LOWER WATER RATES.

The Reynshanhurst Water company stopped laying pipes for the present. They now extend along Garfield avenue and south of that on Wash-ington and Terrace streets to Seventh avenue. Salem avenue from Washington to Church street has been piped and Seventh avenue from Washington to Terrace. This is about all the territory that can be supplied with present facilities. The company proposes to make a maximum rate to families of \$7, which is \$1 less than the old rate of the Crystal Lake company. For other charges the rates win be similar, namely: One family, \$7; additional family, \$5; additional discharge cock, \$2; bath tub, \$3; wash basin, \$2; water closet, \$3; pavement, \$3; offices and stores, \$4; horses, \$1.50

#### EXTINGUISHING EXHIBITION.

Several hundred persons were attracted to North Church street and Salem avenue last evening by a fire extinguishing exhibition given by an agent named Watrous, of Montrose. The chemical extinguisher was in the form of powder, and when the flames had leaped to a height of twenty feet a handful of the magic stuff put out every vestige of fire in two seconds. The exhibition was loudly applauded.

#### How to Cure a Sprain.

Last fall I sprained my left hip while handling some heavy boxes. The doctor I called on said at first it was a slight strain and would soon be well, but it grew worse and the doctor then said I had rheumatism. It continued to grow worse and I could hardly get around to work. I went to a drug store and the druggist recommended me to try Chamberlain's Pain Balm. I tried it and one-half of 59-cent bottle cured me entirely, I now recommend it to all my friends .-F. A. Babcock, Erie, Pa. It is for sale by all druggists. #### **COMMONERS PASS** BOND ORDINANCE

WAS APPROVED ON THIRD READING LAST NIGHT.

Is Now Ready for Consideration of the Selectmen-One of the Two Fire Companies at Providence Square Is to Be Moved to Bull's Head-Ordinance for Sidewalks on Colfax and Wheeler Avenues Favorably Reported from Committee. New Measures Introduced.

The big bond ordinance to provide \$273,205.80 for the city's share of the sewers contemplated or under way, passed third reading in common council last hight, and is now ready for the consideration of the selectmen. It passed without discussion and received unanimous approval. The resolution providing for the re-

moval of one of the two fire companies at Providence square to new quarters at Bull's Head, was favorably reported by the fire department committee and Communications were reported from

City Solicitor Vosburg, approving the claim of L. Tyler Connolly; expressing the opinion that the \$1,800 claimed by James Flynn was too high; that the claim of Philip Garber was a legal one, and that the city was liable to Contractors Williams & Phillips for the sewer assessments against the properties of S. B. Mott, J. A. Mears and C. H. Welles, which the owners suc-cessfully avoided on technicalities. An ordinance providing for reimbursing the contractors passed first and second readings.

The resolution for the removal of the toll-gate from Nay Aug park was con curred in. New measures were introduced as follows:

M. V. Morris-Ordinance providing for flag stone sidewalks on Washington avenue, between Electric and Fairfield avenues. Referred. Reso-lution looking to the opening of Church ave-nue, between Theodore and Clearview streets.

Mr. Nageli-Resolution for a fire hydrant a the corner of Clay avenue and Myrtle street. Mr. Galvin-Resolution for a fire hydrant at the corner of Hemlock street and Crown aveme, and another at the corner of River street and Crown avenue. Adopted. Mr. Coleman-A resolution transferring \$50

from the Sixteenth ward appropriation to pay for the pavement in front of Mrs. John Coar's property. Adopted. The ordinance providing for flagstone sidewalks on Colfax and Wheeler avenues was favorably reported by Mr. Keller for the streets and bridges committee. He explained that the resident property owners wanted the sidewalks, but those who had purchased

land there for speculative purposes opposed it. The following ordinances passed first and second readings: Providing for a telephone in the Cumberland hose house, providing for the payment of clerk hire in the city controller's office.

The ordinance accepting the Jones & Rinsland plot as a part of the city and establishing the grade of the streets thereon passed third reading. Mr. Keller opposed the ordinances for phones in the Cumberland and Crystal hose houses, because the new telephone company will soon be in operation and will give the city free phones, and further because the ap- ways combine, though politicians very coke, visited relatives in this place on from the Pirates and pass them in the propriation from which the money is frequently attempt to bring up questo be taken has been exhausted. ## GERMANS FINE CITIZENS.

They Make Up a Tent hof Our Popu- 85 per cent. are of urban residence and lation.

The Germans have come to America in greater numbers than the Irish, and their influence has been just as great in various ways, though it may not seem so apparent. According to the last census, we had with us 2,784,894 Germans, and only 1,871,509 Irish. I do not myself believe this a fair showing, as the census takers do not ask a man his nationality, but inquire where he was born. And we find that there are 909,092 English in America. nearly half as many as Irish. That seems incredible. I am inclined to believe that at least one-third of these lieutenant-governor, E. S. Harris, Ben-English are Irish born in Englandmaybe, half of them. But they are set down as English. If, however, all were Irish, still, the Germans woold outnumber them. Industrially, the Germans have been of incalculable benefit. They have made our best tradesmen in certain kinds, they supply a great number of skilled artisans, they have introduced and almost monopolize many manufactures-notably beer-and they are famous farmers and gardeners. Moreover, they almost invariably bring with them a satisfactory quality of knowledge, and no class encourages more liberally the diffusion of learning in its elemental forms. To them in large measure we owe the fact that we are a music lov-

ward. The Germans directed and encouraged the taste, while assisting greatly in creating the wealth. Politically, if the Germans held together as tenaciously as the Irish do, they would be wonderfully powerful. At this time we have something like three million native Germans in the United States, and at least four millions more of German parentage. It these held together they would be as ATHLETIC PARK.
