Honesdale, Sept. 28.—It would appear the Wayne County Agricultural Association are in league with the weather-maker, as they always have favorable weather for their fair. This week was no exception. The attendance was far beyond any former fair. Over 5,000 attended on Wednesday, and on Thursday the attendance was large. The races on Thursday were spirited. The second was won by Nilo, of Carbondale, in the third heat. Time, 2:22, 2:26 and 2:24 1/2, with Grasshopper, of Binghamton, second, and Belmont, of Bloomsburg, N. Y., third, in all three heats. This race was freer-or-all. The third was a Carbondale stake race and was won by Angelus, of Carbondale, in the third heat. Time, 1:27, 1:28 1/2 and 1:28. Nellie Golden stoned third in all the heats. Happy Nick, 2-4, and Gifflmont, 4-2-3, and received second money. The exhibit in general was fine, especially that of the Grangers. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but not seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of that trouble, and I wish to say further to my readers and fellow-sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. As they attempted to enter the house of Robert Dampman, opposite the store, Mr. Williams appeared on the scene. The men ran from the place, followed by Williams. He proved to be Charles Markis, aged 29 years, a Lithuanian living in West Pittston. His partner escaped. The injured man was taken to the Pittston hospital, where it was found he had been shot in the left buttock, the bullet lodging in the sacral region. A PROMINENT SOCIETY WOMAN

Writes a Letter to Dr. Hartman About Peruna.

MISS NELLE HIGHTOWER, AUGUSTA, GEORGIA.

Miss Nelle Hightower, a prominent young society woman of Augusta, Georgia, writes the following letter to Dr. Hartman regarding his remedy, Peruna:

Augusta, Ga., 937 Broad Street.

The Peruna Medicine Company, Columbus, O.:
Gentlemen—I have taken Peruna for Catarrh and find that it has greatly benefited me. In fact, Peruna deserves more credit than any catarrh medicine sold, and I fully appreciate the wonderful benefits I have derived from its use. Not only have I experienced the very best results from my catarrhal affections, but find it to be a splendid tonic and I fully recommend it as such.

With best wishes to Dr. Hartman and his splendid remedy.

Very truly,
Miss Nelle Hightower.

Miss Malinda Starks, 449 Westend avenue, New York City, writes:
"I wish to extend my most heartfelt thanks for the benefit your medicine has been to me. I also wish to state to the public at large that I have been a sufferer for over a year with stomach trouble. I could not eat but a little at a time, as it produced such bloating and fullness in my stomach.
"I had pains across my back, headache, nervous, tired feeling, and in fact was out of shape all over. I am glad to say that after taking one bottle of Peruna and one of Manalin, I feel like a new woman, and it gives

me great pleasure to inform you of the wonderful benefit I have derived from the use of Peruna.
"I shall never cease to praise your Peruna. It is the best medicine I have ever taken, and it did all that you claim it will do."
A newspaper contributor was lately admitted into the extensive suite of offices which constitute the headquarters of Dr. Hartman, who treats catarrh patients by the thousand. Among the busy swarm of assistant doctors, clerks, stenographers and bookkeepers, Dr. Hartman stopped long enough to say a few words.
"A large number of catarrh patients visit me every year, but the number who are entered on my books as regular patients, and are treated by correspondence is very much larger. Hundreds of letters are received and answered free every day. A yet greater multitude take my catarrh remedy, Peruna, and are cured, of whom I never hear. Some of this latter class write me years after their cure.
"I never allow a name published except by the written consent of the patient. We make no charges at any time. The medicine only is obtained by each patient at his own drug store. Those desiring to become regular patients have only to send address, duration of disease and treatment previously received, and directions for the first month's treatment will be sent at once."
Mr. D. Pickard, a prominent citizen of Omaha, Nebraska, writes the following in regard to Peruna in cases of catarrh of long standing.
"After years of suffering I tried all known remedies—at last tried yours, which resulted in restoring me to perfect health. I heartily endorse Peruna."
Over half the people have catarrh in some form or another. And yet, probably not a tenth the number know that their disease is catarrh. To distinguish catarrh of various organs, it has been named very differently. One person has dyspepsia, another bronchitis, another "Bright's Disease," another liver complaint, another consumption, another female complaint. These people would be very much surprised to hear that they are all suffering with chronic catarrh. But it is so, nevertheless.
Each one of these troubles, and a great many more, are simply catarrh—that is, chronic inflammation of the mucous lining of whichever organ is affected. Any internal disease which will cure catarrh in one location will cure it in any other location. This is why Peruna has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Peruna does not palliate—it cures.
