TRIBUNE'S **EDUCATIONAL** CONTEST

David V. Birtley Goes to Second Place.

HOW THE LEADERS STAND

Charles Rodriguez, 428 Webster avenue.

David V. Birtley, 103 West Market

street. Oliver Callahan, 415 Vine street. David C. Spencer, Bloomsburg. Eugene Boland, 235 Walnut street,

Arthur Kemmerer, Factoryville. Harry Reese, 331 Evans court. Miss Grace Simrell, Carbondale. Sidney W. Hayes, 922 Olive street. Miss Fannie E. Williams, Peck-

ville. Edward Murray, 516 Hamm court. John P. Smith, 2532 Boulevard avenue

Richard Roberts, 1303 Hampton street.

Yesterday was the fortieth day of The Tribune's Educational Contest. and for the first time since its beginning there was a change in the leader occupying second place. David V. Birtley, of 103 West Market street, who has been working assiduously of late, succeeded in bringing in enough points yesterday to take the position so long held by Oliver Callahan, and now leads the latter young man by two points. As Callahan is also an ambitious and enthusiastic worker, Ambitious and enthusiastic worker.

Mr. Birtley will have to keep right, on "sawing wood" to maintain his present standing. Charles Rodriguez still heads the list of leaders, while still heads the list of leaders, while still heads the list of leaders, who will be still heads the list of leaders, while still heads the list of leaders, who will be still heads the list of leaders. David C. Spencer, of Bloomsburg, who is now in fourth place, is close enough to those above him to overcome their advantage by an earnest effort.

Below Mr Spencer the leaders are pretty well bunched, only a few points separating the contestants from fifth to thirteenth places, and changes in their standing are liable to occur daily. It will be interesting to watch the record and note the degree of zeal displayed by the contestants as attested by their rise in the printed returns from day to day.

To the young men and women who have been cosidering whether to enter this contest at this time, we would say, by all means try your powers of persuasion on your friends as a means of obtaining your own advancement. It is not too late now to begin. Perhans it may be necessary to score only a few points in order to obtain one of the special rewards, and it may be that some of those who are hesitating could in a few days get near the top of the list if they only bent their energies to work with as much enthusfasm as they now display in seeking to amuse themselves during the pleasant summer days. Full particulars of this contest may be read on the fourth page of this morning's Tribune, or a letter of inquiry addressed to the "Editor Educational Contest. Tribune. Scranton," will receive prompt atten-

SPRINGVILLE.

Condemned But Reprieved.

"In the summer and fall of '98, while in the Indian Territory, that being a malarial country, I had fever and ague all the time till I became all run-down," writes Mr. L. Cameron, of Parvin, Denton County, Texas. "During my chilling I took catarrh of the head and it troubled me a great deal. Then I had bronchitis. Had two doctors with me and got some better, and in January, 1899, I moved from the Indian Territory to Arkansas. Being exposed by traveling in very cold weather I grew worse. I had two of the very best doctors I could get, but still grew worse. Was advised by a friend to try Dr. Pierce's Golden Medical Discovery, so I commenced taking it. The doctors could do me no good, quit coming to see me and said I would die. The people said I had consumption and could not live. I took the 'Golden Medical Discovery' according to directions. For two weeks I could not talk above a whisper, and for four weeks I had to lie on my left side all the time. I could not eat a bit of anything. All the nourishment I could take was a little sweet milk with whiskey or brandy in it to keep me from vomiting. After I had taken two or three bottles of 'Golden Medical Discovery ' I began to mend. For forty-seven days I could not get out of the house. I kept on taking the 'Discovery' until I had taken twelve bottles, and I am now well and do not cough any at all. I believe Dr. Pierce's Golden Medical Discovery saved my life. "I feel very thankful to you for preparing such a valuable remedy, and thankful to

God for the existence of such an Institution as the one with which you are connected. "I desire to have this published, in order that people who are afflicted as I was with that terrible disease (bronchitis) may read my statement and be induced to take your medicines and perhaps be saved from a consumptive's grave."

"After having followed your advice for three months longer (from the day of writing you), I feel that I have been amply repaid," writes Mr. Clarence Payne, of Washington, D. C., 1328 N. H. Avenue, N. W. "When I received your advice I was suffering greatly Pains in my chest, sides and under shoulder-blades, spitting blood, particles, and a quantity of mucous matter (stringing as it left my mouth) The doctor pronounced my case bronchitis, and a specialist said I had laryngitis and advised me to go to the mountains; but I came into possession of one of your books. and after following your advice I am proud to say that I have gained between fifteen and twenty pounds. I took in all seven bottles of 'Golden Medical Discovery' and two vials of Dr. Pierce's Pellets. I am still using your medicine, now as a tonic,"

It shocks us when we pick up the newspaper and see the name of an old schoolmate associated with crime. As we picture him behind the bars there rises before us the vision of the bright scholar and merry playmate, and it seems impossible that this boy

can have ended his career in a felon's cell. There's another sad experience which We chance on a weak, emaciated form, being pushed along in an invalid's chair. There is something familiar about the man's face. There's recogni-We take the thin, transparent hand and look enquiringly. It can't tion in his eye. be he! What! Harry Smith, the college athlete? This poor, gasping week the one time hero of the diamond and gridiron? But so it is And again memory flies back to the old days of school and we see this frail man as he was-magnificent in brawn and sinew, superb in health. What can we do for these unfortunates—the criminal and consumptive?

For the criminal we can do little. For the consumptive much. We can point him to a great army of men and women who were in like case. They were weak and emaciated, coughing night and day. They had hemorrhages and night-sweats. Medicine failed to help them. Doctors gave them up. Then someone said try Dr. Pierce's Golden Medical Discovery. It looked like the straw which the drowning man clutches. It proved to be a life buoy.

In the other column are given some specimen statements by those who have been cured by the use of "Golden Medical Discovery." "Condemned but reprieved." These are fairly representative statements. They are only two out of thousands. It is natural to ask, "How can these things be?" How can Dr. Pierce's Golden

Medical Discovery cure when doctors pronounce the case hopeless and all other means

and methods have utterly failed? That question deserves an honest answer. Think a moment. Did you ever know of a fleshy, well-nourished man dying of consumption? The question itself seems absurd. Consumption is a wasting disease.

The sign manual of consumption is emaciation. Then it seems evident that the principal feature of the disease is lack of nutrition. If the body could be nourished and increased in flesh, the disease would lose its hold. All treatments of consumption recognize this chief factor of nourishment. Nauseating oils and their scarcely more palatable emulsions are administered as body-building foods, easy of assimilation. The appetite is poor. The stomach is weak. The administration of oil is an attempt to slip food past a weak stomach. As far as it goes the oil is good. But it does not go far enough, because it does nothing for the health of the stomach, and the stomach is the vital center of the whole physical organism. No man can be stronger than his stomach. Weak stomach means weak

Now suppose a medicine that began by curing the diseases of the stomach and other organs of digestion and nutrition. When this is done the appetite increases. The food eaten is properly digested and perfectly assimilated and is converted into nutrition which in the form of blood builds up every organ of the body.

That is just the work done by "Golden Medical Discovery." It makes new blood and new flesh and so new life. What's the best test of the progress of consumption The scales. Every day will show a loss of weight as emaciation progresses. What's the best test of the progress of the cure by "Discovery?" Again the scales. If the weight increases. If flesh is being formed and the body filled out the "Discovery" has called "Halt!" to the disease.

It is the common experience that the cures effected by the use of "Golden Medical Discovery" are marked by gains of sound, solid flesh. These gains speak for themselves. For as surely as the downward progress is marked by loss of flesh, so surely gain of flesh must indicate a gain of health.

Dr. Pierce's Golden Medical Discovery cures obstinate, deep-seated coughs, bronchitis, bleeding of the lungs, and other forms of disease which if neglected or unskillfully treated find a fatal termination in consumption.

COMMON SENSE applied to hygiene and medicine, aptly describes Dr. Pierce's great work, The People's Common Sense Medical Adviser, 1008 pages, which is sent free on receipt

"I thank you most sincerely for the Common Sense Medical Adviser," writes Mrs. Charles R. Thompson, of Georgetown, Eldorado Co., Cal. It is a splendid book, and everything is made so plain in it that anyone can understand. I would not part with mine for anything."
