WILL CELEBRATE LABOR DAY.

The soliciting committee from the Central Labor Union is meeting with flattering success and when the city is thoroughly canvassed a sufficient amount will probably have been pledged to assure a Labor Day demonstration in Carbondale. The business men have been more than liberal, and though comparatively few have been been seen, those who have been approached did not hesitate an instant to subscribe toward making the parade The Federal union at its a success. meeting last evening decided to take part in the parade and will hire a band on their own account.

### POOR BOARD ARRESTED.

The Carbondale poor board was arrested yesterday at the instance of Patrick Padden, who alleges that it violated the law in refusing him out-door relief. The law specifies that when application is made in proper form relief must be granted and the merits of the case investigated later. The board entered ball at Alderman Atkinson's.

### ANOTHER SCHOOL SENSATION.

At the instance of President Hockenberry, of the school board another investigating committee has been created to examine the books of ex-Secretary Boylan, which it is alleged, have not been properly kept. Boylan appeared before the board and requested that there be no delay. He says if there are any errors he wants to know it, and is willing to make good to the board any possible loss out of the salary still due him.

Susquehanna, Aug. 21.-A well known Delaware & Hudson conductor tells a story about a passenger he had one morning last week: "It was early in the morning," said the popular conductor, when we stopped at Olyphant out of one of the back yards near the station, clad only in his underclothes, and holding in his arms a bundle of clothing.

"He boarded the train, creating, as you might imagine, a good deal of a sensation among the passengers, but he passed a quickly as he could into than Aug. 31st. A further extension the smoking car and there finished to Sept. 30th may be obtained upon his dressing. You see, the man had failed to awake as early as he had planned to do, and as he had to take my train to get to Albany at a certain hour and as very important business would have suffered had he not done so, he very wisely jumped out of bed, grabbed up his clothes and made a run for it."

### CHURNING ON THE ROAD.

An Ararat farmer, of an inventive urn of mind, has made a big churn on wheels. He goes through the township purchasing cream, and when he has secured the proper quantity he returns home. On the way he connects the churning gear, and as he drives along the turnpike the churning goes on as the wagon goes along. When he gets home there is nothing to do but take out the butter and draw off the buttermilk. The farmer will have his invention patented.

ECONOMIZING COW PASTURE. A prominent farmer at Dundaff, who has a cow that does not give milk, has adopted a plan whereby the dry cow is made to suffer from her dryness and in a manner earn her own living. He has attached to her head a contrivance which makes its impossible for her to get her head within six inches of the ground. Therefore she has to cat thistles, weeds and tall swamp grass, saving the white honeysuckle and the low, sweet grass for his cows that give milk.
