NORTHEASTERN

AGAINST THE CANTEEN.

Universalists at Towards Adopt Resolutions Condemning the System. Special to the Scranton Tribune.

Towanda, June 13.-After the close of our report for Tuesday the follow-

ing resolution was adopted: "Whereas, the practical nullification of the anti-canteen law lately enacted by the congress of the United States by an official interpretation thereof by the attorney general has caused deep humiliation and so great concern

among all Christian people of our land.
"Be it therefore resolved as the sense of this convention that we, with the brethren of all hister churches, in expressing our disapproval of the same and demand the enforcement of said law as the law-making power intended. Failing to do this we call upon the national legislature to enact the law abolishing canteens in terms so explicit that it cannot be set aside."

Rev. Dr. Atwood, the general superintendent, preached the occasional sermon on Tuesday evening. He took for his text II Cor. 5:10. The thought expressed was that we must sooner or later cast off the masks that hide our true selves and stand revealed as we are. Some time in this world or in the next we must be just what we are This was a great deal worse world when God sent His Son to save it than it is now. Our church holds that a sick man is not so much to his family or country as a well men; so a wicked man is not worth so much to mankind as a good man. It is the duty of the church to save the wicked men, and save him for his own benefit and also his family and neighbors.

Rev. H. A. Abbott led in a prayer and praise service at 9 a. m. on Wednesday morning. The convention was opened for business at 10 a. m. Prayer was offered by Rev. Mr. Palmer, of Mansfield, committee on official busi-

THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, June 13.—Prices advanced early to-day under the two-fold influence of a better tone on foreign stocks markets and some relief by rain for the drought-stricken districts in the northwest. The northwestern grain carrying roads, however, failed to share in the strength of the day's market, and the Grangers as they came late into the movement. Baltimore and olio was strong. London was a buyer here to the xtent of about 20,000 shares and established the high range of prices. After the arbitrage brokers had ceased to operate the market became exceedingly marrow, and listless, with little of note. A feature of the day was a rally in steel stock due to reports of prospects of an entarring export demand for iron. The market closed firm and with gains well maintained. Total sales today, 216,000 shares. The bond market was dull and iregular. Total sales, \$1,100,000. United States 5s advanced ½ and the new 4s ½ in the bid price.
