DEFENSE IN POWERS TRIAL.

Surveyor Coolman Is Allowed to Make an Explanation.

Georgetown, Ky., Aug. 9.—Testimony for the defense in the trial of Former Secretary of State Caleb Powers charged with complicity in the Goebel shooting, probably will be concluded today or tomorrow. Surveyor Coolman, who testified yesterday, was allowed to make an explanation regarding some of the statements made by him, and also to correct some of his answers, which he explained, were made on a misunderstanding of some of the questions.

The prosecution cross-examined Coolman, again going over the greater part of the ground covered by him yesterday. The defense had shown by the witness that the bullet, if fired from the secretary of state's office and passed through Goebel's body at 11:36 inches of distance from the foot, it would have entered the ground near the fountain and to be cut off by the hickory tree could not be fired by the assassin. The prosecution sought to break down this contention and the cross-examination was strung out at great length.

Professor J. J. Rucker, of Georgetown college, was on the witness stand when court recessed for lunch. Professor Rucker gave expert testimony regarding the shooting and in a general way supporting Coolman's mathematical demonstrations.

At the afternoon session T. C. Davidson, of Adair county, testified that Caleb Powers got him to bring a squad of men to Frankfort, Jan. 25. Witness said Powers told him to get good men. Robert Nease, re-called by the defense, the substance of a number of alleged conversations with B. A. Rice and J. H. Wilder, of Bell county.

Nelson Cummings testified as to the character of the members of the Cornell military company, which Nease had testified was made up of disreputable persons, as in accordance with instructions from Powers. He said the men with whom he was acquainted bore good reputations.

L. F. Sinclair, one of the attorneys for the defense, testified as to an alleged conversation with Wharton Cullen in April, in which he said Cullen and Youtsey were fools to have confessed, as they would get nothing for it. Witness said he was in the hallway of the governor's building when the assassination occurred. The shot sounded to him as if fired from the step of the building. Saw no one else in the hall or at the door. Witness then passed into the governor's reception room and met Governor Taylor, who was standing in the door of his office. He was very much excited. Witness pushed him inside the office and pulled the door to Governor Taylor had a pistol. Witness and Taylor walked to the window and saw the man lying on the pavement. Witness recognized it as Goebel. On cross-examination witness admitted that he testified before the April grand jury at Frankfort, but did not upon that occasion tell of the things he had related on the stand this afternoon.

THE SCRANTON DELEGATES.

They Were the Cause of a Row in the C. T. A. Convention.

Philadelphia, Aug. 9.—The greater portion of today's session of the convention of the Catholic Total Abstinence union was devoted to a wrangle over the recognition of seventeen delegates from Scranton, Pa. These delegates had failed to pay their per capita tax before the expiration of the time limit set by the constitution and were technically in arrears and not in good standing.

The report of the committee on credentials recommended that the delegation be denied recognition on the floor. After a lengthy discussion it was finally decided that as the dues had been paid the Scranton delegates were entitled to the same privileges as the others.

Prior to the morning business session the delegates attended requiem mass for deceased members. Following the afternoon session, which was devoted to routine matters, a drive through Fairmount park was taken. Tonight the visiting delegates were the guests of the Philadelphia union at a banquet at Horticultural hall.

JAMES JEFFRIES EXPLAINS.

Preparing for the Emergency That May Make Defence of His Title Necessary.

New York, Aug. 9.—Champion James Jeffries tonight issued a statement in which he says: "I have been in active training for the past two weeks preparing myself for the emergency that may make it necessary for me to defend my title before Sept. 1. I find that my arm is improving steadily, and, although I have been advised by my physician not to take a chance until they declare the arm has completely recovered its former strength, I will take the risk and stand ready to make a match for the world's championship with the winner of tomorrow night's battle, the bout to be decided in or about New York city before Sept. 1. He must meet me before Sept. 1 or wait at least six months after that date."

TROUBLE AT PITTSBURG.

Italian Anarchists Become Active—A Riot Follows.

Pittsburg, Aug. 9.—About 150 Italians have been rioting near Zollersville, Washington county, this state, for the past two days, with more or less serious results, but no fatalities have as

yet been reported. The men are engaged laying the pipe line for the Wheeling Natural Gas company. Half of their number are said to be anarchists, and have been celebrating the assassination of King Humbert. The anarchists refused to allow the others to work, and the loyal friends of the dead king have been contesting for their rights. It is reported that many of the rioters have been wounded, but none are dead.

State Senator William Flinn, who is president of the company, went to the scene in person today and prevailed upon the sheriff to call for a special posse to quell the disturbance. This posse will take action early in the morning tomorrow.

DE WET OVERTAKEN.

Methuen Engages Portion of Boer General's Force.

London, Aug. 9.—The following report, dated Pretoria, Aug. 8, has been received from Lord Roberts: "Kitchener was informed yesterday by an escaped British prisoner that De Wet's wagons had crossed the Vaal. Afterward I heard the sound of guns which, I think, must have been Methuen's, as I directed him to take up a position between Potchefstroom and Lindaville, where he could intercept the enemy, who crossed the river at De Wet's drift.

"Kitchener is crossing the Vaal with cavalry and mounted infantry. "Hunter reports that he made 4,100 prisoners in the Bethelam-Harrismith district, a majority of whom are en route for Cape Town. Three guns and 4,000 horses were captured and ten wagon loads of ammunition and 195,000 rounds of ammunition were destroyed.

"The garrison at Eland's river, which I fear has been captured, consisted of about 300 Bushmen and Rhodesians. I had hoped that Carrington had been in time to withdraw the garrison; but it seems that Delarey, learning of Ian Hamilton's approach to Eland's river, hurried westward and surrounded the garrison before Carrington arrived.

"Methuen telegraphs that he engaged a part of De Wet's force yesterday near Benterokroom. He drove the enemy off to a succession of hills, which they held obstinately. Our casualties were seven men killed or wounded, including four officers.

MIRACULOUS CURE.

Mrs. McCormick Leaves Rheumatism at a Shrine.

Ogdensburg, N. Y., Aug. 9.—A sensation has been created at the Shrine of Our Lady of Victory, on the lawn of Sacred Heart convent in this city, by the miraculous and sudden cure of Mrs. James McCormick, of the lake tug Cayman, of the Ogdensburg Coal and Towing company's fleet.

For over a year she has been an invalid, suffering severe pain from acute rheumatism. Believing she would be benefited by worshipping at the shrine, she was wheeled there in her chair and kneeling in the front of the statue, began reciting the litany. Suddenly, with a cry of joy, she arose from her chair, going among the worshippers and walking to her home, some distance away, leaving her chair behind. Hundreds are calling at her home to learn of her cure, and she is kept walking about for their benefit. This is the first cure publicly witnessed at this shrine, which was erected a few weeks ago.

Chinese Christians Built Barricades at Tien Tsin.

Vancouver, B. C., Aug. 9.—The Rev. Jonathan Lewis, head of the London Missionary society, arrived from Tien Tsin in the steamer Empress of India. He said that but for the Chinese converts many missionaries would have been killed. They were invaluable during the siege. They were all the barricades under a rain of bullets. He severely scolded the foreign diplomats, who, he says, are babies beside the wily Chinese.
