DOOR BOY KILLED AT MT. PLEASANT

WILLIAM GILBERT^H CRUSHED BENEATH A FALL OF ROOF.

Second Member of a Family Met Death Inside of Seven Months. Two Sudden Deaths on Eynon Street-Mrs. Gwenellian Vaughan and Frederick Marker Died Yesterday-Union Church Excursion to Harvey's Lake, and P. O. S. of A. to Lake Lodore-Personals.

William Gilbert, aged 15 years, was crushed to death in the Mt. Pleasant mines at 7.30 o'clock yesterday morning, shortly after entering the mines for his first day's work. The accident is doubly afflicting to the famin view of the fact that the boy's father met death in the same mines last February, when the bottom of a carriage fell out and precipitated him and three others to the bottom of lytic stroke, with which he the shaft.

The boy was the only support of a widowed mother and five fatherless to his wife, informing her that he was children and had been working in in distress, and when she went to his Briggs' shaft up to the time he secured employment at the Mt. Garman said his company was not paying anything for votes.

Another witness corroborated Mr. Garman's testimony to a more or less extent. Mr. Wheatley's testimony was not corroborated. A half-dozen other councilmen were examined and they all denied having been solicited to vote for a money consideration. At 19 o'clock last night the evidence was all in, and the committee gave it out that they would carefully consider the testimony and make a report to councils on August 27.

THE STOMACH THE VITAL CENTER.

No man is stronger than his stomach. The average man measures his physical vitality by his heart, his kidneys, or his lungs. Rarely does he take his stomach into consideration when he casts up the account of health. Let his heart action be weak, his kidneys be disordered, and he runs at once to a doctor. But his stomach seems to have no rights he is bound to respect. Anything will do for the stomach. Yet the stomach is to the body what the foundation is to the house, the basis of support and strength. Whatever hurts his stomach and impairs its powers hurts every other organ of the body and impairs their powers. When disease obtains a hold on the stomach and the allied organs of digestion and nutrition, it stretches out its tentacles to grapple and involve one organ after another until heart and lungs, kidneys and liver, may all be involved. Why is this? The body is sustained by food which is converted into nutrition in the stomach and conveyed to the several organs in the form of blood. Let disease impair the conveyed to the several organs in the form of blood. Let disease impair the power of the stomach and it impairs the power of every organ, because it reduces both the quantity and quality of their nutrition. For this reason cures of the stomach and nutritive and digestive systems by the use of Dr. Pierce's Golden Medical Discovery are almost invariably followed by cures of other organs involved with the stomach. A great many people who have "doctored" for years for disease of heart, liver, kidneys, or lungs, have at last been impelled to use Dr. Pierce's Golden Medical Discovery for stomach "trouble," and have found to their astonish-ment and happiness that with the cure of the diseased stomach the heart "trouble" ceases the tornid liver becomes active the kidneys healthy and the lungs strong ceases, the torpid liver becomes active, the kidneys healthy and the lungs strong. There is only one way of making physical strength and that is by food. The man weak from starvation needs food, not medicine. His heart flutters weakly, his breath comes in gasps. Feed him and he is soon strong again. When the stomach and organs of digestion and nutrition are diseased, the organs dependent on them slowly starve. These organs don't need medicine, they need food. By curing diseases of the stomach and the digestive and nutritive systems, "Golden Medical Discovery" enables the thorough nourishment of the body, by food properly digested and perfectly assimilated.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. No other medicine is "just as good" for diseases of the stomach and diseases of other organs originating in a diseased condition of the stomach and its allied organs.

The demand for Dress Skirtings is at its height now. Sometimes they're wanted for the seaside or mountain resort wear, in traveling, or merely for a change, which thoughtful buyers, who look a little ahead of today are wisely making provision for the lovely early autumn days which precede the fall. Anyway, Skirtings are selling as fast as hot cakes on a December morning, and as the special values offered may have had something to do with the rest, we have decided to still further stimulate haste with

Local Weather Bureau Has Already Got Down to Work. Observer W. E. Donaldson, who is in charge of the local weather station, is

rapidly getting things in shape. A good deal of the mechanism required to record the different phases of the weather has been received and put in place, but there are some essential things that have not yet arrived from Washington and until they do the different pieces of mechanism cannot be put in operation. The twenty-five-foot steel pole has been erected on the roof of the Connell building and on the summit of this pole are the wind

vanes, etc. Mr. Donaldson has already begun to end out forecast cards from his office on the fifth floor of the Connell building. In this city alone 420 are distributed daily. From Scranton it is possible to reach 370 postorfices in this part of Pennsylvania within a few hours and to these offices 430 cards are sent each day. This number will be greatly increased. Within a few days

the work of issuing a weather map daily will begin. As heretofore, the weather signals will be displayed from the roof of the

board of trade building, and they will also be displayed from the Connell building. These signals indicate the kind of weather that may be expected on the day succeeding that on which the signal is shown. On Saturday Mr. Donaldson's assist-

ant is expected to arrive in the city, He is Roy Johnson, of Cairo, Ill.

IS REPORTING FOR DUTY DAILY Lieutenant Spellman Knows Noth-

ing About Mandamus Rumor. Lieutenant of Police Michael Spellman was in the city hall yesterday afternoon to report for duty, as he has done every day since Mayor Moir dismissed him from the force and council refused to concur in the dismissal. In speaking to a Tribune man about the general rumor in the air to the effect that he was about to apply for a writ of mandamus to compel Mayor Moir to show cause for summarily removing him from the force, Lieutenant Spellman said: "This is the first I have heard of any mandamus proceedings. I have taken no steps myself, and whether or not Jones has, is unknown to me. The affair is still hanging, nothing being done on either side. I am reporting

daily for duty, and will continue to do LYDDITE SHELL RECEIVED.

Mayor Moir Has Souvenir of South African War.

A very villainous looking souvenir of the war in South Africa was Saturday night received by Mayor Moir and was yesterday on exhibition in his office in the city hall. It is a large lyddite shel which was fired into the town of Colesourg by the British, February 15, 1900,

and which passed through the wall of the hotel in which Mrs. Cooper, Mayor Moir's sister, lives.

It passed clean through the wall, providentially not exploding, and was afterward recovered. The lyddite shell s one of the deadliest engines of modern warfare and anyone looking at the specimen in Mayor Moir's office can understand why it is. The shell is bottle-shaped, about fourteen inches long, and without its deadly contents weighs about twelve pounds. It is
