BIG BREAKER BURNED.

The Abandoned Boston Building Is Destroyed by Flames.

Pittston, July 19.-The old abandoned Sosion breaker, situated back of Yatesville, was totally destroyed by fire it is thought, from a spark from a comotive on the Wilkes-Barre and Eastern road, and the flames blaze! furiously for two or three hours, no effort being made toward their extinction. The breaker was owned by the Butler Coal company and had been abandoned a few years ago, upon the erection of the Fernwood breaker, about a quarter of a mile away. The employes at the Fernwood have been on strike for some time past, and it was there the riot recently occurred. The rumor quickly spread through the town today that it was the Fernwood that was ablaze, and naturally it was the participants in the Educational thought to be the work of the strikers. Contest. Yesterday was a great deal but the rumor proved groundless, as the Fernwood was not the least endangered by the blaze. The Fernwood pumping station is located near the ourned structure, but was safed by a bucket brigade.

The burned breaker was one of the oldest in this yleinity, but as the machinery was all taken out and the breaker abandoned, the loss is not a great one.

STROUDSBURG.

Special to the Scranton Tribune.

Stroudsburg, July 19 .- The Pocono Mountain Ice company and the Pocono Summit Ice company, two local ice companies, have determined to make a test case out of the state's right to ville, was totally destroyed by fire assess a mercantile tax upon them, about noon today. The fire originated, County Treasurer F. W. Ellenberger brought suit before Justice Drake to recover the sum of \$10.83 from the Pocono Mountain Ice company, and \$9.20 from the Pocono Summit Ice company, the amounts representing their mercantile tax. Justice Drake gave judgment by default. Both the companies have taken an appeal from the appraisement to the court of common pleas, but it was after the summonses were issued. It will be remembered that the state has made a distinction between natural and artificial ice companies, ruling that the natural ice companies are not manufacturers of ice, and so must be assessed. The artificial ice companies are rated as manufacturers and not subject. The case will come before Judge Craig for final de-cision, and as it affects every ice company in the state the outcome will be awaited with much interest.

The hot weather during the past few days has made it hard for the preachers at the camp meeting near Water Gap, which is conducted by the local preachers of Easton, Pa. On Tuesday the thermometer registered nearly 100 degrees at the camp, and the preachers preached with their coats off. Many noted preachers during this week have addressed the congregations, which have been large, considering the unfavorable circumstances, and those in charge are greatly encouraged at the outlook. Rev. P. J. Kain has given several of his excellent Bible talks, which have been largely attended. Miss Josie Hillman and her helping hand meetings are in favor with all the campers, especially the young people. Mrs. W. B. Osborn, a returned missionary from India, had charge of the helping band meeting yesterday, and pleased all who listened to her. In the afternoon and evening services Rev. W. B. Osborn, of Hackettstown, N. J., gave two excellent short talks. Tomorrow afternoon Rev. B. E. Bender, of Pen Argyl, will lead the 3 o'clock meeting, while in the evening Rev. W. Willet, jr., of Lawrence, N. Y., will preach, This evening the well-known and popular Rev. R. W. Jones, of the Fourth Avenue Methodist Episcopal church, of Brooklyn, will preach. Many local pastors are taking part in the services, together with Rev. Richard Radeliffe, of Mahnelm, Pa.; Rev. Dr. Wright, Roy, Dr. Finlaw and others, Services are held five or six times dally. The towns of Stroudsburg and East Stroudsburg are well represented among the campers by F. J. Kistler, Robert B. Keller, Stewart Flagler, E. S. Rinker, Lewis Wallace, Mayor H. S. Puterbaugh, C. THE MARKETS.

Wall Street Review. New York, July 19.—The dullness of today's stock market was almost unrelieved by any feature of interest until the last hour, when a sharp unward measurement flex-topped in a number of specialties. This was sufficient to induce a siregish general recovery in the market, which hid fallen considerably below last night at some points. The classing was, therefore, firm but dull, and the ret changes were insignificant except in a handful of stocks. Sugar led the late advance and moved up an extreme 3% on the expectation of a further rise in the price of the refued product, which is now higher than for several years past. The margin between the price of raw and refined sugar is now sufficient, according to the experts, to yield a large profit on refining. Pacific Mail rose sharply over Tuesday's high level on renewed speculation over the benefits to accrue, from transport of military stores to China. The steel stocks were generally strong in the encouraging view of the Iron Age of the trade outlook. Sized Hoop and Tin Plate were empecially affected on reports of renewal of busing demand of their products. Otherwise the market was barren of interest.
