FOREST CITY.

Forest City, Sept. 20.-Everything is quiet in

Forest City and only from the large number of idle men on the street could one guess that a complete tic-up of all the works in this vicinity

are in progress. No work has been attempted in the mines. The huge pile of pea coal at the Clifford breaker is being leaded into cars and will be shipped away. Yesterday a large number of the company's mules were taken from the

nes and sent to the country for pasture. Work

is progressing steadily on the new breaker and, as there is a large torce of men employed, this

will be a great help to the community. It is re-ported that the company will pay the men for

their September work on Saturday, but the ru-

mor is probably false, as the officials deny any knowledge of such intention.
