The auditors' report was the first matter taken up for consideration, and it proved to be a very lengthy document. Over an hour was consumed in reading it. It was the most complete report ever made by the borough auditors. The report was received, on motion of Mr. Brown, and then referred to the finance committee, to investigate a number of items the auditors called attention to. The monthly reports of the electric light account for the past six months were then read and ordered filed. There being a large list of delinquent consumers, the same was referred to the light committee to take some action with regard to compelling settlement. The much-discussed anditors' bills then came up for their approval. They were passed as rendered except for an item of \$2.50 for a trip to Scranton. The secretary was directed to make out a duplicate order in favor of Thomas Williams, to reace one which has been lost. Mr. Van Sickle, of the light committee, reported that the flooring on the Lackswanna street bridge was in a very dangerous condition, the planks many places having rotted away. He said that the Blakely council had decided to repair their share of the same, The street committee was empowered to make the necessary improvements at once. Mr. Brown again brought up the question of the defects in a few of the sewer pipes, and that Contractor Flannighan had falled to remedy them. The condition of Delaware street was commented on by Mr. McMaines, who aid that since the railway company had removed their tracks from that thoroughfare the street has been almost impassable.
