### BRYAN ATTACKS **NEBRASKA TRUSTS**

MAKES SPEECH DEALING WITH ARGO STARCH WORKS.

The Charges Made Against the Argo Company Are Analyzed-If People of Nebraska Defend Starch Trust They Musr Defend All Others.

By Exclusive Wire from The Associated Press. Nebraska City, Neb., Sept. 26.-Hon. W. J. Bryan spoke to a large crowd tonight. The speech had been looked forward to with much interest because Mr. Bryan had announced that he would deal with the trust question as affected by the suit instituted by Attorney General Smythe to annul the sale of the Argo Starch works, of this city, to the National Starch company, popularly known as

Mr. Bryan came down from Lincoln this afternoon. He was accompanied by Mrs, Bryan and personal friends and also by quite a number of supporters from Lincoln and other towns on the way. The party was met at the railroad station by two or three marching clubs and by a large number of admirers, who escorted them to their hotel. There were not many unfriendly interruptions, but evidently some had been expected, for previous to the meeting the mayor of the city issued an order saying that there had been rumors of trouble and warning against it. The meeting was held in the court house grounds and the people stood under the trees much of the time in the rain wille Mr. Bryan spoke. Mr. Bryan said, in part:

"A prominent Republican has ac cused the Democrats of representing the forces of lawlessness. I mention this because the Republicans of Nebraska City have met and protested against the enforcement of a statute of the state of Nebraska, and a Republican judge was chairman of the resolutions committee. While the meeting was called a non-partisan one, its purpose was purely political and it is worth while noting that the Republicans seem better able to enforce the statutes against petty offenders than they are to enforce statutes against great corporations.

"The attorney general has commenced proceedings, not to destroy a local manufacturing establishment, but to prevent the manufacturing establishment from entering into a trust. In this connection it may be well to note the different steps which have halves. been taken."

Mr. Bryan then proceeded to analyze the charges made by the Arge Manufacturing company. In May, 1899, he said it was a prosperous company and successfully competed with the national starch trust. In September of that year it joined with other starch manufacturing concerns in forming the United Starch company, with a capital of \$6,000,000, to compete against the starch trust. Continuing, Mr. Bryan

"About a year later, that is, in August or September of this year, 1900, the third step was taken and the United Starch company joined the trust. First, we have an independent company growing and prospering upon its merits; second, this independent company joins other companies to fight the starch trust, and, third, this independent company, with its associates, joins the starch trust and competition is at destroyed

"If the people of Nebraska City de fend the starch trust they must be prepared to defend all the other trusts. for it is impossible for them to destroy trusts located elsewhere and defend a the people of Nebraska City willing to subject themselves and their countrythe trusts in order to maintain one trust which has one factory in their city? As a matter of fact, the people of Nebraska City are more interested in the dissolution of the starch trust than the people of other parts of the

"The people of your town have already seen a distillery closed down by the Whiskey trust. What is to pre vent the Argo company from being When all the factories belong to one corporation the closing down of one factory does not bring loss to the corporation, because the work can be carried on somewhere else; but the Argo company, as an independent company, could not close down without serious loss, therefore the chances are greater in favor of the local factory being closed down under a trust than under independent management. The Argo company as an independent company could not afford to close down and turn off its employes, but when the Argo company becomes a member of the National Starch company its themselves, because the work here can be suspended, while the employes are starved into submission.

"If an order comes from the head office in New York to reduce the wages in all the starch factories, the men have nothing to do but submit. The same greed which leads the trust to raise prices and extort from consumers will allow it to lower wages and do injustice to the employes.

"The attorney general is seeking to enforce a statute of Nebraska. The law is a good law and ought to be enforced, and the people of Nebraska City ought to hold a mass meeting to commend him rather than condemn him. The fusion forces believe in enforcing both state laws and national laws against the trusts. The Kansaa City platform demands the annihilation of all private monopolies, and i the Democratic ticket is successful, I believe legislation will be enacted which will make it impossible for the National Starch company to buy, bully or wheedle' the Argo company into joining a trust, and with the dissolution of the starch trust will come the dissolution of all other trusts which are now plundering the people."

by Exclusive Wire from The Associated Press Shenandoah, Pa., Sept. 28.—The closing tonight of the Cambridge colliery operated by the Cambridge Coal comoany, completed the tie-up in the vicipity of this borough. This was a small operation, employing about 140 men, and was the only colliery working today between Hazleton and Ashland. D. R. James, a member of the firm, informed Provost Marshal Miller today that strikers had intimidated the men and that the company decided to suspend operations to insure the safety of the employes. Mr. James told Major Miller that strikers had entered the homes of Cambridge employes at night and threatened them with bodily harm if they continued to Brookwood washery east of Mahanoy plane, was working with a fuil force this morning, when a number of strikers visited the place and induced the men to return to their homes. # NO CHANGE IN WYOMING.

Mines Closed on the First Day of Strike Remain Idle.

By Exclusive Wire from The Associated Prest, Wilkes-Barre, Pa., Sept. 26.—The tenth day of the strike has closed without change in the Wyoming valley, All the mines that were idle the first day were idle today. And the one mine that continued in operation the first day is still at work-the one at Mocanaqua. The operators seem to be abid-ing their time, confident that in the end victory is going to be on their side. to be believed, the men are more confident of winning now than at any time since the strike was inaugurated. The local operators say the statement issued by the Markles was the only proper stand to take, considering the conditions existing between employer and employe, and that the Markles have played a winning card against Mr. Mitchell's efforts.

The operators are also of the opinion that if Markle's men return to work it will have a great influence on the other strikers. President Mitchell has replied to the communication sent to him by the officers of the United Mine Workers' assemblies of Wilkes-Barre and vicinity, protesting against granting

into certain soft coal districts to work. Mr. Mitchell says the Devlin Coal company at Toluca, Illinois, is paying wages and that there should be no objection to men going there. It is said the officers of the local assemblies do not consider the reply very satisfactory and that they are still opposed to miners here accepting positions in

soft coal mines. John Gallagher, Michael Cullen and John Brennan, the three men who were arrested at Derringer yesterday by Sheriff Harvey and deputies, were taken into court today for a habeas corpus hearing. They were discharge i on a technicality, Judge Woodward saying the commitment was a very bungling affair. Counsel for the defense scored the prosecution for railroading the men to jail by bringing them to Wilkes-Barre, a distance of | + forty-five miles, to appear before a jus- |+ tice of the peace, when the men could have had a hearing at their own homes. After the men were discharged an atempt was made to re-arrest them, but

Cullen and Brennan got away. Gallagher was taken into custody by deputy sheriff, but later allowed to depart. Sheriff Harvey telephones to-night from Hazleton that all is quiet in the district tonight, but he does not know how long it will remain that way.
