POOR BOARD IS

DOES NOT KNOW WHAT EXPERT TESTIMONY IS WORTH.

Medical Men Who Testified in the Case of Hollister Against the Scranton Poor District Ask \$50 Each for Their Services, and the Directors Are Inclined to Think the Bills a Bit Too High-Insane Department Is Overcrowded-Report of the Treasurer.

What is a fair compensation to allow physician for expert testimony? is question that agitated the Poor Board at its meeting yesterday afternoon. The board decided to let the courts assist them in answering. Some months ago a man named Hotlister brought an action in equity against the Scranton Poor district, alleging that the sewerage from the Hillside Home was polluting a stream that runs through his land, making the stream valuless to him for many purposes for which it was formerly

When the case was being heard, Attorney John F. Scragg, by direction of the heard, employed experts to give testimony with reference to the aleged pollution of the stream. Dr. S. P. Longstreet, of this city, and Dr. Lynch of Clark's Summit, practicing physicians and surgeons, and Dr. Courtright, of Clark's Summit, and Dr. Helmer and Dr. Patchet, of this city veterinary surgeons, were engaged. They spent part of a day examining the stream and part of another day in

ourt testifying. Some time later, each of them renfered a bill for \$50 for their services. The bills were referred to a committee for consideration and the matter has been dragging along since. Yesterday a letter from Dr. Longstreet was read before the board, which called ittention to the fact that the bill ad not been paid.

WRONGLY ACCUSED.

Dr. W. A. Paine said he hoped the oard would do something about the bills at once, as he had been accused of holding them up. He did not want o rest under such a charge since he had done nothing of the kind. It was the opinion of the members of the board that the bills were too high, but they had no information at hand on which to base a judgment as to what would be a fair compensation. After considerable discussion, the aggestion of Mr. Fuller was adopted that a case stated be agreed upon and the matter submitted to the court for adjudication. A judgment of the ourt would protect the directors from

surcharge by the auditors. Yesterday was the first meeting over which President Reese G. Brooks has presided since his return from Europe and when he appeared in the room he vas given a warm greeting by the other members.

The overcrowded condition of the department at the Hillside Home was called attention to, and it was decided to ask the poor boards of this part of the state who have patients at the home to remove them. There were a number of applicants for relief heard and acted upon. Mrs. Moon, of Green Ridge street, asked the board to help her support her two grandchildren. Their father is in the penitentiary and their mother is workng to support herself. Kumors had reached the board to the effect that the Moons do not keep a very orderly louse, and Director Shotton was directed to inquire into the merits of

the case and give such relief as he would deem proper, TREASURER'S REPORT. The report of the treasurer, E. M. Vernoy, showed that on July 1 there was in the bank, \$6,729.58, and the reeipts for the month were \$1.874.34. aking a total of 8,595,32. The disursements for the month were \$6,-493.08, leaving the balance on hand

n the bank August 1, \$2,102.08. Superintendent Beemer presented a eport which showed that the number of inmates in the Home June 30, 1900, was 470. During the month 28 were admitted and 30 discharged, leaving the number on July 31, 468. The insane males are 136 and the females, 14, making a total of 285. The sane males are 109 and the females, 74; total, 183.

WHAT BECAMB OF THE FIVE HORSES?

Chief Zizleman Gives an Explana tion-One of Them Sold to Councilman Finn and Another

to Dr. Sitterly.

The question as to where the five fire horses, which were recently discarded to make room for new ones. have gone was pretty thoroughly discussed in and around city hall yesterlay, and Select Councilman Vaughan's

contentions were upheld by some A Tribune man saw Chief Zizelman, the new head of the fire department. and was informed by that official that the five horses could be accounted for He first showed a bill of Frank Cobb, the horse dealer, showing that six horses had been turned over to him, the city being credited with \$260 for

the lot, or a little over \$43 apiece. The chief then proceeded to show where the other five now are, Two ie explained, are being used by the Columbias, while one of that company's team is recovering from a recent debauch, which it went on under

ery peculiar circumstances. The chief said that just before he came into office one of the Columbia's teams got loose in the night and one of the horses got into the oat bin. The animal proceeded to gorge itself with oats, eating nearly half what was in the bin. The horse was taken sick the next day, and is still in pretty bad shape

Another one of the horses is being orked on the road by the street commissioner, the chief explained, while a an extra horse. The fifth is being used by himself as an extra horse, he salu The chief's attention was distracted

for a few minutes at this point, and when he resumed the conversation he said that Chairman Finn, of the fire committee, and Veterinary Sitterly had both purchased a horse apiece. "But that makes seven, doesn't it?" sked The Tribune man.

The chief replied that it did, but that ome of the first five mentioned must be extra horses, of which there are always a few in the department. He was sure that two of the five old animals had been sold to Mr. Finn and Dr. Sitterly. "Who sold them?" he was asked.

"As far as I know, the joint fire tee sold them." Where is the money?" "Of that I know nothing, as I had othing whatever to do with the transaction," replied the chief. City Treasurer Robinson avers that he has received no money from any

such source. Still, if what the chief says is true and if two of the animals have been sold, there should be some It is believed that an effort will be made to let the street commissioner, food inspector and city engineer have the three other horses for their own

DECIDED DECREASE IN SPECIAL TAXES

INTERNAL REVENUE REPORT SHOWS A FALLING OFF.

As Every Other Item in the Report Shows an Increase, a Particular Cause for the Falling Off Must Be Looked for, and the Only Thing That Presents Itself Is the Closing Up of So Many Speakeasies in This County in Consequence of the Crusade of the Men's Union.

Returns from the Twelfth internal revenue district for the months of June and July, in which the liquor licenses are payable, show a falling off in that item of \$2.579.57. All the other important items show a good sized increase, thereby making it reasonable to infer that some particular cause is be assigned for the falling off in

the liquor licenses. That cause was undoubtedly the crusade against speakeasies in Lackawanna county, the second largest in the district. No calculations have been made by the attaches of the office to fix geographically where the falling off occurred, but they admit that it was for the most part in this

Their calculations or observations, however, are hardly necessary to establish this fact. Any one who has kept an eye on the results of the Men's Union crusade against illegal liquor selling will not be slow to say that the most part of the \$2,579.57 revenue of which the government is deprived is accounted for by the closing up of the hundreds of saloons which for years paid a license to the government, but neglected to make any contribution to the state.

THE DECREASE.

There are those who will say, and not without reason, that the decrease revenue is not commensurate with the decrease in the number of speakeasies. The decrease would represent only about one hundred licenses. The Men's union and others who have been assailing the illegal liquor traffic will claim that this does not represent the number of speakeasies driven out of business by at least a third. Careful estimates have had it that on the South Side alone more than one hundred and fifty unlicensed places have losed down since the inauguration of the crusade.

The figures for the two months on special tax collections, which embraces fourth is now in the Crystal house as the liquor licenses, make an eloquent
