PET PUPPY IS RESCUED BY AN AFFECTIONATE GOAT.

Notes of Interest in the Educational Line-June Jingle of the Matrimonial Bells-Serious Side Talks. Meeting of the Medical Pension Board-Other Topics Briefly Discussed.

Special to the Scranton Tribune.

Susquehanna, June 14. - Farmer Walnwright, of the Cascade, has a pet puppy and a pet goat which are bosom friends. Together they ramble through the neighborhood during the goat's spare moments when there-are no oyster cans, door scrapers or other edibles for it to nibble. The singular behavlor of the goat on Tuesday afternoon at-tracted the attention of the family. It ran to and fro, bleating piteously, and seemed half distracted. Some one suggested that the animal be followed. The goat seemed to appreciate the fact that it was understood, and led the way to the rear of the yard, where the puppy was found in a pit ten feet deep, almost in the last struggles. The puppy was rescued and restored to the goat, who greeted it with the fondest CAPESSES.

Wall Street Review. New York, June 14.-It would be difficult to find a salient point in fodny's stock market on which to hang an intelligent opinion of the con-ditions and the prespect. The trading was a step nearer to the point of absolute stagnation and the movement of prices throughout showed the doubt and hesitation just as it has for some time past. Prices are lower on the day, but the losses serve as little to carry conviction of any underlying weakness in the market as did yesterday's gains of any strength. Certainly there was no heavy liquidation pressing upon the market today. Total sales today, 155,000 shares. There ware only slight changes in the prices of bonds on a very small volume of busi-ness.
