

No other aid so great to the housewife, no other agent so useful and certain in making delicious, pure and wholesome foods, has ever been devised.

ABSOLUTELY PURE

There are imitation baking powders, sold cheap, by many grocers. They are made from alum, a poisonous drug, which renders the food injurious to health.

ROYAL BAKING POWDER CO., 100 WILLIAM ST., NEW YORK.

LIVE NEWS OF THE INDUSTRIAL WORLD

GLASS PIPE FACTORY A POSSIBILITY.

Scranton Man Invents a Successful Method for Forming Tubes from Vitreous Matter and a Movement Is Afoot to Have Its Product Placed on the Market by a Scranton Company—Demand for Coal Is Slightly on the Increase—D. L. & W. Board for Today.

T. B. Howe, freight agent for the Lackawanna railroad at Green Ridge, and C. E. Wetmore, an employee of the Green Ridge Lumber company, have been granted a patent on an apparatus for forming glass or vitreous pipe or tubular bodies, which will be used in the manufacture of glass tile, pipes, or conduits.

The invention relates to improvements in apparatus designed for forming pipe from vitreous materials and especially such as are made plastic by heat—glass, for instance—and it has for its object to provide an apparatus which will form perfect pipe, cylindrical in cross-section, if so desired, and with a minimum of labor and attendance.

The invention consists, primarily, in a rotary mold or succession of such molds, each arranged vertically and adapted for the reception of the molten or plastic material from a stationary feed, whereby the mass is distributed in the most perfect manner to secure homogeneity, and in providing, in connection with such molds, a longitudinally-movable cone, together with a similarly movable former for shaping the edge of the pipe.

Mr. Wetmore is the originator of the apparatus, and has a contract with Mr. Howe for placing his invention on the market. When seen by a Tribune man yesterday he stated that at present he does not know whether or not a stock company will be formed, but in all probability a plant will soon be established for manufacturing this wonderful commodity, which will virtually supplant the present sewer, gas, water and other pipe materials.

The invention differs from the Donta product of glass pipe in so far as it is more perfect in its construction, and in the opinion of men who are experts along that line, it is bound to come into general use. There is a possibility of the patents selling their invention, but at all events it will soon be placed on the market.

D. L. & W. Board for Today.

Following is the make-up of the Delaware, Lackawanna and Western board for today:

- Monday, Aug. 27.
- WILD CATS, SOUTH.**
- 1 p. m.—E. McAllister, with Van Vleet's men.
4:30 p. m.—Moser.

10 a. m.—Hendolph.
11 a. m.—S. Carmody.
11 noon.—John Galagan.
1 p. m.—Carrigan.
3 p. m.—Barber.
3 p. m.—Ketchum.
4 p. m.—Hammit.
11 p. m.—Kellen.
9 p. m.—Kingsley.
7 p. m.—J. Gierity.
8 p. m.—J. Devine.

This and That.

Division Superintendent Clarke, of the Lackawanna railroad, has notified the conductors and engineers under him that he will be pleased to make their personal acquaintance and has invited them to call on him at his office any time, whether they want anything or not.

The officials of the Lehigh Valley Coal company have about made up their minds to abandon the subterranean diagonal slope at the Primrose colliery at Mohanoy City. This is the slope in which the mine fire is raging at present. The abandonment of the slope will necessitate the boring of a 400 foot hole. It is expected that a portion of the mine will be in readiness for operation early this week.

No. 505, the fifth of the order of eighteen engines now being built by the Dickson Manufacturing company at the Cliff works for the St. Louis and San Francisco Railroad company, was turned out of the shops yesterday and prepared for shipment. Traveling

Engineer Eugene Call will probably accompany the locomotive to its destination.

On the whole, the annual report of the Erie is a very satisfactory document. Both gross and net earnings show handsome gains, and final result of operations for the year which ended June 30, was a surplus of \$1,563,430, compared with \$653,798 in 1899, \$633,916 in 1898 and with \$352,918 in 1897. It will thus be seen that the road is gradually strengthening its financial position.

The threats of a strike made by the miners' union has caused some fear in the New England states, and the trade there is quite brisk. Most of the dealers in that section of the country have little coal on hand, and they have begun to lay in their winter supply. There is a disposition to charge full tariff prices, which has not been the case in Boston for some time.

During the past week there has been a better demand for anthracite coal in this city and at the water points, says the Philadelphia Press. This has caused a better feeling in the trade,

and it is stated that the July circular, which was an advance of 25 cents a ton over the old one, will go into effect. Already prices have stiffened and none of the companies is taking orders for shipment after the end of the month.

SUSQUEHANNA COUNTY.

Special to the Scranton Tribune.

Susquehanna, Aug. 27.—In Beebe park, on Saturday afternoon, the Susquehanna club met and vanquished the recently-organized Crescent club, of Carbondale, 5 and 4. The visiting club was made up of Carbondale and Scranton players. They put up a stiff game of ball, but the excellent pitching of Duffy, one of Susquehanna's crack pitchers, was a conundrum to them. The club is made up of a gentlemanly lot of fellows, Connors very satisfactorily umpired the game, and escaped being killed by the populace. The attendance on the grounds and on the turnpike was large.

Rev. M. Hall, presiding elder of the Oneonta district, occupied the pulpit of the Avenue Methodist church, in Oakland, last evening.

Erie Paymaster Campbell arrived in town this evening, and on Tuesday morning will reimburse the shop men for services in the month of July.

Cornelius McMann died on Saturday morning at his home at Friendsville, Susquehanna county, aged 30 years. The funeral occurred this morning. The public schools of this borough will reopen in the fall term on Monday next.

The marriage of Albert W. Brock, of Susquehanna, to Miss Alice Morton, of Troy, N. Y., will take place at the home of the bride on Wednesday evening September 5.

The Methodist and Presbyterian churches united in a service in the Methodist church last evening. Rev. David I. Sutherland, pastor of the Presbyterian church, preaching the sermon.

Rev. J. L. Williams, of Forest City, on Sunday morning and evening very acceptably occupied the pulpit of the Baptist church.

Gastino Tello, the former Italian resident of Susquehanna who shot and dangerously wounded Miss Mary Spangola in Elmira on Friday afternoon, is still at large. Detectives were in Susquehanna on Sunday, unsuccessfully searching for him.

Mrs. Oscar G. Larabee is seriously ill at her home on Grand street.

Mr. Tower, V. S., of Montrose, today vaccinated for the second time, the herd of cattle of Hugh Perry, of Thompson township, for anthrax. Since the first vaccination there have been no deaths among the herd, and no other herds have been affected.

Private Jesse Westervelt, of Susquehanna, wounded in a recent battle in China, is supposed to be on a hospital ship en route from China to San Francisco and home. He is a United States regular.

A delegation of Susquehanna county veterans will attend the National convention of the Grand Army of the Republic in Chicago.

The Elmira Telegram yesterday had an alleged portrait of Chief Justice J. Brewster McCallum, of Montrose. It was made with an axe. The chief justice has grounds for a suit for damages.

The new telephone line between Susquehanna and Forest City is gradually approaching completion.

In Susquehanna, on Saturday, the thermometer registered ninety-eight degrees. "Stick to your flannels."

George Hill, of Bradford, Pa., who has been visiting Susquehanna relatives, has returned home.

Homer Jennings, of New Milford

3,000 Yards at Half

Too late? Perhaps they are for this season's use. But it will be the part of wisdom to share in this offering and hold for future use. There's never a radical change in patterns, you know, and next season's will differ but little from these. Certainly, they'll be no prettier. There are just 3,000 yards in this lot that we are willing to part with at half their usual prices—divided into three groups.
