German Proposal That the Negotiations with China Be Deferred Until Chinese Responsible for Pekin Outrages Have Been Punished Has Not Been Approved-State Department Refuses to Make Any Other Statement as to the Nature of Answers-Government Does Not Relinquish Idea of Ultimate Punishment of the Offenders.

By Exclusive Wire from The Associated Press. Washington, Sept. 21 .- The United States government has made full and complete answers to the various important inquiries that have been addressed to it by the powers relative to the Chinese trouble. Moreover, it has gone farther and has made a disclosure of all its purposes, and, as a member of the administration puts it, has thrown it open hand upon the table. This action was taken after the cabinet meeting today. At half past three o'clock Mr. Wu called by appointment upon Acting Secretary Hill and was handed a memorandum embodying the response of the United States government to the request of Prince Ching that Mr. Conger or some other person be immediately empowered to begin negotiations with the Chinese authorities for a final settlement. Next came M. Thiebault, the French charge. A few minutes conversation sufficed to impart to him orally an answer to his

own verbal inquiry. Then Baron Sternberg, the German charge, who had been notified of the readiness of the state department to make answer to the German note, called and was given that answer. He hastened away to cable it to his own

The department then sent the answer to the Russian inquiry by messenger and wired cablegrams containing the substance of the answers to its diplomatic representatives abroad closed one of the most interesting and important phases of the Chinese entanglement. The state department absolutely refused to make any statement as to the nature of the answers, taking the ground that to do so would be a violation of the diplomatic pro-

It is known, however, that the German proposal that negotiations with China be deferred until the Chinese responsible for the Pekin outrages have been surrendered to the allies, has falled of approval by our government. The declination has been conveyed in a manner that cannot give offense, but it is believed that the United States government cannot recognize a principle that a country may be called upon to surrender its own citizens to a foreign power or powers for punishment. The government does not relinquish the idea of the ultimate punishment of the offenders, when they are properly identified, but it does not believe that the pursuit of this object should put a stop to all negotiations.

CLASH AT SHENANDOAH

It Has Had the Effect of Giving Out the Impression That It Might Be Followed by an Outbreak at Hazleton-Statement Given Out by Presi-Companies-Sheriff's Posse Fired Upon a Crowd of Rioters at Shenandoah, Killing Two and Wounding Seven Others.

By Exclusive Wire from The Associated Press Hazleton, Sept. 21.-The Lehigh region today seemed to concern itself more about the possibility of trouble than any other one thing.

Wherever one went in this district the belief was general that an outbreak will occur. There however, no outward evidence anywhere that such a thing is likely. This feeling was no doubt produced the disturbances at Shenandoah and the arrival in Hazleton and on the North Side of a large number of depu-Ties, who are said to be prepared for any emergency.

It was known that all the coal companies in the district had increased the number of watchmen around their collieries, and it was also known that a small number of deputies had been distributed through the South Side by Sheriff Brislin, of Carbon county, but nothing much was thought of this. The deputies who arrived at Freeland, twelve miles north of here, during the night from Wilkes-Barre, are said to number about two hundred. They were distributed along the pub-He road between Freeland and Jeddo. At noon a carload of them arrived in

#### been unusually quiet, although crowds of idle men were congregated on most of the street corners all day. They gave no trouble to the city police force, which numbers about eight men.

As to the strike situation itself, there was no noticeable change today. Both the operators and the strike leaders claim they have made decided gains on their respective sides. For the first ime since the strike was inaugurated President Mitchell today issued figures showing the number of men idle in each colliery in the Hazleton district These figures show that out of 17,475 mine workers in the district 13,825 have refused to go to work. Very few oper ators live in this section, but those operators and officials who could be reached in this vicinity disputed Mr. Mitchell's figures in so far as they re lated to their individual collieries.

### They Dispute Statement.

W. H. Smith, superintendent of the Markle mines, said that if Mr. Mitchell's figures for the Markle mines were true the company would be unable to operate any of its collieries. The superintendent of Cox Brothers' six col-lieries said the figures for those workings were far wrong. Drifton and Stockton collieries, which are claimed dent Mitchell About the Number of by Mr. Mitchell to be shut down, are working short-handed, he said, and the Men Employed Is Disputed by the other four mines which the strike leaders say are crippled are producing the full average amount of coal. Another official, speaking for the Pardee com-pany, said that Mr. Mitchell's claim that only 150 out of the 1,500 men are working in the Cranberry mine is ridiculous. This gentleman claims that the mine was producing three-quarters of the daily average output of coal.

# ANOTHER DAY DEVOID OF TURBULENCE

## Strike Here Appears to Be Comparatively Uneventful.

Scranton Threatened with an Invasion of Soft Coal-Mine Workers Union Gains Thousands of New Members-Conflicting Reports from Hazleton-Today's Parade.

Another day of the strike came and vent in the Lackawanna region as quietly as the four that preceded it. No change occurred in the tie-up, and nothing having the semblance of disorder was reported from any part of the county.

The news of the shooting at Shenandoah was not generally circulated and consequently caused no excitement locally. A Tribune reporter was the first to apprise the strikers' headquarters of the unfortunate occurrence. President Nichols, Secretary Dempsey was made. They received it with expressions of deep regret, and hoped

President Nichols said he didn't look the Reading con-pany to escort the workmen to their homes. Pains had been taken to especially impress upon charged to be energetic in doing what

> The meeting of the Switchmen's fusing to handle coal now being mined. was one of the most closely watched events of the day. The local officers of the United Mine Workers appealed to the switchmen to aid them in closing up the washeries by refusing to handle cars to or from these places. Some few switchmen quit rather than handle these cars, and the others were in a quandary as to what they should do. They wanted to help the strikers, but they could not grant their request without first having the permission of their national officers. The grand master and grand secretary were acordingly sent for and came on here Thursday

## Had a Conference.

They met some of the local mine vorkers' officials yesterday afternoor and also had a conference with the switchmen's officers. In the evening they had a conference with the Switch. men's union in Raub's hall, Wyoming avenue, at which all the members not on duty were present, to the number of half a hundred.

The session lasted from 7.30 till 11.20 'clock. When it had concluded and the newspaper men gathered about Grand Master Hawley, they were pleasantly but emphatically informed that nothing was to be told except that the non-union coal question had been disussed; that no definite action was taken, and that another meeting would

e held. When asked if the switchmen were advised as to how they should act in-the matter till definite action was taken, Mr. Hawley said he could not divulge anything that had transpired at the meeting, but suggested that this question would be answered by watching the switchmen today.

"I can say this to you, however, that the switchmen have enough to do to attend to their own business," Mr. Hawley remarked without preface or in any particular connection. ressed to explain what was to be inferred from this utterance he added: "Well, there are different ways of helping strikers in a case like this,"

This was as far as Mr. Hawley would go on this subject. The newspaper men were not certain of what he meant but gathered that he was endeavoring to hint to them in an extremely cautious way that the switchmen were disposed to and would help the minera but ould hesitate to do anything that ould throw them into idleness also,

"Has President Mitchell asked any of the other railroad brotherhoods to interest themselves in this strike?" Mr. Hawley asked of the reporters. The reporters confessed that they did not know. Mr. Hawley inquired very min-utely and solicitatingly of the possibilities of Archbishop Ryan being able to effect some sort of a compromise
