CITY'S ANSWER PREPARED. Gives the Other Side of the Turn-

pike Controversy. City Solicitor A. A. Vosburg will to day file an answer in the injunction roceedings, instituted by H. E. Paine resident of the Providence and Abing on Turnpike company, to restrain the ity from interfering with the com pany in repairing the portion of the pike within the city limits.

The answer, it is understood, will follow the trend of the evidence pro-duced by the city at the first hearing on the rule to make the injunction permanent, which was conducted before Judge Archbald, last Friday.

The answer will set forth that the ity is not only willing, but has men ctually engaged in making the repairs; that the city has a right to repair the road at any time and by such means as its judgment dictates; that the Turnpike company can not designate the time nor the manner of making the repairs; that provision has been made to expend \$1,500 on the work this year, and finally, that there was no occasion for the company to take upon itself the work of repairing the road. A second hearing on the rule to make the injunction permanent will take place this afternoon at 2 o'clock.

#### CITY CLUB'S OUTING.

Members Had a Very Enjoyable Time Saturday at the Speedway. Winners of the Events.

The members of the City club and a number of their friends enjoyed themcives immensely on Saturday at the Speedway, where their annual outing was conducted. There were a number of excellent races, and the whole affair wound up with a clambake.

The races were undoubtedly the best seen this year on the Speedway and were witnessed by large crowds of spectators, who lined the road on both sides. President J. M. Kemmerer acted as judge and starter, while Dr. Hill and two met on the street yesterday after-Frank Vandling were the timekeepers. The distance in each race was a half nile, and the conditions were best two out of three heats. As all were won straight, no third heat was necessary

n any instance. The events commenced promptly at 3.30 o'clock, the first being between James T. Keller's gray gelding Frank and a runner driven in a sulky by H. S. Gorman. Frank won both the first and second heats, the time being 1.12

The second race was between W. J. Welsh's Honest Bob, A. P. Bedford's Nay Aug and John Fritz's Brast, all driven by their owner in road wagons. Honest Bob won the two first heats, but was hard pressed by Nay Aug. The

time was 1.32 and 1.35. The third event was a double team race, between George M. Hallstead's gray gelding, Jimmie, and bay mare, Prince, and Mr. Kemmerer's bay pair, Prince and Landmark. Mr. Hallstead's eam, which has a record of a mile in John Jermyn and family returned Saturday 2.15, won both heats easily in 1.30 and

> The next race was probably the most warmly contested of any. The entries were Jerry Knight's Poor Richard Smith Gorman's Walter J, and Charles Bennett's Dixle. Walter J won the first heat in 1.20, with Poor Richard a close second. The second heat was won by Poor Richard in 1.14, while Walter J finished third. This gave the race to Poor Richard.

Two heats were then run by Smith Gorman's Major S and Nate Thompson's St. Nick. Both were captured by Major S in 1.15 and 1.12.

The races finished, the members of the club and a number of their friends sat down to the clambake, and a mercy time was had until late in the evening. The arrangements were in charge of Major W. S. Millar and Dr. G. E.

### **OUARRELLED ABOUT** A CHEAP GOLD RING

THOMAS MOFFATT SHOT DENNIS ers to stop a ball game at Richmond LALLY.

The Injured Young Man Is in a Very Dangerous Condition and Has Only a Fighting Chance for Life. His Assailant Fled Toward the West Mountain After the Shooting and Has Not Yet Been Captured-Both of the Young Men Live in North Scranton.

A cheap gold ring was the cause of quarrel yesterday afternoon in North Scranton between two young men, neither of whom have as yet attained their majority, and as the result of this quarrel Dennis Laily, one of the young men, lles at his home on Putnam street, with four builet holes in his body and only a fighting chance for life, while the other, Thomas Moffatt is a fugitive from justice, with the gloomy prospect of being arrested and perhaps standing trial for murder, staring him in the face.

Lally is but eighteen years old and Moffatt but nineteen years. Lally lives with his mother, a widow, at 403 Putnam street, while Moffatt resides with his parents, Mr. and Mrs. John Moffatt, on the 500 block of Brick avenue, near the corner of Putnam street. Both work in the mines and have traveled in each other's company for several years. According to the story told a Tribune man, late yesterday

fatt was intoxicated on Saturday while in his (Lally's) company. They walked up near the Delaware, Lackawanna and Western tracks at the Von Storch shaft, and Moffatt, laying down, fell asleep. Lally says that Moffatt had a gold ring on his finger of which he was very proud, and that while he was sleeping a stranger came along and removed this

afternoon by Lally, as he lay propped

up with pillows in his bedroom. Mof-

ring. ACCUSED LALLY OF THEFT.

Lally said that when Moffatt awoke and found the ring missing he accused him of stealing it. This Lally vigorously denied and let the matter drop for the time being. At any rate the noon shortly after 1 o'clock and the quarrel was again renewed. Moffatt charged Lally with being a

thief and Lally denied having had anything to do with the ring. The discussion became very animated and finally a mutual agreement was reached providing for an adjustment of the difficulty in a fair and open fist fight in the open field back of the Von Storch mine, and known as the Von Storch field.

Lally is a strong, hearty young man, very well proportioned and heavily built, and, of course, thought he had a very fair chance with Moffatt, who is smaller and not so strong. He did not know, however, that the latter was determined not to fight fair, and that he had a loaded revolver in his pocket ready to use.

The two contestants started out for the field, followed by several other young men, all about the same age, who were desirous of seeing the fight. Among these were James Gallagher, Andrew McCurran, William Scanlon less important in the French exposiand Thomas Duffy.

of these, Lally took off his coat upon arriving on the battle ground, and just as he turned to meet Moffatt the latter, without warning, drew a revolver from his back pocket and fired

FELL AT FIRST SHOT. At the first shot Lally fell and Moffatt, it is alleged, walked up to him and fired three more shots into his body as he lay on the ground helpless. He kept one shot in the gun to save himself if attacked, presumably, and started on a run off the field toward the West

mountain. Several of the young men started after him, whereupon he stopped and warned them not to come near him or would fire. This cowed the others. and they allowed him to make away over the fields without further moles-

In the meantime, some of the others, who had seen Lally shot, rushed to his assistance and he was assisted to his home, being able, in spite of his wounds, to walk. He weakened, howordinance appropriating \$1,500 for clerk ever, when the house was reached and

Dr. J. P. Stanton was immediately summoned, and upon his arrival found One bullet passed entirely through the body, entering the back, between the fourth and fifth ribs, and coming out in front, just one-quarter of an inch

below the apex of the heart.

The left lung was pierced by this pullet. Another bullet took effect in nature to the ordinance providing men | the right arm, below the elbow, while third was lodged in the left arm at the elbow joint. The fourth was lodged in the left leg, just above the knee, The bullets in the arms were reoved, but that in the leg could not be found. Those extracted were of 28 calibre. The wound in the chest is he dangerous one. Dr. Stanton statd to a Tribune man last night that thought the young man's chances of

covery were very slight. Lally himself when seen said that he had agreed with Moffatt to have a fair and open fist fight and that as he turned to put up his fists the latter pulled the revolver and fired. The police were notified of the affair

## ARE HOME FROM EUROPE

Impressions That the Paris Exposition Has Left with Scrantonians Who Recently Visited It.

Mr. and Mrs. John Jermyn, Miss Sue Jermyn, and Miss Hutchings, Moosic, comprising one party, and Mr. and Mrs. Reese G. Brooks, their daughter, Mrs. Willard Matthews, and Mr. and Mrs. J. A. Lansing, who made up another party, arrived home Saturday night from the Paris exposition and European tours. All report a delightful trip and express themselves as

much pleased with the fair. The Jermyn party have been abroad for several months. They were in London, July 4, and were met there by Mr. and Mrs. Brooks and Mrs. Matthews, all of whom were stopping at Hotel Cecil, the headquarters of the Yankee celebration. Mr. Jermyn and Mr. Brooks were among the guests at the

selebrated Fourth of July banquet. Mr. and Mrs. Brooks, Mrs. Matthews and Mr. and Mrs. Lansing went over June 16 direct to Paris and, after spending a week together doing the exposition, separated to meet again in London, Mr. and Mrs. Brooks and Mrs. Matthews going to Wales, and Mr. and Mrs. Lansing to Holland and Belgium. Mr. and Mrs. Lansing were in Amsterdam, July 4, when W. H. Richmond's party were there, but were unable to locate them during the few hours they had to walt, and had to be content to leave cards at their hotel. An American, Mr. Lansing says, is prone to judge an exposition by the immensity of its mechanical display, as all our expositions have made a specialty of this. Judged from this standard, the Paris exposition is not to be compared with the Chicago World's Fair. The French tend more to art, textile and similar displays, and consequently what is the primary display in American fairs is secondary or even

The electrical display is also inferio to that at Chicago, Mr. Lansing says, but in the matter of electrical illumination the Paris affair far eclipses that of Chicago. The Illuminations of the Eiffel tower and the electrical fountain are magnificent, the latter far excelling our much admired McMonies' foun-

The United States exhibits, Mr. Lansing says, are not satisfying to an American. Their greatest fault is that they are not well placed. One has to travel over too much territory to see the whole exhibit, and as a consequence many of the visitors do not see it all and leave with a wrong impression of Mr. Lansing did not make any further adverse criticism of the United States exhibit, but also did not grow wildly enthusiastic over any feature

Mr. Brooks found much to interest him at Cardiff, the great coal port of Wales, with its immense docks and chutes and most modern of appara-

tus for coaling ships. He says the mines of Wales are loing quite as well as in this country and the operators are doing vastly better, receiving comparatively fifteen per cent. more for their product. The wars have given a great impetus to the coal business and occasioned an industrial awakening in the mining re-

gion of Wales. Mr. Lansing, who has been in Europe number of times, remarks the growing good feeling toward Americans. The Dutch papers all had extremely omplimentary things to say of the Fourth of July celebration at Amsterdam, and the spirit of the patriotic Yankee who conducted it.

### HIS RESIGNATION REPORTED. Story That T. H. Watkins Leaves the Temple Iron Company.

It is persistently rumored in coal circles that Thomas H. Watkins has resigned the presidency of the Temple Iron company. The story has it that he intends to devote his time to the development of bituminous holdings in which he and his partner, C. D. Simpon, are largely interested. Both Mr. Watkins and Mr. Simpson

are out of the city, and A. F. Law, the only other officer of the company in Scranton, could not say whether or not the rumor was correct.

# LAID AT HAWLEY

RT. REV. BISHOP HOBAN OF FICIATED.

The Church Will Take the Place of That Erected in 1852 by the Rev. Moses Whitty-The Sermon Was Preached by the Very Rev. Eugene A. Garvey, of Pittston-Ceremony nessed by Upwards of Three Thousand Persons.

Nearly three thousand persons from he surrounding country witnessed the laying of he corner stone of the new St. Philomena Catholic church, Hawley by Rt. Rev. Bishop M. J. Hoban ran, M. H. Dunn and R. A. McAndrew, vesterday afternoon. The Eric and Wyoming train that left this city at p. m. was composed of nine coaches, all of which were comfortably filled with Scrantonians bound for Hawley to witness the ceremony.

Hawley was crowded to overflowing vith visitors, and the residents had dressed the town in gala attire, When OVERDOSE OF LAUDANUM the last excursion trains from Scran ton and Honesdale had emptied their oads of human freight, a procession of visitors containing easily twentyfive hundred persons started up Main street, headed by the Forest band. They passed under the large evergreen arch that had been erected, then turning into Sixteenth street, proceeded

to the site of the church. The proposed new church will oc cupy the corner of Sixteenth and Twentleth streets, upon the same ground where formerly stood the old and historic edifice it succeeds. The foundation walls of the new church have already been built, and it is expected that the building will be ready for occupancy on January 1 next.

LAYING THE STONE.

was to be placed, a small pavilion, decorated with the national colors, was erected. At 4 o'clock, the procession the basement of the church, where the cross under the altar was blessed, after which the procession to the pavilion took place. Here the Litany of Saints was chanted, after which the tone was blessed and placed by the bishop. There was a beautiful approprintness in the laying of this corner coposed structure he first worshipped as a little boy at the altar of his God. The sermon of the day was preached by Very Reverend Eugene A. Garvey, of Pittston. He took as his text from Genesis; "And this stone which I have set up shall be called the house

of God." The sermon was an eloquent and pressive one and held the profound attention of the vast audience to its lose. He told of the propriety of ecting becoming temples for the worship of the Lord and approved the spirit of the early Romans who, simple and frugal in their private lives, were sumptuous and generous in worshipping their gods. There was a time when the Christians, a struggling few, paid homage to their Creator in private houses and as St. Paul says, "In subterranean caverns," but that day is past. Now in liberty and sunlight may bow before their God and it is fitting that they show their gratitude by crecting temples in keeping with the dignity of the Almighty.

PROGRESS OF CHURCH.

After felicitating the congregation of St. Philomena upon its growth and progress, which necessitated the construction of the new edifice, the speaker narrated the progress the church has made and is making in alleviating the suffering of humanity, evangelizing to the poor, championing the cause of the oppressed and pointing out to her children the straight and narrow path that leads to life, After strongly asserting that were

the Catholic church to suddenly cease to exist it would be one of the greatest calamities that ever befell the world and would leave a void that none of the other sects and no other influence could fill, the speaker again directed his remarks toward the new church. He closed by declaring to the parishoners that the great work they were loing in erecting a temple to God would become more apparent as the years passed. "Here the waters of bapism will be poured upon the heads of your offspring. Here your marriage vows will be plighted, and here, after life's fitful fever is over, your cold and silent remains will be carried to receive the last benediction of Mother Church. God grant then, dear brethren, that by your devotion, generosity and zeal you will uphold your pastor,
