Pass Resolutions Fixing the Number of Conferees Equal to the Number That May Be Named by Bradford County.

Tunkhannock, Aug. 30.—The following is the full text of the resolution adopted at the Republican convention on Monday, in regard to the representation in the senatorial conference:

Whereas, in the senatorial apportionment of 1874, the counties of Bradford and Wyoming were placed into and constituted the twenty-third senatorial district, and that during this time, a period of twenty-six years, Bradford county has held the senatorship continuously thus ignoring all the rights of the Republican voters of Wyoming county, and

Whereas, the only privilege enjoyed by the Republicans of Wyoming county during this time has been to go to the polls time after time and cast their ballots for a senatorial candidate for whom they had virtually no choice.

DEAFNESS CANNOT BE CURED.

By local applications, as they cannot reach the diseased parts of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous membrane of the Eustachian Tube. When this tube gets inflamed you have a running nose of imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nice cases out of ten are caused by catarrh, which has become an inflamed condition of the mucous surfaces.

THE MARKETS. Wall Street Review. New York, Aug. 30.—The early promise of strength in the stock market today was not maintained, and after a brief period of activity and firmness prices began to decline again and the trading tapered down to the insignificant proportions which have become the recent normal condition. The steel group especially showed weakness, the market for iron and steel was under way by developing heavy trade, Steel and wire falling back over a point. The American Iron and Steel Institute reported a decline in the group's reports at hand showing a growing demand for many grades of iron and steel. There was a decided speculation in sugar, which lifted it at one time over a point. But the gain was almost entirely wiped out by the time the market closed. Strength in the London market helped the opening here, causing a slight rise in a number of our national stocks, but London reacted later in the day and these stocks fell their advantage in sympathy. Total sales, 12,000 shares. Bonds were dull and irregular. Total sales, per value, \$1,175,000. United States refunding 28, when market price was 104 1/2. Bid price, 104 1/2.
