high. This pump is its latest pattern, fitted with Corliss steam valves for economy of fuel. The stroke is three feet. The condenser is the duplex pattern. The company also sold Bassick Mines company, of Silver Cliff, Colo., duplex pump, 900 feet lift. The iron market is still a waiting one, but there is still a better feeling in evidence. That a lower range of prices is being established is generally admitted, but it is also felt that a very large volume of business is ready to be placed as soon as the setting of values over. Besides this, a heavy export business is sure. The Amalgamated association rate for the next year are now under discussion in committee, and the cainte there will probably be some time spent in arranging them, as the association will ask for considerable increases in wages .- Engineering and Mining Journal. lorever. PHILADELPHIA AMERICAN.

THE SECOND WILL PRESENT CONDITION OF THE Told on the Streets of COL L. A. WATRES NAMED AS REDUCED RATES TO PHILADEL-HANDLEY EXECUTOR.

> Mrs. Amerman Made & Will in Boston, Supposedly After Leaving Here - Nothing of Its Contents Names Col. Watres As a Handley Executor, and Appoints Rev. Dr. Dixon's Attorney To Be Mrs. Amerman's Executor.

> As foreshadowed in The Tribune of Saturday, a contest is more than likely over the estate of the late Mrs. Ella M. Amerman. The existence of a will

supposed to be of date subsequent to the one filed for probate by Colonel La A. Watres, has been confirmed by the receipt of a letter from General Edwin Champin, of Cambridge, Mass., setfare for the round trip. Same good for return limited to June 11, inclusive.

Nothing is said of its contents further than that he is appointed executor of the estate and that Colonel Watres is the Handley estate executorship. General Champin was the attorney for Rev. Joseph K. Dixon, D. D., and Mrs. Amerman in the suits brought by Mrs. Dixon. The will probated here was signed

October 29, 1897. It was drawn by Colonel Watres at Mrs. Amerman's dictation and is satisfactory, it is said, in every respect to all the relatives. The second will, it is apprehended, does not deal as liberally by the immediate heirs as the first and should it develop that there is any considerable discrep-ancy the second instrument will be con-

On what grounds the contest will be based is only surmised, but the circumstances warrant the assumption that it will be contended that the testator was subjected to undue influence. An attorney has been engaged to file

transcript of the local will in Boston and to formally protest the probating of the second will, if it is not already probated. The real contest will come when the second will is offered for probate in this county.

THE WILL PROBATED. The local will, formally probated Saturday, reads as follows: I. Ella M. Ammercan, of Scranton, Lackawanna county, Pennsylvania, do make this my last will and testament, hereby revoking and making void any will by me at any time here-First-1 give and bequeath to Ralph A. erman and May T. Amerman, minor children

of Lemuel Amerman, my late husband, deceased, share and share alike all my personal ef-fects in and about the dwelling house and prem-ises now occupied by me, including household little damage resulted. The electric wires in the Delaware and Hudson See now occupied by me, including nonscrout furniture, horses and carriages, and all personal effects upon the premises of whatever character. Second-1 give and bequesth to Jesse C. Amer-man, father of my late husband, five thousand (\$5,000) dollars in money to be for the sole use of himself and assigns. Third-I give and bequeath to my father, Charles F. Van Nort, and to my mother, Phoebe
