There will be no excuse for defeated candidates or their friends to refuse to support the winners; and in view of the fact that the Crawford county system opened the door to every Republican desirous of running for office, the result of the primaries should be accepted in good spirit and everybody should turn in loyally for the victorious ticket. Yet human nature is human nature; and it is patent that where there are so many more candidates than there were possible nominations, sorenoss for a time will

be inevitable. There would be soreness under any system; but probably not so much as is to be feared under the present one.

Whether or not at Thursday's convention an attempt will be made to change back to the delegate system we do not know. If made it must come from the men who originally wanted the Crawford system. It is evidently fair that they must assume the responsibility for continuing or repeating it.

A misunderstanding seems still to exist as to the date of the county convention to compute the returns of last night's primarles. For this The Tribune was partly to blame in saying through mistake one day last week that the convention would be held on Tuesday. As was explained in last Saturday's issue, the convention will be held on Thursday morning at 10 o'clock.

Subsidy Bill.

N AN OPEN LETTER addressed to General Charles H. Grosvenor. chairman of the house merchant

marine and fisheries committee. Alexander R. Smith, of New York, a former member of the New York Commerce commission, answers an attack on the ship subsidy bin which has been favorably reported to each branch of congress, Mr. Smith openly charges that the foreign shipping interests, aided by the free-traders and other enemies of American shipping, are striving with might and main to destroy the one American line now engaging in our trade with Europe. In his letter Mr. Smith says, in part:

"The assertion that 'the cream of the perous condition of the country under subsidy is designed to fall to those yessels of the International Steamship company,' is not only erroneous, but seems purposely designed to prejudice St. Louis platform. As to Cuba, it the public against that line-the only line, by the way, engaged in our trade out the promise to turn the governwith Europe under the American flag. This line has been singled out for the most virulent, malignant, and frequent attacks ever since the shipping bill has been before the public. It has been asserted, but without a word of truth. that it is controlled by the Standard Oil and the Pennsylvania Railroad companies. It has been pictured as a part of a monopolistic trust, whereas it stamped out with the exception of is battling, single-handed and alone, guerilla warfare, and that municipal

MARY'S URGENT NEED.

"I have a bad breath and a coated tongue." writes Mary O'Connor to the Editor of the Medical Advice Column of a New York daily paper. Mary also notices a bad taste in her mouth. What Mary requires is a Ripans Tabule. A single one will banish the bad taste in the mouth, half a dozen will take the coating off the tongue, and then the bad breath will be gone.
