## CARBONDALE.

### CITIZENS' WATER TRACT.

The water committee and councilmen who visited the Ransom tract, upon which it is proposed to erect a citizens' water plant, found that all that is needed to complete the basin is a stone wall 285 feet in length. This becomes a minor matter when one considers the fact that there is a valuable stone quarry included in the seventy acres that are under option to the Citizens' company and which will be turned over to the city if the proposition is accepted. The basin is separated from the city by a knoll, so that the wall would be laid on the end farthest from the city. In order to tap the basin it would be necessary to tunnel the knoll. This tunnel would be 1,250 feet in length and thirty-four feet below the surface at the deepest point.

The basin, it is said, would have a capacity of 340,000,000 gallons of water and the water-shed on the east would furnish, on an estimate given by A. B. Dunning, of Scranton, at least a half billion gallons of water a year, which, with what flow of water there is now on the ground would allow 200 gallons per day for each resident of the city, figuring the population at 15,000.

It has been estimated by Engineer Dunning that the construction of the plant and piping of the city will cost $170,000. Councils will meet some time this month to take further action in the matter.

### FRUIT GALORE.

Regarding the Catholic Ladies' Independence Day fete the Review said: "Some one mentioned that about everything had been provided for but the fruit, and added: "What are we going to do for fruit?" Father Coffey solved the problem by calling before him several hundred little girls, each of whom was requested to bring three oranges, three bananas, etc., or their equivalent in cash. Fruit multiplied like the loaves and fishes and the outcome seemed almost as miraculous as the feeding of the five thousand."

### IS IT RIGHT

#### For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the markets, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known and used this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past twenty years. For sale by all druggists. Matthews Bros., wholesale and retail agents. **

### DAMAGE FROM STORM.

#### Telephone and Electric Light Service Broken Up in Tunkhannock. Other Property Destroyed.

Special to the Scranton Tribune.

Tunkhannock, July 7.—The streets here today have presented a scene of unusual activity owing to the gangs of men employed in gathering up the debris of yesterday's storm. Street Commissioner Carpenter was out with a gang of men all day engaged in removing the trees from the street to make them passable and the work was not completed today. The electric light company have had their men out all day making repairs to their wires and promise us light for this evening. The town was dark last evening, the plant not being started at all on account of the danger from crossed wires. The Postal Telegraph, the long distance telephone and the local telephone companies have all had linemen out getting up their broken wires and the telegraph and long distance telephone are in working order tonight. The local system is badly crippled and the whole line will have to be gone over. There is hardly a wire in town belonging to them up. Many valuable fruit trees and numerous shade trees were uprooted and the damage in that respect will be quite extensive. The home of Attorney C. A. Little has one chimney less than it had before the storm and the Presbyterian parsonage and the residence of J. L. Vose and S. W. Fitch suffered some damage. Probably the most destructive piece of work done by the storm was at the old Gearhart coal shutes, now occupied by G. D. DeWitt & Son. The entire top of the schutes was blown over and the Montrose engine and one car, which was passing at the time, were buried under the ruins. The train was extricated without much damage, but the damage to the schutes will be quite extensive. A very heavy rain storm came up this afternoon, and owing to the blocking of the gutters by the branches of trees blown down yesterday, the streets were badly washed in places. It will be some time before all the damage done by the storm is repaired.

The first pay day at the new woolen mill was on Tuesday evening last, when all the hands were paid in full. The mill is not running at its full capacity, as some of the machinery is still on the road.

### LUZERNE PRIMARIES.

#### Crawford County Rules Given a Trial by Down-the-Valley Republicans.

Special to the Scranton Tribune.

Pittston, July 8.—The Crawford county rules governing primaries were formally initiated in the Republican party in Luzerne county on Saturday evening, when the people were given their first opportunity to vote directly for the men whom they wished to place in nomination. The returns have not all, as yet, been reported, but as far as can be estimated, the successful ones of the list of forty-two aspirants, are as follows:

For Congress—Ex-Attorney General Henry W. Palmer, of Wilkes-Barre.

For State Senator—William Drury, of Pittston.

For Additional Law Judge—George S. Ferris, of West Pittston.

For Clerk of the Courts—Reese Lloyd, of Freeland.

For District Attorney—Benjamin R. Jones, of Warrior Run.

For Prothonotary—Brinton Jackson, of Nanticoke, or Jonathan R. Davis, of Kingston, with the chances in favor of the former.

For Jury Commissioner—W. L. Higgs, of Wilkes-Barre.

As an eliminator of the use of boodle, the first test of the Crawford county rules has proven a flat failure. More money by far has been spent for the primaries this year than under the old system and it is generally thought that the total amount aggregates between $50,000 and $75,000. The rules were effective in bringing out an unusually large primary vote. At the last general election the largest Republican vote cast in the county was 14,344 and it is estimated the vote at Saturday's primaries will foot up several hundred more. In Wilkes-Barre city alone, 500 votes more were cast than at the last general election. While the result is not all that could be desired in the line of nationalities, the distribution of the offices in regard to localities has been fairly well done and the ticket can be considered a strong one.

Mr. Ferris has probably polled the highest number of votes on the ticket and was an easy winner.

The nomination of Mr. Drury for state senator is a sweeping victory for the Quayites, and his handsome majority over his chief opponent, Mr. Scott, (an avowed anti-Quay man), is a blow to the "antis." While Mr. Drury has not publicly expressed himself on the question, it is generally understood he will stand by the caucus and vote for Mathew Stanley.

The selection of Benjamin Jones for district attorney is not considered a surprise, and he beat Mr. Baxter with plenty of votes to spare. The latter had aroused considerable interest in his candidacy owing to his energetic canvass. He was the most widely advertised of the forty-two candidates, and, it is said, had expended between $5,000 to $7,000 on his campaign. In the counting of the ballots, however, he didn't cause much of a ripple.

The race for the prothonotary nomination has been considered the most doubtful one all through the campaign, and it now seems to lie between Davis and Jackson, the latter being given the benefit of the doubt.

### COULD NOT PLEASE AUDIENCE.

#### A Lithuanian Lecturer at Pittston Placed Under Bail.

Special to the Scranton Tribune.

Pittston, July 8.—Rev. Vincent Dilonis, of Pittsburg, a Lithuanian lecturer, was arrested by the city police, while holding a meeting here this evening. The meeting was held in Armory hall, with about 400 Lithuanians in attendance. During the course of the speaker's address some of his remarks were contrary to the liking of some of the audience, who became demonstrative, and the meeting came to an abrupt end, with yelling and hooting against the speaker. The latter was then placed under arrest by the police officers who were on hand. He was given a hearing by Mayor Corcoran at 9 p. m. and discharged.

The man lectured in Scranton this afternoon, and declared his intention of lecturing in Pittston again next Sunday evening.
