LI HUNG CHANG'S MISSION

It Is Believed That He Has Been Summoned to Pekin to Break the News of the Tragedy to European Powers-The Situation at Tien Isin Is Also Alarming-Wholesale Murder of Converts by the Boxers.

London, July 12, 3.30 a. m .- The Chinese situation again bears a most ominous aspect. Eight long days ago Sir Robert Hart telegraphed his last message declaring that the situation was desperate and since then no word has come from the Europeans in Pekin.

According to the Daily Mail's Shanghai correspondent, Li Hung Chang has received an imperial decree ordering his immediate departure for Pekin, presumably to break the news of the Pekin tragedy to the European powers and, in his usual role of negotiator with Europe in different matters, to endeavor to act as mediator and to avert the vengeance of the powers.

To add to the grimness of this suggestion, all advices from Tien Tsin tend to confirm the report of the perilous conditions of the allied forces and belie the optimistic Chinese rumors, Unless reinforcements speedily reach Tien Tsin another disaster may be expected

Situation at Tien Tsin.

The Daily Mail's Tien Tsin correspondent, telegraphing July 5, says:

"The situation is about as had as H can well be. I only trust that we shall not soon want relieving ourselves. A forward movement is impossible. From \$0,000 to 40,000 troops are wanted and there are only 10,000 here. The foreign troops are working well together, but it is inconvenient that there is no

Postmaster-General Looks for an Earnest and Active Campaign.

WILL BE TWO SUBJECTS

The Discussions Will Be Chiefy Upon the Currency-Refusal of the Democracy to Accept the Verdict of Four Years Ago, Make This Consideration Necessary-President McKinley in Conference with Mr. Smith-The Lawn at Canton.

Canton, O., July 11 .- "You can say, hat we of the east are pleased with both conventions," said Postmaster General Smith, when asked to say something on the political situation. "What kind of a campaign do you anticipate?" was asked.

"I look for an active and earnest campaign all along the line with much speaking. The general speaking I do not think will commence much before the first of September: but between now and then there will be occasional addresses by Mr. Roosevelt and possibly some others."

'Along what lines do you expect the ampaign to be fought?"

"I think the contest will settle down to virtually two issues. One of these, probably the chief one, will be the currency question. The Democratic con-vention has made it so. They refused to accept the verdict of four years ago. They have proclaimed their stand for silver and the battle of four years ago on that question will have to be fought over. There is no such issue as imperialism. That is a fiction. There can be no imperialism in a free country. But the question of upholding and strengthening the government in dealing with the issues growing out of the war and in adminstering the new people brought under our care and protection is an important issue and will figure conspicuously, in the campaign."

As to the foreign ministers in Pekin, he said that they were requested by the Tsung-li-Yamen, in order to insure their safety, to leave Pekin for Tien-Tsin when the rioting and anarchy in the Chinese capital became more and more rampant. This the ministers did not take immediate advantage of, and later the troubles had spread through all the intervening country between Pekin and Tien-Tsin, so that the greatest safety, if safety there was, lay in their remaining at the capital rather than risking the still greater peril of a journey across country.

President Will Make Few Speeches.

President McKinley shortly before lunch took a walk of several blocks, accompanied by Postmaster General Smith, who is his guest, and Postmaster George B. Freare. There was a church, Mr. Cooper said, stood at all large number of callers at the house during the day, and active preparations about the lawn for the notification tomorrow. The campaign of 1980 in Canton will not be a duplicate of

the campaign of 1896. It is not the impossible to crowd the educational present intention of President McKinley to make speeches to delegations who may visit Canton during the summer and fall, even if he should remain. The president will be so much occupled with public business that he will have but little time to devote to the campaign. Four years ago he was a private citizen, and as the candidate of his party felt justified in taking the active part he did in the campaign Now he is president, and feels that he should give his attention to the many questions of government that are pending and which are constantly arising. It is the present intention of the president to confine his participation in the campaign to his speech tomorrow and his letter of acceptance. Various clubs, delegations and deputations have telegraphed here, asking when they can

a received by the president. The replies sent in response to these messages have said that the length of the president's stay in Canton is indefinite and that he can make no appointments for the reception of such delegations. Those who call to pay their respects will be received at times when the president is not engaged, as they would be were he in Washington, But the president will not make speeches from the front porch to visiting delegations.

Notification of McKinley.

Preparations have been about comdeted for the notification of President McKinley for his re-nomination for the position he now holds. Back of the nouse a large tent has been put up and here the notification committee will have luncheon after the ceremonies are completed. The publication of the alleged plot against President McKinley did not disturb him in the least.
