New York, Aug. 24.—Duliness continues to be the most notable characteristic of the foreign security markets and New York display the same lack of activity. The general hesitancy is ascribed to the perplexities of the Chinese situation. Speculation was as uninteresting today as tor some time past and movements in special stocks were attributed to independent influences. A general condition toward lower prices was noted with the tendency favored in part by conspicuous weakness of some specialities. Movements in the railroad list were small but some large fractions were clipped off of Northern Pacific and Union Pacific around midday when the general tendency downward assumed some force. Sugars was quite prominent and ran off 1% on discussion as to future trade conditions. Stocks of leading corporations displayed marked heaviness at intervals. Brooklyn Rapid Transit and Consolidated Gas yielding from 1% to 2% per cent. Some interest was aroused by a break of 5 points in Lackawanna which is usually very much neglected. Transactions in the stock reached 1,000 shares and there was a final rally of 2 points. Strements that the general condition of the iron industry showed a decided improvement and that negotiations with labor organications were in a fair way of being adjusted satisfactorily did not impart any strength to the metal group which was reautionary all ground aside from Tennessee Coal, which improved 1%. Toward the close the stock market showed a tendency to rally in sympathy with special stocks. Total sales, 14,200 shares. Bonds were irregular with heavy realizations in St. Louis Southwestern, the feature. Total sales, par value, 5765,000.
