tions between Berlin and Vienna on all questions of international policy.

The Situation Summed Up. One of the best posted members of the diplomatic corps, who is actively engaged in present negotiations, today summed up the international com-

plication substantially as follows: The powers were in complete accord up to the time of the taking of Pekin. But with that accomplished the more important question arose as to the future course of the powers in dealing with China and on that there is not yet any complete accord. Thus for it seems plain that the United States appears the dismemberment complete accord. Thus for it seems plant that the United States opposes the dismemberment of China, or any move towards territorial ex-tension there, and in this position Russia and France seem to agree. On the other hand, while there is nothing definite indicating territorial expansion, yet the exchanges led to the belief that Germany, Great Britain and probably Japan, are not averse to a course which will bring about territorial divisions within the empire. It was supposed that Japan stood against any division supposed that Japan stood against any division of the empire, but the landing of Japanase troops of the empire, but the landing of Japanase troops at Amoy cannot be accounted for on the ground that a Japanese temple had been burned. So that it is the accepted view that Japan is at last making ready to be in a position to share in any division of territory which must come. The course of Russia in taking New Chwang cannot be viewed in the same light as the landing of troops at Amoy or Shanghal, as this was for the sole purpose of pratecting Russia's railway line, and any ulterlor territorfal porposes have been disclaimed by Russia. So far as Great Reitaid's purposes are concerned, in as Great Reitnin's purposes are concerned, in the absence of any express declaration the land-ing of troops at Shanghai is strong evidence that Orest Reitain wishes to control the Yang Tevalley, which is the garden of China. On the part of Germany the doubt as to her future course is due mainly to Count Waldersee's speeches since the taking of Pekin. These have ferences since the Isting of Pekin. Those baye findicated that he was going on an extensive campaign, and that the fall of the Chinese cap-ital was only the initial step in a comprehen-sive programme, requiring the presence of a large army. Just what this means is not clear but it has at least created much surprise in Washington and some other capitals. The dif-ferences ever Li Honz Cham's credentials are Washington and some other capitals. The dif-forences over Li Hong Chang's credentials are three-fold. One view, including that of the United States is that the credentials are ac-esptable; another is that they have never been shown to carry complets authority; while the third view is that the original credentials were valid at the time given, but have since become invalid through the flight of the emperor and empires dowager, and the complete collapse of the Chinese government. The question of cre-dentials does not seem so difficult to deal with and it probably will be solved to the satisfac-tion of all concerned but it is not clear thus far that the powers can be brought into com-plete accord on a general policy for the future of China. Each appears to be waiting for the of China. Each appears to be waiting for the other to act and on the part of some there is a traditional disinclination to go into the outlining

VIEWS OF LONDON.

England Ready to Take Its Share of the White Man's Burden.

London, Aug. 30, 3.15 a. m.-Amid the growing difficulties of the Chinese inbroglio, Mr. Broderick's emphatic declaration at Thorncomb last evening proves that the British government does not yet see any cause to depart from the line of policy originally decided upon, namely, to take no responsibility for the condition of China. Mr. Broderick said he hoped it

would not be supposed that the goverrment was pusilanimous in this respect. Its object was to maintain British interests. It was quite ready to take its share of the white man's burden, but could not admit that the nato it by the yellow man.

a policy comes in. We cannot decamp and leave the powers to settle among themselves,"

The Chinese minister in London asserts that he is in constant communication with Li Hung Chang, who is still in Shanghai.

A Shanghai telegram says that Li Hung Chang has sent a memorial, begging the empress downger to appoint Prince Ching, General Yun Luand Lag Tse viceroys as joint peacemakers with himself. It is rumored at Shanghai that the Japanese gained a great victory over the Boxers and Chinese troops from Pei-Tswang and Ho-Si-Wu last Thursday at Teh-Chou (?). The story says that 1,500 Chinese were killed, including Prince Tuan, and that the Chinese were driven back into Chi-Li.

The reform party, under Kang Yu Wei, is said to be actively preparing for rebellion.

General Creagh, in the presence of Vice Admiral Seymour, reviewed 3,000 troops of all nationalities at Shanghai, Wednesday. It is reported from Harkow that twenty-five reformers have been executed, their heads being ex-

flowers. The little lips are always puckered to give or take a kiss. In homes where there are children, love reaches its fairest and sweetest proportions. In childless homes the kiss of wife and husband grows formal, and presently is neglected; the springs of love in the heart become choked for want of use and exercise. Childlessness is a great sorrow to many women. It is like a curse from Nature, who bids all creatures to be fruitful. It is not a curse but a misfortune. Often the conditions which cause childlessness are removable. Dr. Pierce's Favorite Prescription has brought joy to many a woman by giving her the happiness of motherhood. It gives to the womanly organs vigor and vitality, removes local obstructions, and practically does away with the pains and

angs of maternity.

"I have never written you how grateful I am to you for your help in securing good health and one of the sweetest, dearest, thirteen pound girls that ever came into a home," writes Mra. M. Vastine, of 647 South Liberty St., Galesburg, Ill. "I took six bottles of Dr. Pierce's Favorite Prescription, four of the 'Golden Medical Discovery, and four vials of 'Pleasant Pellets.' Before I had taken four bottles of the 'Favorite Prescription' I was a new woman. I cannot make pen describe my heart-felt gratitude."

Belated dispatches and the storics of refugees arriving at Chefoo continue to describe the terrible condi-tions in Pekin. One of the worst inidents is the shocking desecration of the foreign cemetery outside the west wall. The details are too revolting to be described. Hundreds of bodies of Chinese are found in the streets of Pekin, supposed to be those of traitors o the cause of the Boxers.

Communication between Pekin and Tien-Tsin is interrupted, probably because bands of Boxers make the road unsafe for couriers. The country north of Yang-Tun is said to be flooded.

A correspondent at New Chwang says that the Russians at Hai-Cheng are awaiting reinforcements, whose advance is delayed by the impassible conditions of the roads to Leao-Yang and Muliden. Meanwhile, the native population of the district is being treated with the utmost severity. Eye-witnesses report an indescribable slaughter of non-combatants and the staughter of non-combatants and the reduction of the country in the vicinity of Port Arthur to a state of utter desolution.

THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, Aug. 29.—There was a stirring of speculative interest today which gave an appearance of greater snimation to the stock market than it has shown for two weeks past. The strength centered in the steel group, the greater part of the day but in the later dealines it extended throughout the list. The list of active stocks was not a long one, but such as were dealt in show quite uniform gains extending to near a point or over in many cases. The gains were well held and profit taking made only slight intends, the close being firm though quiet at about the top. In the steel group the gains ragned from a point to 2 and 2%, the latter figures in National Sizel and Steel and Wire. There was no exception in the group to the upward tendency which was due to the reports of negotiations for the settlement of wage schedules which are in progress was probably reflected also in the movement. The statements of rational enrings of the day were good, including the Walash annual report showing a prosperous year, and St. Paul report for July. The threat of a strike of the antimactic coal miners did not seem to affect the market and Eric first preferred in the group of coalers advanced 1½, Total sales, 143,500 shrares. Dealings in house continued dull and the market irregular. Total sales, par value, \$2,750,000. United States is advanced ½ in the bid price.

Fall Costumes

Tailor-made Suits, and in fact, ready-to-wear things generally, have always been a famous factor in the growth of this business. We have been learning things about them for a good many years as fast and as thoroughly as hard study and ample opportunity would allow us. We have long since reached the point where we could teach others. One of the things we learned a long time ago was that style need not be a matter of price. It is pretty hard to say just what style is, but it certainly isn't measured in money.

A \$15 suit can be as "stylish" as one at three times the price, if it is designed with taste and skill and courage, and is cut and finished with care and conscience. It is largely a matter of selection, and we select with a telescope for new ideas and a microscope for faults. There is here, as a result of this, the best collection we know of of Fall and Winter Costumes. Low prices, medium prices and high prices: All prices, except "unfair" prices.
