LIVE NEWS OF THE INDUSTRIAL WORLD

D., L. AND W. MEN ARE OPPOSED TO A STRIKE.

Showed That Over Eighty Per an Extreme Step-Bonta Plate Glass Works at Moosic Are to Start Up-Make Up of the D., L. and W. Board-Maryland Steel Plant Not to Shut Down.

The employes of nearly all the Delaware, Lackawanna and Western col-Heries were polled yesterday to ascertain whether or not they favor a have tanks with a capacity of 6,000 strike, and over eighty per cent, of gallons. They also have a 200 pound the men are against such a proposiasserted, Many the men said, however, that if a strike is ordered by the executive board of the United Mine Workers of America they will go out. The details of the vote could not be learned last night, as no official reports were made. Superintendent Leomis is expected at his office today, when the committee from the Lackawanna union, who are to present a request for a 10 per cent, increase in wages, is expected to wait upon the

A large number of the grocerymen and general storekeepers in this city and up and down the valley are preparing to close their doors in the event of a strike. It would be business suicide for them, they say, to attempt to continue in business, for they would be unable to get more than thirty days' credit from the whole-

Anticipating that the national executive board at its meeting today in Indianapolis will sanction the application for authority to strike, the district boards of the United Mine Workers have called a meeting for tomorrow at Hazleton to make one final effort to gain concessions from the operators.

T. D. Nichols, of Nanticoke, president of the local district, was in Scranton last night, conferring with Secretary John T. Dempsey, and will this morning leave for Hazleton, where a preliminary meeting of the district presidents is to be held this after-noon. All the other officers of the district boards will likely be called to the meeting tomorrow.

Secretary Dempsey, when seen last night at the United Mine Workers' headquarters. at 215 Lackawanna avenue, stated that he had not heard anything from Indianapolis, but was satisfied that nothing could come of today's meeting of the national executive board other than an order to proceed with the strike. The only thing that can prevent a strike, Mr. Dempsey said, is an acceptable offer from the operators. If that doesn't come before Saturday, there will be a total tie-up of the anthracite workings in the Lackawanna, Wyoming and Lehigh regions.

Mr. Dempsey could not say what boards in their final effort to gain the concessions. That matter would he discussed by the district presidents today and acted upon at tomorrow's meeting of the district boards.

conclude that it would be all in vain and simply let affairs take their course. the meeting and it is safe to say, according to Secretary Dempsey, that if there is anything to encourage the hope of a settlement the meeting will be held.

President John Fahy, of District No. 5, called Secretary Dempsey by phone last evening and asked him to contradict the statement sent out from Hazleton that a poll had been taken of the miners of that region and that 75 per cent, of them had declared themselves opposed to a strike. The proportions were just the other way President Fahy would have it stated. Thmomas Duffy, of McAdoo, president of District No. 7, in a telephone communication with Secretary Demp-

President Fahy. As to the feeling in this district, Secretary Dempsey made the statement that at a meeting last night of Local Union No. 862, of the United Mine Workers, embracing all the men and boys of the Manville colliery, a resolution was unanimously adopted declaring that the union, to a man would obey any order that come from the executive board meeting.

John Conlon, of Hudson, has been appointed general superintendent of the Algonquin Coal company's mines at Parsons and Miner's Mills.

An official of the American Steel and Wire company said yesterday: "I look for a large volume of business this means would be adopted by the local autumn, notwithstanding the disturbing influence of the presidential elation. Our trade relations are harmonious with all competitors, and the future looks bright."

According to Baltimore dispatches, It is not altogether certain that representatives of the Maryland Steel this meeting of the district boards company say that there is no truth in be held, Secretary Dempsey the report that the company contem-The district presidents may | plates shutting down its plant at Sparrow's Point about November 1, us the company has sufficient work on hand They are disposed, however, to hold to carry it into the beginning of next

James H. Mahon, for several years head coal inspector for Meeker & Co. in Wyoming Valley, has been promoted to the position of general sales agent for the same company, with headquarters in New York city. Mr Mahon has been with Meeker & Co. for the past ten year. He will leave for New York on Monday.

HAVE RETAINED LAWYERS.

Spellman and Jones to Sue the City for Their Pay. James H. Torrey and Major Ever-

ett Warren have been retained to sue the city for the salary that is being withheld from Lieutenant Michael Spellman and Patrolman I. A. Jones. These officers, it will be remembered, were dismissed by Mayor Molr three months ago, but council refused to concur in the dismissal, and unanimously passed a resolution requesting the mayor to put them back on the force. The mayor refused to heed the request, and served notice on councils that the men had been removed and would stay removed.

The officers report for duty every lay in uniform, and will continue to o so until council concurs in the dis-Incidentally, they will sucthe city at regular periods to secure

their pay. In a similar case, in which James Saul was the plaintiff, Judge Archbaid decided that the dismissal was not complete without the concurrence of council and that Saul was entitled to pay for the time that clapsed between the dismissal by the mayor and the concurrence by council. Council directed the city solicitor not to appeal the case, but the mayor, on his own responsibility, ordered it taken up and will be heard at the Scranton session of the Superior court in January.

HOW TO GET HORSES BACK.

If Resolution Passes, City Solicitor Will Bring Action in Replevin. Just how the city solicitor could proeed to recover the six horses sold by the fire department committee, in case the resolution directing him to do so should be passed by the common council and approved by the mayor, is the question asked by many in city hall. A well-known attorney, who does not desire his name to be mentioned, stated to a Tribune man that the horses could not be recovered in case the purchasers could prove that they bought them innocently, not knowing

that they were being sold illegally. "The course the solicitor will probably pursue in case the resolution is adopted," said he, "will be to bring ; suit in replevin against the original purchasers of the horses, providing they have them in their possession yet. Then they will have to prove to the satisfaction of court that when they purchased them they thought the sale

was perfectly legal. "If they can do this, they can retain possession of them, but if they can't the city can recover the lost animals. In case the original purchasers have resold the horses, matters will be further complicated, and the chances of recovering the horses lessened."

THE MARKETS.

New York, Sept. 5.-By contrast with the reent dead level of spathy today's trading in stocks seemed like positive animation. The aggregate of dealings was considerably larger than or some time past and the total was made up ith an overwhelming preponderance of trading n one or two stocks. Sugar, People's Gas and Brooklyn Rapid Transit all continued fairly prominent, but there was a marked increase of interest in railroad stocks and the number of shares of some of the individual railroads dealt in compared favorably with the totals in the speculative favorites among the industrials. There was strenuous support in sugar at the opening and the 4,000 shares thrown upon the market were taken at prices running from 123 to 12212, compared with 1221a last night. Encouraged by powerful support, the stock was pushed at one time to 123%, but it turned heavy during the latter part of the day and closed with a net loss of 1%. People's Gas, on the other hand, was weak in the early dealings on continued reports of extreme measures contemplated in the Chicago gas war. The stock touched 94, but rallied 2 points and closed with a net gain of %. There was early strength in some of the iron and steel stocks, but they sagged away in the late dealings. The cause of the activity in railroad stocks was not clear, but there was manifest accession of confidence on the part of the bulls. Dealings were largely professional, but there was buying on a large scale in a number of stocks, ndividual transactions running up to 2,000 shares in some cases. St. Paul, Union Pacific, Chesa-peake and Ohio on talk of a dividend, Southern Pacific and Louisville were notably in demand. Business was better in bonds, but some irregu-
