Special to the Scranton Tribune. Susquehanna, Aug. 14.-While excavating for a cellar near Starrucca, a few days since, workmen discovered the petrified remains of an animal, estimated to have been nineteen feet The skeleton lay on its side, under the roots of an oak tree. One of the forelegs is missing. One of the hind legs had been broken off at the knee. A part of the head was in the crevice of a rock nearby. Lime water falling on the bones had turned them into stone. The outlines of the body are quite perfect. The teeth are six inches long, and quite regular.

Some of the vicinity farmers believe the bones to be those of some giant animal of the horse species, while a local geologist is sure that they are those of a mastodon. There are footprints in a soft rock in the vicinity as arge as a half-bushel measure. The bones have been carefully packed and sent to the professors at Syracuse university. Their verdict is eagerly awalted by the people of Starrucca and

SOME PERSONAL PICKUPS. Colonel Charies C. Pratt's boom for state senator for this district is in a healthy condition. He is in every way splendidly equipped for the position. William J. Pike, of Hallstead, Congressman Grow's private secretary, is luxuriating under orange trees in Cali-

fornia, seeking health and recreation. Hon. James T. DuBois and family of Hallstead, are speeding home from Switzerland and the Paris exposition. A warm welcome home awaits them. Captain H. F. Beardsley, of Montrose, is the only major general in Susquehanna county. His veterans, like himself, have all seen real war. All too soon they will pass over the river and rest in the shadow of the trees.

John M. Kelly, esq., of Montrose, the choice of the Democracy of Susque-hanna county for congressman, has not yet engaged quarters in Washington. All the same, "John M." would fill the position with ability and credit. ome sweet day this district may be Democratic, and then--!

#### FAMILY REUNIONS.

It is an inclement day when there is not a family reunion somewhere in Susquehanna county. These are annual occasions, when rich relatives tolerate their poor ones; when execrable cooking passes muster without cuss words; and when "the oldest inhabitants" swap lies to their heart's content. And yet there are more afflictions than annual family reunions.

CHURCHES AS SOCIAL CLUBS. Rev. John Watson, widely known as "Ian Maclaren," is of the opinion that many churches are rapidly becoming social clubs. The text of his criticism was founded on a postal card sent out by a Young Women's Christian association, which read word for word as

POPULAR AT HOME.

Our congressman, Hon. C. Fred Wright, is popular with the people of his town and county, because of his fair and honorable methods of doing susiness, and all slanders against him put in circulation by disappointed and disgruntled people, will fall as seed sown where is no depth of earth The best criterion by which to judge a public man is by his reputation and sopularity at home, and it is certain from the strength of Mr. Wright's fortifications that he will scarcely stoop to notice the attacks of blood-sucking insects which attempt to buzz around him from certain sections outside of his own county. Mr. Wright has made a most excellent record in congress, and he will be returned by a handsome, increased, majority.

Opening of August Term at Montrose-Small Civil List-Divorces. Miscellaneous News.

Montrose, Aug. 14.-The August term of Susquehanna county court, opened

in this place on Monday, before Judge Daniel W. Searle. As there is an unusually small civil list for this term, it has been arranged to dispose of both criminal and civil cases this week, but even with this curtailment, it is probable that many cases down for trial will go over till November, as even lawyers do not care to work overly hard in hot weather. The proceedings thus far are as fol-

Wall Street Review.

New York, Aug. 14.—Today's stock market gave a marked exhibition of strength, reflecting as it did an upward movement in all classes of securities. No doubt the chief impetus to the rise was manipulative orders, particularly so in the steel group. Reports of a possible micable adjustment of the wage schedule was responsible for a rise of 3 points in American Timplate and Ial½ in kindred properties. The buoyancy of this group radiated throughout the entire market and influenced pool operations in other stocks. As yesterday the leading railroad shares occupied a commanding position in the market except large blocks of the Atchisons, Grangers and Pacifics being taken at improvements ranging from a large fraction to 1% in St. Paul.
