IN SORE NEED OF MONEY.

Board of Associated Charities Is in Hard Straits.

That the Board of Associated Charties, which is doing such invaluable work in this city, is badly in need of money was evidenced at last night's meeting when, upon the reading of the treasurer's report, it was seen that there was not enough cash on hand to pay the agent's salary for the month of May, and had not Colonel Ripple, A. B. Dunning and T. J. Kelly, the only three members present, come to the rescue with liberal contributions, it would not yet be paid.

It is believed that a canvass will have to be made immediately among the charitably inclined people of the ity, if the work of the organization is o be continued.

It was decided last night to warn the public against several beggars now imposing upon the sympathies of a numper of the citizens. One of these is a girl about eleven years old, who goes under the various names of Ogden, Leonard and Dickson, and who tells a beautiful collection of pitiful stories, all of which are untrue. Another beggar is a woman who claims to be securing funds for another woman, who lives beyond the Round Woods.

The young woman who has been detected on several occasions soliciting funds for the House of the Good Shepherd is again out on her rounds, and people are warned not to give her anything. No one is authorized to solicit money for this institution except the disters themselves.

Mrs. Duggan stated last night that f, when persons are solicited for aims and doubt the worthiness of the case, they will call her up by 'phone, she will be able in almost all instances, on account of her intimate knowledge of the poor of the city, to give them definite information.

Mrs. Duggan's report for the period between May 29 and June 19 was as follows: Applications, 62; cases investigated, 39; found worthy and aided, 28; not needy, 11; employment found for, 8: medical aid found for, 3: transportation given, 2; sent to Lacka-wanna hospital, 2; sent to Hillside Home, 1; sent to friends, 4; homes found for, 2; prevented begging, 3; arrested, 2; advice and direction given,

AN ENJOYABLE EXCURSION. Nearly 700 Journeyed to the Parlor

City Yesterday. The annual excursion for the benefit of the Home for the Friendless was run yesterday to Binghamton and proved a great success, as have all past excursions given for the benefit of this most worthy institution.

The special train which consisted of twelve coaches, left the city by the Lackawanna road promptly at 8:30 a. m., carrying between 600 and 700 excursionists and Bauer's band. When the "Parlor City" was reached the crowd immediately took cars for the various points of interest in and around the

VIADUCT PROJECT VERY MUCH ALIVE

PRESIDENT TRUESDALE DIS-CUSSED NEW PLAN.

Head of the Lackawanna Company Conferred with a Board of Trade visement the Latter's Plan of Having the Railroad and Street Companies Build the Structure, the Give Answer in Ten Days.

President .W. H. Truesdale, of the Delaware, Luckawanna and Western Railroad company, was in this city yesterday, and spent over an hour in onsultation with the streets and bridges committee of the board of trade on the viaduct question.

The members of the West Scranton oard of trade, having taken up this matter and having failed in crystalizing public sentiment in favor of the mprovement, the Scranton (without the west) board has taken it up andfrom the statements of some of the members of the committee seen after the conference-with a very big chance of ultimate success.

The conference began shortly after 5 clock, and was attended by Colonel F. L. Hitchcock, C. R. Kingsley, A. B. Dunning, Secretary Atherton and Mr. Truesdale. The committee submitted its plan, which is in brief that the Lackawanna company and the Scranton Railway company should get to gether and enter into a joint agreement for the construction of a viaduct at their own expense, the city to be liable only for the damages.

FAVORS COMMITTEE'S PLAN.

Mr. Truesdale stared that he was heartily in favor of co-operating with the board of trade, with the councils or with any influential body of citizens in any project that would tend to the erection of a viaduct over the West Lackawanna avenue crossing. He said that he still held the view he has always held on this subject, namely, that the viaduct when built should be constructed from curb line to curb line, thus effectually closing the street and rendering any accident at the crossing impossible. He appeared to greatly favor the plan of the committee and announced that he would confer with President Clarke, of the street railway ompany within a week, and announce positively the company's stand on the proposition within ten days.

The members of the committee believe that one of the principal reasons for the defeat of the viaduct proposition at the spring elections was the belief current among a number of the taxpayers that the companies were not contributing enough towards its erection. The Lackawanna made a bona fide offer of \$25,000 and the Scranton Railway company one of \$10,000 only. The latter company offered to contrib-

ute more than this last named sum,

provided it was exempted from an increase of local taxation, which offer wouldn't, of course, be considered for a moment. City Engineer Phillips has estimated nost charming resort with its wild that the cost of the structure will be for the Casino at Union, about ten the benefits to be derived from its was not reached until 8.30, owing to a company was willing to contribute for days.

a viaduct on the south side of the strect, while favoring one in the center is taken as good ground for the belief extra \$10,000 if the street railway company does as well.

LIKELY BE IN LINE. The fact that the officials of the later corporation have so recently announced that they are perfectly willing to erect a viaduct for their own use at an estimated cost of \$30,000, is taken as a good strong foundation on which to base the belief that this company will also be inclined to contribute viaduct to cover the entire street.

half of the cost of construction of a Altogether the several members of the committee and a number of the prominent members of the board are very sanguine as to the outlook. If the two companies agree to construct the viaduct, the plan is to have an ordinance passed providing for a special election in order that the citizens of the city may vote as to whether or not they are willing to have the city bonded to pay for the damage which will accrue to property owners on both sides of West Lackawanna avenue, between Seventh and Ninth streets. As an illustration of the great in-

held entirely at his solicitation, he part of his visit in Scranton to a general superintendent, talk with the committee having the viaduct matter under consideration.

NORTH MAIN AVENUE PAVE.

City Engineer Severely Critises the Way the Company Does the Work. City Engineer Phillips stated to a Tribune man yesterday that he is experiencing great difficulty in having the work on the North Main avenue pavement done satisfactorily. In addition to the regular inspector, Joseph Taylor, he states that he has been obliged to place one of his own men

The "Indian River"

Pineapple, is just as popular as the "Indian River" Orange. Nothing better grown. We sold large quantities on Monday, and orders can be placed now, for delivery this week.

Wholesale and Retail.

on the ground, and that he is obliged LITTLE GIRL MADE there himself.

The greatest trouble has been experienced in having the bricks all laid perfeetly level before the "grout" or cement is placed between the interstices. The company wanted to put in the grout on a portion of the pave last week, but Mr. Phillips would not al-

low it then, nor has he yet. This difficulty has been caused, he states, by two things. First, unskilled Committee and Took Under Ad- labor, the company being an asphalt concern laying very few brick pave-ments; and, secondly, because the sand used was not screened, the small stones accordingly making an uneven surface on which to lay the bricks. Mr. Phil-City to Pay the Damages-Will lips insists that the pavement must be in condition to allow a fifteen-foot straight edge to be placed on it before ne will allow the cement to be placed

Another thing which Mr. Phillips states has been a source of great annoyance is the inferior quality of brick used. He states that after the pave had been laid and passed upon by the company's foreman, he has been obliged to order taken out, in some instances, as many as half the bricks within a given area, these being in most cases baked too much.

He has a man constantly on duty at the concrete mixer to see that things are done properly there. Mr. Taylor, the regular inspector, sees that the concrete is laid properly, and Mr. Phillips himself, as stated above, looks after the laying of the bricks. About 1,500 feet of brick have been laid thus far, and the work of grading the street has extended almost as far as the cor-

MARRIED FIFTY YEARS.

Uncle Jake Snyder and Wife to Celebrate Their Golden Wedding Today.

Court Crier and Mrs. Jacob B. Snyder will today celebrate the golden anniversary of their wedding, with a reception from three to eleven, at their ome, 1219 Washburn street, to which 725 friends have been invited, including the local judges and attorneys and the judges of adjoining counties with whom Mr. Snyder has formed a close acquaintanceship during his twentyone years' incumbency of the office he so gracefully adorns.

The wedding which today's event will commemorate was performed June 20, 1850, in Gloversville, Fulton county, New York, by Rev. Mr. Elster, a Lutheran clergyman. The latter is dead, having passed away soon afterwards. His body was interred on what later became the battlefield of Gettysburg. Mrs. Snyder's five brothers and sisters, who witnessed the ceremony, are all living, and some of them are expected to attend today's celebration, Mr. Snyder is 76 years of age, having been born July 7, 1824. Mrs. Snyder was born Aug. 13, 1828. Uncle Jake comes from old Revolu-

tionary stock and he is one of the few men living today who has heard the story of Saratoga, Valley Forge and Yorktown recounted by a participant in those and the thrilling intermediary events, his grandfathers both having the Continental army served in throughout the whole conflict. His father served in the War of 1812. The Snyders came from Rotterdam, Holnatural beauty and others took cars \$70,000. The committee believes that land, in 1770, settling in Columbia county, N. Y. where Uncle Jake's miles outside the city. Bauer's band erection will be about equally divided grandfather was born. The latter is gave a most excellent concert at the between the two companies, and on this buried about 75 feet north of the Jerpark in the afternoon. A SAD DISCOVERY

FOUND HER FATHER'S DEAD AND MANGLED BODY.

When John Dunnigan, of Olyphant, Did Not Return Home His Twelve-Year-Old Daughter Went Out Early in the Morning to Inquire for Him and While Walking Through the Delaware and Hudson Yard Found Him Cut to Pieces on the Track.

John Dunnigan, aged 46 years, was cilled by the cars in the Olyphant vards of the Delaware and Hudson company sometime Monday night or vesterday morning.

He was an old resident of Olyphant, but for the past few weeks has been in the soft coal regions in the western part of the state. He returned Monday night, and it is supposed was on his way home when struck by a coal train backing into the yards, The body was first discovered by his

12-year-old doughter at 5 o'clock yesterday morning. Her father not arriving home as expected she went to look for him and found the remains horribly mangled a short distance above the station. Both of his legs were cut off and one arm severed. Undertaken Sweeney took charge of the remains and moved them to the morgue. Coroner Roberts was notified and

Dunnigan leaves a wife and nine POST OFFICE BURGLARIZED.

went to Olyphant yesterday morning,

deem an inquest necessary.

Forest City the Scene of an Exciting Early Morning Episode.

An attempt was made by burglars, arly yesterday morning, to loot the Forest City postoffice. The safe was blown open, but the intruders were frightened away before they could secure any plunder.

The burglars entered the postoffice, which is located upon the main street between the hours of 2 and 3 o'clock in the morning, forcing a window to make an entry. They then began operations on the safe, which they drilled and charged with an explosive, which they set off. They did not try t deaden the sound in any way and the result was a terrific explosion, which aroused all the people in the neighborhood.

The burglars, in alarm, left the building and dashed down the street, followed by a few bullets, fired by the neighbors. They were five in number, and all the plunder they secured consisted of a package of postage stamps and a few pennies from the money

The matter has been reported to the secret service bureau. RAILROAD AGENTS HERE.

Party of Them Visited Scranton

Yesterday Afternoon. The monthly meeting of the union line agents of the Pennsylvania rail county, N. Y., and moved to Green- road system east of Pittsburg and Erie was held at Hotel Sterling, Wilkescourtesy of the Delaware and Hudson officials, a number of the agents visited this city during the afternoon.

They arrived at 2.20 and were shown about the city by W. J. Mullin, the local agent, and returned to Wilkes-Elizabeth Deckar. Her father was Barre on the 4.27 train. In the party T. Smith and Agents M. G. Van Graw, Nye, of Boston; Woodruff and Gilkinson, of Newark, N.
