LIVE NEWS OF THE INDUSTRIAL WORLD

PENNSYLVANIA COMPANY'S MINES TO WORK TEN HOURS.

Nor the First Time in Six Years the Collieries of That Company in and About Pittson Will Operate on Full Time-Scranton Forging Company's Annual Meeting-Ontario and Western Officials Meet-Lehigh and Wilkes-Barre Collieries Working Regularly-D., L. and W. Board for Today.

Yesterday morning for the first time in six years, all the employes about the various collieries of the Pennsylvania Coal company in Pittston and vicinity, numbering several thousand, went on a ten-hour schedule. This will be welcome news to the people of Pittston, especially. The men for several years past had to be content with working from one to eight hours a day, and they never knew how to figure out their income, not knowing when or how long they would work from one week to another. The collieries begin at 7 a. m., taking half an hour at noon, and cease operations at 5.30 p. m. The cause of the change to a ten hour schedule is an increased demand for coal.

The company is making many improvements about its collieries, among them a slope being driven from the Marcy vein, 300 feet deep, from No. 10 colliery to the recently purchased Ravine mine in Pittston, as there are several acres of coal in the Pittston and Marcy veins yet to be mined in close proximity to the Ravine. The company intends after the garding in 7 a. m.-J. Gerrity. the slope is finished to hoist coal from the Ravine up this slope to the No. 10 breaker to prepare the same for market. It was the intention of the officials to make preparations this summer to operate the Schooley colliery in Exeter, but this has been abandoned until next fall.

Smith, chief clerk, all of New York.

older waste matter accumulates in the system. The body cannot throw it off without assistance. little by little the machinery of the body is clogged, vitality is lowered, and enjoyment of life ceases. Dr. Pierce's Golden Medical Discovery, cannot make old men young but it does make them strong and healthy. By removing the waste accumulations, by increasing the blood supply, by strength-ening the stomach and organs of diges-tion and nutrition, and thus increasing the tion and nutrition, and thus increasing the assimilative and nutritive powers, "Golden Medical Discovery" makes grand old men.

"I suffered for six years with constipation and indigestion, during which time I employed several physicians, but they could not reach my case," writes Mr. G. Fopplewell, of Eureka Eprings, Carroll Co., Ark. "If felt that there was no help for me, could not retain food on my stomach; had vertigo and would fall helpless to the floor. I commenced taking Dr. Pierce's Golden Medical Discovery and little 'Pelleta.' I am now in good health for one of my age—60 years. I owe it all to Dr. Pierce's medicines."

Mr. Austin Conway, of 402 Irving avenue, says: "I was bothered for the past fifteen years with a pain across my kidneys. At times it struck me in the hips and extended down my legs. THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, Aug. 22.—The level of prices was not materially changed as a result of today's trading in stocks. In fact the fluctuations in the most prominent railways did not exceed 12 per cent, and in only a few specialties was the range a point. Conditions underlying the general situation are the main topic of discussion in the street and it apparently requires unusual developments to extricate the market from the rutinto which it has fallen. With operations pretty generally limited to the trading element who close their contracts from day to day not mucu importance can be attached to current market movements. Some effort was made at the opening to continue yesterday's late reaction but supporting orders appeared in Brooklyn Rapid Tramit and People's Gas which strengthened the entire list. Consolidated Gas was in demand and rose almost two points on buying inspired by its early rectoration to an a per cent, annual dividend bissis. A subsequent attack was made on People's Gas, the price going down 1½ and remaining maker last hight until the final dealings. No definite news has developed to account for the recent pronounced pressure against this stock. Statements that no agreement was reached in the conference between various steel companies and labor organizations was without any effect on the steel properties, which were largely neglected. Business was at a standatill during the greater part of the afternoon but toward the close there was a slight spurt and prices rose to the best figure of the day on covering of shorts. Conspicaous strength was displayed by St. Lonis Southwestern preterred and Northwest which advanced a point, the latter innoring a falling off in its gross carnings for July of \$10,711. General Electric declined 2 points on sales influenced by the lack of corrolocation of recent favorable rumors. Canadian Pacific lost a point on apprehension of laker dimenting and falling off in its gross carnings for July of \$10,711. General Electric declined 2 points on sales influenced by
