SCRANTON REPRESENTATIVES .- P. F. Haran will represent the Scranton branch of the Catho he Mutual Benefit association in Wilkes-Barre Scranton branch; Dr. J. A. Manley, South Scranton, and Attorney T. P. Hoban will attend as a member of the supreme board of directors.

LETTERS FROM THE PEOPLE.

[Under this heading short letters of interest will be published when accompanied, for publication, by the writer's name. The Tribune does not assume responsibility for opinions here expressed.]

Editor of The Tribune-

Sir: In the morning issue of The Tribune ap peared an item, given some prominence, en-titled "W. F. Smythe Arrested." "He Is Acused of Obtaining Goods Under Falsa Pre-enses." The fact of the arrest and the charge s not denied, but this case, like many other of the sort shows to what use our courts of inferior jurisdiction put the criminal code. To often us in this case eriminal process is invoked to collect civil debts. It is an argument why we should have men learned in the law to act as magistrates and who are paid for their mer vices not in proportion to the number of case ferwarded to the clerk of the courts, but stated salary. In justice to Mr. Smythe who is the unfortunate in the case referred to, I desire to may that Philip Doersam undertook to make a suit of clothes for Mr. Smythe, but unfortunately for both parties, there was a misfit. Mr. Smythe paid Doersam \$38 on or about the de livery of the clothes and then insisted before the balance was paid that the necessary cor-rection be made when the balance would be paid. Not satisfied with this very reasonable offer and proposition, the matter was laid before erman and for the express purpose as I believe to extort the balance. This was supposed to be readily accomplished by the arrest that followed. In the end, if ever it gets as for as the criminal court, the county will pay the costs for this bit of fun, the like of which is practiced constantly in our city at the expense of the honest taxpay ers. Yours truly,

Charles H. Soper.

THEIR ANNUAL RE-UNION.

Members of the Tingley and Tiffany Families Met Tuesday.

The annual Tingley-Tiffany family re-union occurred Tuesday at Harford in an old log cabin built upon the site occupied by the original log cabin of Elkanah Tingley. The latter was one of the famous nine partners who came from Massachusetts and In 1793 settled

in Susquehanna county. The day was spent pleasantly by the members of the two families. In the afternoon a song service was held, prayer being offered by Mrs. G. Moser,

of this city. W. G. Moser, of Scranton, made the address of the day and the election of officers was then held and resulted as follows: President, W. G. Moser vice-president, Mr. Tingley; secretary. George Sterns, of Kingley; executive committee, H. D. Tingley and Pearl Tingley, of Harford, and Morton W. Stephens, fo Nicholson.

SUPT. WEBBER RESIGNS.

Will Return to the Employ of the Scranton Gas and Water Company. Henry N. Webber, for the past sixteen months superintendent of the Scranton Illuminating Heat and Power company, has tendered his resignation,

to take effect Sept. 1. Mr. Webber will again enter the employ of the Scranton Gas and Water company, with whom he was associated thirteen years previous to his connection with the Scranton Illuminating, Heat and Power company.

Ages of Generals.

From the National Review The generals who made their name in the side of the North during the Civil War were all young men. Grant was 40 when he commanded at Shiloh; Sheridan was 33 when he received command of the cavalry of the Army of the Potomac; Sherman, one of the best, if not the very best, man that the war produced on either side, was only 44 when he started forth upon his inmortal Atlanta campaign. On the side of the South, too, the generals were young by modern standards. "Joe" Johnston was only 52 at the outbreak of the war; Lee was 54; "Jeb" Stuart was 28; "Stonewall" Jackson 37. Promotion on either side went with lightning rapidity. Sheridan opened the war as a humble lieutenant, closed it as a major general; Grant began as a captain, ended as licutenant general and savior of the Union. It was a time when it might truly be said that, as in Napoleon's day, a career was open to all talent, no matter what the birth or source of that talent. The consequence was that the army attracted an enormous proportion of able men. When the private could. and did, rise to brigadier general in a cuple of years, a force was created which had all the fire and enthusiasm f the French revolutionary armies, nd which fought superbly till it was shattered, decimated and broken in morale by Grant's fearful series of frontal assaults on entrenched veter-

If we turn to our own British field irmy today we shall find that not one of the officers in high command in South Africa is under 40. These are the ages: General Buller, 61 years; General Gatacre, 57; General Lord Methuen, 55; General Clery, 62; General French, 48; General Kelly-Kenny, 60; General Warren, 60; General White, 65; Lord Roberts, 68; Lord Kitchener,

Street Parade.

Prof. Gentry's Famous Dog and Pony show will give their street parade about 10 o'clock this morning; starting from the show grounds the pro-cession will parade the principal, streets. It will be a unique and pretty lisplay, in which all the dogs, ponies and monkeys will be seen, to nothing about the tiny elephants, the military band and all the other num-erous features of this excellent show. All the little folks should be on hand to see the street parade which will be the prettiest ever seen in this city. The afternoon performance will start at 2.30. Night at 8 o'clock. General admission, Children 25c.; adults, 35c.

MR. KELLER WAS ON THE WRONG TACK

MADE AN APPEAL TO COMMON-ER'S REASON.

Talked Hard for Nearly Half an Hour in an Effort to Prevent What He Previously Termed Reckless Legislation and Succeeded in Winning Four Members to His Way of Thinking-New Member from the Eighth Is Sworn In-Time for Paying Taxes Extended.

For several years past, as is well known, the select and common councils have been rather reckless, to say the least, in passing ordinances providing for transfers for various purposes from the judgments and incidental appropriation, an item intended solely for the purpose of paying off every year a certain amount of the large and rapidly accumulating pile of judgments drawing 6 per cent, interest which stand charged up against

the city. This year they have been especially eckless in this respect, but very few realized to what extent until Luther Keller read, last night, in the common branch, an itemized statement com-piled from the books of the city controller, and which was rather sensa-

tional in certain respects. Mr. Keller had his say and read his statement when the ordinance transferring some \$300 for ten additional electric lights from the judgments and incidentals appropriations was called up on third reading. He was on his feet in a moment, and after explaining that he has always been unalterably opposed to transferring funds from this account, appealed to the common ense of the members present while he read from a statement compiled

by himself yesterday afternoon. "I find," said he, "that this year the councils appropriated \$13,359.61 for judgments and incidentals. I find by examination of the controller's books that up to Aug. 17 warrants have been countersigned against this account amounting to \$11,773.49. Since then there have been other warrants countersigned, leaving a balance of \$778 in he appropriation.

"I find that a bill of Prothonotary Copeland amounting to just \$1.094.54 which passed the joint auditing committee a long time ago, has been charged to this apprepriation. Now, the controller, impelled by some motive which I do not care to talk about, split this bill in two on his own respon-

NOT MUCH LEFT. "Now, if we take this \$600 from the alance of \$778 we have just \$188 left to provide for the over \$300 called for in this ordinance. Not ony this, but there are now ordinances on the way providing for the transfer of \$3,957.26 from this account. Just think of it! We want to transfer over \$4,000 from

an account in which only \$188 remains. How in the world of reason can it be "But this isn't the worst feature. forging Janos Polagy's name to a When you raise the arguments that I money order, has been captured in have raised the councilmen say, 'Yes. New York by Postoffice Inspector Hugh | we know, but if there is no money the J. Gorman and committed to await an controller will refuse to countersign examination next Wednesday, when any warrants, and there's no danger the witnesses from this city will be in | in passing the ordinance.' You know as well as I do what this means. It means that when the

money called for has got to be included

as a deficiency in next year's appropriation ordinance. That's not right and you know it isn't. "And when we're through with this argument let's go to the other old one. There's just exactly \$53,000 in judgments, drawing 6 per cent, interest, charged up against the city, and here are councilmen wanting to divert the money appropriated for the purpose of dearing these up, to other purposes, We can borrow money at 314 per cent. I'm tired of the whole thing. I don't oppose the improvements, but I do most emphatically oppose the methods

used to obtain them." Several members proceeded to enlarge upon the great necessity of the lights, etc., but when asked where the money was coming from they simply grinned. The combination was too strong for Mr. Keller and the ordinance passed on third reading by the following vote:

TALK DIDN'T COUNT.

Yeas-Messrs, Reese, Grier, Godshall, Ruane, Roche, Phillips, Galpin, Watkins, Coleman, T. ?. Morris, Smith, Norton, Griffiths—12.

Nays-Nageli, Harvey, Paine, Wenzel, Keller-5. Another ordinance transferring \$425 for fire department purposes from the same account was next called up. Mr. Keller contented himself with simply saying that his other arguments applied to this also. It was adopted the same vote, except that Mr. Wenzel changed over to the yea side, he having signed the ordinance as vance." member of the fire department committee

Just before the meeting was called o order T. J. Roche, the new member from the Eighth ward, presented his credentials and was sworn in by Chairman Griffiths.

Quite a little argument was caused by the adverse report of the sewers and drains committee on the resolution extending for four months the time limit for the construction of the Seventeenth district or South Scranton sewer. Mr. Grier moved that the report of the committee be not adopted and that the resolution be passed. Mr. Paine, of the sewers and drains

ommittee, assured the members that the city engineer was not in favor of granting the extension to Contractor oons and expressed the opinion that if it was adopted the work of constructing the sewer would go on "for all eternity."

Mr. Coons was championed by Mr. Keller, Mr. Grier, Mr. Smith and oth It was contended that he has been delayed on account of his inability to negotiate the judgments and bonds issued him in payment by the city, and the opinion was expressed that if the resolution was not adoptd he would throw up the contract. After a deal of argument Mr. Grier's motion was put and carried and the extension was granted.

ANOTHER EXTENSION.

Later in the evening Mr. Keller introduced and secured the passage of resolution extending for sixty days the time limit for the construction of the Schultz court sewer, John J. Fahey, contractor. He maintained that the city engineer used "bad judgment" in estimating the probable length of time required to construct the sewer. A select council resolu-tion was also adopted extending for sixty days the time limit for the construction of the Providence road, Philo Ten Eyck.

street and North Main avenue sewer, Donahue and O'Boyle, contractors. The contract for the construction

of the Railroad avenue sewer was awarded to O'Hara Bros., and for the Section A. Tenth district sewer, to

John J. Fahey. The ordinance providing for the transfer of \$2,125 from unexpired baiances for fire department purposes passed first and second readings, while the following measures passed third and final reading: Closing Kressler court between Myrtle street and the Erie and Wyoming tracks: providing for payment of half of the cost of a pave on Penn avenue in front of the property of John Handley, deceased; opening Poplar street across the Delavare and Hudson tracks.

Mr. Keller introduced and secured the passage of a resolution empowering the city treasurer to collect city taxes until October 15, without an

added penalty. Mr. Wenzel introduced an ordinance providing for the pavement of Seventh street between West Lackawanna aveue and Scranton street.

Chairman Griffiths announced that he had appointed Mr. Paine as chairman of the sewers and drains committee and as a member of the finance, laws and ordinances, parks and public buildings committees. He appointed Mr. Roche as chairman of the judiciary committee and as a member of the fire department, laws and ordinances, parks and sewers and drains committees. This gives the Democrats a majority on the fire committee, the only committee on which they have a majority in either branch.

BONTA WORKS SOLD.

Capitalists Negotiating Through Ex-Senator McDonald Buy Out the Bankrupt Glass Company.

A company of capitalists, most of hem from Philadelphia, have purchased the plant and patents of the Bonta Plate Glass company, and will The deal was consummated yester-

lay through ex-Senator M. E. McDonald, who will likely be president of the new company. The Bonta people were represented by E. E. Miller, president of the old company. The exact consideration was not made public, but it is said to be enough to recoup in a liberal degree the losses which the original investors sustained. The Bonta company was organized here about eight years ago by J. W. Bonta, the inventor of the Bonta nethod of plate and embossed glass and glass pipe manufacture. A large and expensive plant, 150x150 feet in dinensions, for the making of plate and embossed glass, was erected in Moosic, and later a factory for the manufacture of glass condults was established

at Throop,
The undertaking proved too imnense for the working capital at hand, and this, coupled with the timidity of the stockholders, resulted in the failare of both enterprises and their chief promoter. Trustees for the creditors took charge of the property and at a sheriff's sale, the patents passed outright to them. Mr. Miller was chairman of the trustees.

It is claimed that there is a big demand now for the products of the factories and that with sufficient working capital they can be made to give rich returns.

There is no question of the successful operation of the Bonta inventions. That has been practically demonstrated. The only question is whether or not the backing will be sufficient to eet aggressive competition until the Bonta goods get a firm footing in the vorld's markets.

The new company will meet for rerganization in this city next week, when its members and their plans will be made known. The company's main office will be in room 6, in the building at 421 Lackawanna avenue.

FROWNS, TEARS AND KISSES.

The Fate That Befell the Girl Who Carelessly Lost Her Diary. From the Detroit Free Press.

"Diary?" fairly shricked the pretty oung lady with flashing eyes as she walked down the avenue with a companion. "Diary? Don't you ever dare say diary to me again. What do you know about it, Kate?"

"Nothing; only that you told me that you had commenced keeping a diary, as usual, and I supposed you had dropped it at the end of a month, as usual. I didn't mean to throw you into hysterics.'

"Kate, don't you ever breathe a word of it, but I've lost that diary; dropped it somewhere on the street. And the plaguey things has all my dearest secrets in it. I wrote just what I thought, oo. It just sets me crazy. There is in black and white that Lillian looks a fright, that Hattle is turning green from jeniousy, that Charley is just too sweet to live and that Fred hasn't sence enough to talk more than three minutes without he rehearses in ad-

"Why don't you advertise and offer reward?" "Indeed, I won't. I never want to e the thing again. If any one returns it I shall declare that it's a forgery from beginning to end. I'll never own

ip the longest day I live." "What did you say about me, Edith?" "Oh, I don't remember; but something nice. You can depend on that, for you're my very dearest friend."
"I can help your memory. You wrote that I was the most inquisitive little minx in the city, and that I thought it my special business to look after other people's business. Here's your diary. You left it at our house, and Tommy spelled out your estimate of me before knew what he was doing. Good af-

ternoon. Then they looked at each other, both began to cry, fell into each other's arms, and in five minutes were criticizing a mutual friend.

Genius for Silence. Among the few who have a perfect genius for

ilence is a certain well-known artist, whose eticence is the amusement and wonder of all A friend who had dropped into his studio one day was plainly endeavoring to draw Mr. II— into conversation when the artist's brother ap-

peared in the doorway.
"Halloz, Tom!" said the brother.
"Halloz, John!" returned Tom, looking up from his casel, with a smile.

John wandered about the room for fifteen minutes, turned over his brother's latest work, and then, going toward the door, stopped long enough to say: "Well, good-by, Tom."

"Good-by, John," was the hearty rejoinder.

Tom painted on for some minutes, and then, n an unwonted burst of confidence, he said, warmly, to his amused friend:
"I tell you, I was glad to see John. Haven't seen him before for a month."—Tit-Bits.

Ten Eyck Wins Races. Halifax, N. S., Aug. 23 .- The three-mile scullg race between Ten Eyek and Vail was won by

WATER SUPPLY WAS

ANNUAL TOUR OF THE BOARD OF HEALTH.

Accompanied by a Number of Specially Invited Guests and Guided by Superintendent Reeves, the Guardians of the City's Health Visit the East Mountain Reservoirs of the Scranton Gas and Water Company and Enjoy a Pleasant Day.

The magnificent East Mountain watr shed of the Scranton Gas and Water company, from which the larger amount of the water furnished this city is drawn, was inspected yesterday by the members of the board of health and a number of the city officials, as is the annual custom. All of the reservoirs, with the exception of the maller ones, were thoroughly examined by the authorities under the leadership and guidance of Superintendent Robert Reeves.

The start for the tour of inspection

was made from City Hall shortly before 10 o'clock, in five three-seated surreys. There were twenty-three in the party, as follows: Health Officer Allen, Dr. George B. Reynolds, Dr. Thomas Rodham, J. George Eisele, E. G. Stevens, W. E. O'Malley, of the board of health; Mayor Moir, Food Inspector Widmayer, Plumbing Inspector Monies, Sanitary Officer Burke, W. E. Burke, W. A. Lynott, J. E. Franklin Phillips, Livy S. Richard William M. Fowler, J. P. Toohey, T J. Jennings, William Griffiths, James Leyshon, William Neville and Robert

The first thing inspected was the

Reeves.

tunnel leading from Lake Scranton under the mountain to a point just back of and to the west of the Speedway operate the works under the title of hotel. This tunnel has but lately been the Scranton Glass company. eet long, piercing the solid rock. Through it extends a thirty-inch wat-er pipe connecting at a valve house on one side of the No. 7 reservoir. By means of a splendid set of valves in this latter house, the water from the Elmhurst reservoir may be conveyed through this pipe into Lake Scranton should the necessity arise The necessity has not yet arisen, nor is it expected to. The blast of cold air coming from the mouth of this tunnel was like a whiff of breeze from 'Greenland's icy mountains' or some ther equally frigid place.

After the inspection of the tunnel

he party, led by Superintendent Reeves, drove down an excellent newy-made road to the No. 7 reservoir, from which the larger amount of the East mountain water supply is dis tributed to the city.

BIG DAILY DRAUGHT. The capacity of this reservoir is 80,-000,000 gallons and it was being filled yesterday from the Elmhurst reservoir. Mr. Reeves stated that the amount of water distributed every 24 hours from No. 7 is now about 21,000,-000 gallons, a considerable increase

over last year. The members were shown through the inner reservoirs, or gate houses, which are under cover, and examined the screens through which the water passes before it reaches the distributing pipes.

The water from No. 7 reservoir is now drawn off for distribution just ten feet from the surface, so that any sediment which may settle on the tom is not taken up. The party next drove over the boule

vard . . the Elmhurst reservoir, a magnificent sheet of clear, crystal water, and the main source of supply for the city just at present. The capacity of this reservoir was up to a short time ago 1,300,000,000 gallons but the recent of addition of three feet to the dam has permitted an increase of 200,000,000 gallons, so that now the capacity is 1,500,00,000. Food Inspec-

tor Widmayer secured samples of the water from both this and the No. 7 reservoir, for future chemical examina-From Elmhurst the party drove through to Moscow, where after a general brushing down and washing up they were seated to a right, royal dinner at Hotel Dixon. The repast

finished, brief addresses were made by

several, including Mayor Moir and Dr. Dr. Allen's remarks were especially interesting. In the fall of 1895 he said it came to his ears that there were several cases of typhoid fever in houses situated along the banks of the stream running from the Elmhurst reservoir to No. 7. The doctor immediately investigated and discovered to his dismay that not merely a few but fifteen fully developed cases of typhoid fever existed in houses on the average not twenty feet from this stream, the water from which Scranton people were daily drinking. Not only this but cesspools of these houses were

draining directly into this stream. TOOK PROMPT MEASURES. The doctor acted promptly and go did the officials of the water company. The cesspools were cleaned out, and men employed by the company were kept on duty day and night, patrolling back and forth seeing that nothing was dumped near the stream. Everything coming from the houses was disinfected and buried hundreds of feet away. The company almost immediately purchased the land and the resi-

dents became its tenants. The most marvellous thing about the whole affair was that not a case of typhoid fever developed in the entire city. The doctor said that had the thing not been stopped so quickly that the consequent loss of life would be appailing to think of.

The doctor in the course of his remarks paid a high compliment to the water company and said that every request ever made by him regarding the water supply had been granted. He was in an especially jocose mood, and during his brief address had a few very pointed things to say, and he said them in that dry, quaint way for which he is noted.

"Since the Scranton Gas and Water ompany took hold of the Providence system," said he, "they have greatly improved things up there, but there were days when things were anything but improved up there. The men at the head of the old Providence Gas and Water company were good, Christian men and all that, but they hated like the very deuce to do anything to improve the condition of their water supply. "Eighty per cent, of the stock was

held by the Lackawanna Railroad company and twenty per cent by the Delaware and Hudson company so that the former had the controlling Renjamin Lapo ... interest. Well, about a year ago, after Constance Konowerchoich Scranton investigating conditions up there, I Samuel P. Williams Daleville had the audacity to report that the

MANNEN MA DULY INSPECTED JARS. JARS.

About this time every year most housekeepers buy fruit Jars. Mason Fruit Jars are made of glass, but all Mason Jars are not well made. Different shirt makers make different grades of white shirts, but they are all white. One can of fruit spoiled in a poorly constructed Jar will more than pay the difference of two dozen good ones. Did you ever stop to think of it? We keep the best.

> Everett Furnace Robbed. Redford, Pa., Aug. 23.—The office of the Ever-tt Furnace was broken into by thickes last

night, who forced the safe getting \$100 in money and a lot of postage stamps. In their hurry they overlooked some bends and several pay enve-lopes. They had attempted to open another safe in the office and had knocked off the combination when they were frightened away. Had the burglars been a few days earlier they would have made a good haul as the money for the pay roll had been kept in the safe broken into.

Bellefonte Postoffice Robbed.

Bellefonte, Pa., Aug. 22.—The posterfice as Centre Hall was entered by thieves last-night and \$150 in storups and \$250 in measy was stolen, only \$100 of the cash was government funds, the remainder belonging to individuals for whom Postmaster George Boal was keeping it. The thieves escaned leaving no clue. hieves escaped leaving no clue.
