GENERAL RAID PLANNED. Disorderly Houses Will All Be

Closed Up. It can be stated on very good authority that a general raid on the disorderly houses and victous resorts which abound in the central part of the city will be made this week by the police and that some of the people who love to talk of beautiful theories and of honor, even if their purses are regarding the rescue of fallen women will be given a chance to put their

theories into practical effect. The inmates of these places have of late become so brazen and bold in defying all laws of common decency that it has been deemed time to call a halt. It is understood that there will be no partiality shown, and that all will be treated alike.

PUPILS OF CHAS. H DOERSAM. They Gave a Recital in Guernsey Hall.

The putells of Charles H. Doersam gave their first recital yesterday afternoon at 4 o'clock in Guernsey's hall, It was a very satisfactory performance in every way. The selections were well chosen and beautifully given with fine technique and expression.

Mr. Doersam, who is himself an artist of well known ability, added new laurels to his fame as an instructor of rare merit, and he has good reasons for being rightly pleased over the success of his first pupils' recital. Miss Garagan, the popular solo contralto of the Second Presbyterian

church, contributed two charming numbers to the programme. She sang in excellent voice. Below is the programme as rendered:

Scranton, Pa., June 12th, 1900. To the Republican voters of Lacka-

wanna county: I should be either more or less than human did I not feel deeply touched by the magnificent vote given me yesterday in all quarters of our county. And yet I fully appreciate the fact that it was the principles represented, and not the man. The result proves what many of us have always believed, that the people, as a whole, when once aroused, are honest, discriminating and anxious for the right. This knowledge will be a grand inspiration in our future efforts for improvement. I trust it is not necessary for me to say that not a dollar was expended directly or indirectly, except in advertising my candidacy. This fact should encourage reputable men, especially young men, to aspire to offices of usefulness not long. The day will come, not far distant perhaps, when the exchange of money for votes or influence will be an unknown crime.

Sincerely thanking you, and pledging my every effort to make the experiment a satisfactory one to all my fellow citizens, I am,

Yours very sincerely, Edward B. Sturges.

SCHLATTER IS HERE TO WORK MARVELS

FAMOUS HEALER TO HOLD FORTH AT LAUREL HILL.

Same Individual Who Created Such a Furore in 1894 When Denver Was His Headquarters—Holds World's Record for Resurrections.

Scranton, today, holds within her gates no less a personage than Dr. Charles McLean, better known the world over as "Schlatter, the divine healer," who professes to be able to raise the dead and cure all kinds of physical ailments, and who, incidentally wears glasses.

The doctor came here Saturday with his hair and whiskers which have never been cut, closely tucked out of sight, the one under his hat, the other neath his vest, and is now engaged in advertising a meeting he proposes to hold next Sunday at Laurel Hill park. He claims never to have failed to effect a cure and has a record of six resur-rections from the dead, three in Chiago and three in London, besides one self-resurrection performed at Denver. Three resurrections was the best previous roord. It was made early in the

first century, Schlatter came into especial prominence in 1894 in Denver, where thousands from all over the country flocked to see him and have their ailments cured. He created the biggest kind of a sensation, apparently performed many wonderful cures and just about phant, yesterday swore out a warrant the time the authorities decided to before Alderman Kasson on the take a hand in the matter he mystercharges of assault and battery and de- liously disappeared. Search was made sertion for her husband, William Bur- for him everywhere but no trace of him could be found.

Dead bodies were found in various night and an agreement was arrived out of the way places in the western at between the parties. It seems that and southwestern mountains and the couple were married in April, and prairies and every time the remains could not be identified the newspaper "specials" built a Schlatter story about them. After he had been found dead and decaying eleven times or more, he suddenly bobbed up as mysteriously as he had disappeared and announced Anna Brady and Nora Corbett, botht | that the whitened bones found on the mountains near Denver and whose covering had made feasts for the vultures, were those of a horse which had carried him to a wild woodland, where he had buried himself for forty days home in Olyphant, only to be turned and forty nights in obedience to a command of God. The command came just at the time the police of Denver were headed in the doctor's direction, threatening to arrest him for a nulsance, and many scoffers endeavored to connect the two in a significant way.

reveal for a time. Dr. McLean's curative abilities are not like those of any other curist. It differs from that of the Christian Scientists in that-well he cured Bob Ingersoll and Dick Croker. Mrs. Croker offered him \$5,000 for the service, but he refused to take it, advising that it be given to the poor, which was done. In relating this incident last evening to a Tribune reporter, Dr. McLean expressed regret for having cured Croker. "Had I known then what I do now I would not have cured him or any of his fellowing. I'm sorry I appeared in Tammany hall." He also told that one of his resurrectees had panned out bad and he was sorry he had not left him dead.

Though the fact is not widely known, the reading public would have escaped at least "The Absent-Minded Reggar" and "From Bloemfontein to Pallyrag" but for Dr. McLean. When Rudyard Kipling was ill at the Waldorf-Astoria two years ago, and the doctors had despaired of his life. Mrs. Kipling came to Dr. McLean and entreated him to cure her husband. He consented, went to Kipling's bedside, and the forty-eight reporters playing pinocle in the adjacent Rathskeller's and waiting for the great literary genius to occasion a black-bordered extra lost their snap assignments. Mrs. Kipling gave \$5,000 to the poor of New York when Dr. McLean refused to ac-

WENT WILD OVER HIM. New York, he says, went wild over him. A number of prominent Tammany men offered him a large sum of money if he would cure the blindness of Charles Broadway Rouse, a multimillionaire politician. He spurned the To Hear Him Tell It, There Was money, but went to see Mr. Rouse. After a short conversation he learned Only One Other and the Dread of that Mr. Rouse was a follower of In-Committing Sacrilege Forbids gersoll and left him to his fate, as it is utterly impossible for him to cure a Mentioning the Other-He Is the person who does not believe in Christ This proves the claim often made that Ingersoll, in his innermost heart, believed in God, for, as noted above, Dr McLean cured Ingersoll.

This latter cure was effected in Bos ton. Dr. McLean and the noted infidel met in a public debate in the Academy of Music. It gave Bob a severe headache. Dr. McLean cured him. Inci-dentally the doctor disclosed to Bob the date on which the world would lose the great unbeliever, and at the same time closed a deal with him for another joint debate at some big hall in Atlantic City, the month after the day set far Ingersoll's death. Dr. Mc-Lean says that Ingersoll died on the

day he named.

The doctor concluded his story to The Tribune man by telling him how six editors of six different Chicago papers had died singly and in pairs sudden and unprovided deaths for having opposed a less divine worker than he, the famous Dr. Alexander Dowle, whose new fangled Zion church and land improvement company is doing such heaps in Chicago and Throop. "I never saw it fail," quoth the doc-

tor, speaking in awful tones and fastening his small bead-like eyes on the reporter, "that any newspaper man who ever opposed me or criticized me met with an ill fate. Certain papers in this city are going to attack me. One paper in particular, the will assail me. Your paper will not. A reporter named Eagan, on the Pitts-Commercial-Despatch told the truth about me and wrote me un nicely. I told him that the next time I came to Pittsburg he would be city editor of his paper. When I pext visited Pittsburg he was city editor of the Despatch.

The doctor asked The Tribune man to write his name in full on a slip of "When I pray for a friend, it is essential that I have his name." The reporter declined the request. The trials and tribulations of a city editor on election night were too fresh in the

aforesaid reporter's memory. The doctor's press clippings tell that he is 54 years of age, was born in New York, educated and ordained to the Presbyterian ministry in Scotland, graduated from a medical college there and has possessed the power of divine healing since birth, his mother hav ing been informed by a heavenly message while he was yet unborn that she was about to bear a son who would be next to Christ, the greatest healer the earth ever knew, and who would emulate all of His wonderful works. The doctor is a very well-educated

tion, has a face beaming with intelligence and wears soiled cuffs. PROSPECTS NOT BRIGHT.

the Eastern League Unless It Is Enlarged.

Scranton's chances of having professional base ball during the remainder of the season are not of the brightest hue. President Powers has delivered himself of the opinion that the league circuit as it at present stands is very satisfactory and that none of the teams could very well be dropped to admit

Scranton and Wilkes-Barre. There is a possibility, however, that the eight club circuit will be increased o one made up of ten clubs and that the locals and Clymer's barons will be the two extra nines. A meeting will oon be called, however, of the Eastern eague directors and the question will

then be settled. Both Scranton and Wilkes-Barre are inxlous to have Eastern league base ball and in the city down the valley preparations are already being made for the Eastern league battle by strengthening the team. Beaumont, the crack first baseman, has been signed to cover first base and Shoch, ex-manager-captain of the Athletics, only a few seasons ago general utility man on the Brooklyn nine, has been

signed to play third base. The Scranton team seems strong enough as it is to go into the larger league and whatever points should prove to need strengthening will be attended to. Great efforts will be made to land an Eastern league franchise, and in the meanwhile, for a time at least, the public will see good lively base ball in the series between Scranton and Wilkes-Barre, Both teams are on their mettle, and the Barons, stung by eight defeats out of ten games played, will work their hardest to win this series. In this afternoon's contest Kervin will proch for Scranton and will be opposed by Owen or Goodwin. Twenty-five hundred people saw yesterday's game at Wilkes-Barre and marvelled at the snappy work of the Scranton players, the Barons being out of the hunt from the very start.

PROFITABLE WORK

CELEBRATION AT ADAMS AVE-NUE CHAPEL.

Ninth Anniversary of the Estab-Fittingly Observed - Addresses James H. Torrey and Miss Mc-Church Read by E. P. Fuller-Rev. Edward H. Gunster. Dr. C. E. Robinson Presided.

The ninth anniversary of the Adams Avenue chapel of the Second Presbyterian church was last evening most fittingly and enjoyably celebrated in that cozy little building in the presence of a very large gathering of people.

The church was very handsomely decorated and presented a most beaudecorated and presented a most beautiful appearance. The exercises were opened with a selection by the Second Presbyterian Sunday School orchestra, followed with an anthem by the chapel followed with an anthem by the chapel. choir, which has been newly organized. This fact, however, would not have been noticed had it not been mentioned

during the evening. Rev. Dr. Charles E. Robinson, pasor of the Second Presbyterian church, presided and introduced E. P. Fuller, who read a paper detailing at length the history of the chapel work. It was first established in June, 1890, in the form of a Sunday school, which was located in a store room at the the corner of Adams avenue and Larch street, which store room is now speak-easy, Mr. Fuller stated.

The work grew so rapidly and the results were so encouraging that the econd Presbyterian church decided to build a chapel in 1892 and it was erected at a total cost of \$3,858. Secretary George Mahy, of the Young Men's Christian association, had charge on Sunday evenings for two years, and he was followed by Secretary F. W. Pearsall, of the Railroad Young Men's Christian association, In 1896 Rev. John P. Dunn took charge of the work and he was succeeded in May, 1898 by A. B. Williams, jr.

THE PRESENT PASTOR.

Rev. James Hughes, the present pastor, took charge in January, 1899. During the nine years the chapel has been in existence the receipts from all sources have been \$4,771.49. Mr. Fuller also read a letter full of good cheer and encouragement from Rev. Mr. Wil-

liams, who is now in Paris. Thomas Gippel and Ralph Williams, of the Second church choir, next rendered most delightfully a duet, "In the Cross of Christ," after which Rev. James Hughes made a brief address. He spoke most encouragingly of the work being accomplished and told of the great bond of friendship existing between the Second church and the chapel. "We have been trying to and have succeeded in making the little chapel a center of Christian influence," said he in conclusion.

James H. Torrey, representing the ssion of the Second church, next made a brief address, in which he paid a graceful tribute to Rev. Mr. Hughes and extended congratulations on half of the mother church to the child. Referring to the fact that the room occupied by the Sunday school is now a speakeasy, he said:
"The day of the speakeasy, I am

happy to say, is coming to an end. The character of the times has not been what it ought to be, but this condition will, I am sure, be improved soon. The first result of our efforts came today, when the defendants in all of the speakeasy cases on the list either failed to appear, thereby forfeiting their bail, or plead guilty. If we have been afraid of the juries they were evidently more afraid." These remarks by Mr. Torrey were loudly ap-

plauded. A SOCIAL HOUR. Miss McGaughey also spoke briefly of her labors among the parishioners. The evening was brought to an enjoyable close with a social hour, when

refreshments were served by the ladies of the congregation. Beecham's Pills cure sick headache
