BODY IDENTIFIED.

Woman Who Committed Suicide at Grand Hotel Was Matilda Neason.

By Exclusive Wire from The Associated Press. New York, Oct. 7.-The body of a young woman who committed suicide Saturday night in the Grand Hotel, in this city, lay on the marble slab at the city morgue today. No one called at the place to identify her, nor did the police expect any one. The letters and papers found in her clothing, with three letters left by her on the hotel stationery before she drank the acid, appear to prove without doubt that she is Matilda Neason, the young Swedish girl who attained notoriety in 1896 by suing the estate of Austin Corbin for \$50,000 on the basis of alleged verbal promises made to her by Mr. Corbin. The defense, alleging blackmail, won a verdict.

A number of pawn tickets and bills for dress-making and millinery were found and from these indication coroner is satisfied that she is Matilda | The Adams Express Messenger Re-

ASPECT OF THE BOURSE.

All Lines of Securities Show Improvement.

By Exclusive Wire from The Associated Press. Berlin, Oct. 7 .- The Bourse this week presented a completely changed aspect

from that of previous months. All lines of securities showed improvement until PATIENCE OF Friday, when the rise was checked. This was followed by rather heavy falls yesterday, but the week's trading

shows a moderate rise.

Coal and iron shares rose steadily Friday, notwithstanding the gloomier reports from the iron centres. The weakness of the iron is apparently growing, some reductions in wages and discharges of operatives having been reported during the week. Manufac-turers of structural iron in Germany are trying to find relief for the dullness of the home market by under-bidding Belgian manufacturers. The German hardware trade is particularly dull. A prominent west German screw dealer, of Montrose, was in town on manufacturer has increased rebates to

Tuan Tsai Lien, San Kang, Ying, Nien, president of the court and Chao Su Siao, president of the board of punishment, are all deprived of their titles, removed from office and turned ver to various trial boards for fair penalties. PROGRESS IN CUBA.

Reconstruction of the Cane and Sugar Districts - Dady's Contract.

Special to the Scranton Tribune.

Both the sugar and the tobacco industries are settling down to a large and permanent production, and the earnings are now estimated at over \$6,000,000. New sugar machinery is at present in the course of erection in

various parts of the island. During the last three days, 1,860 immigrants from the Canary Islands and Barcelona have arrived here and have left for the country districts, where employment is readily obtained. This continued influx partially solves the labor question, many of the plantations having been idle owing to lack of labor to cultivate them. Cuban labor is dila tory, and does not want work by reason of long inactivity in peaceful occupations. Senor Perfecto Lacoste, the minister of agriculture, extends every inducement to desirable immigrants and high authorities say that carefully governed, desirable immigration will be

the salvation of Cuba. Michael Dady's contracts for sewe ing and paving this city were discussed in the Ayuntamiento last night. Alderman Alfredo Zayas,in a long speech, advocated the acceptance of the revised joint plans, pointing to the necessity of sewering Havana immediately. was opposed by Alderman Gonzales Sarrainz, who said he was willing to accept Mr. Dady's original plans, but not the revised plans insisting that the American military engineers were not competent to pronounce opinions on

the sewerage question. Alderman Pablo Mendleta moved that the Dady contract, as it stood, with the additions of the military engineers, be indorsed by a vote of approval by the Ayuntamiento.

Alderman Sarrainz objected to the removal of the right of subasta (the judicial sale of goods by public auction), claiming that the project in its entirety should be submitted to contractors all the world over for com-The vote of the Ayuntamiento on the

vention will be in session depends on the amount of business that may be presented. Hopes That Miners Will Accept.

The belief is general that the miners will accept the increase. Most of the mine owners who have granted the wage concession do not specify in their notices how long the advance shall remain in force and it is not unlikely that an attempt will be made by the miners in convention to open nego-tiations with the operators, looking toward an understanding in the matter. President Mitchell and the other labor leaders are strong advocates of an annual wage scale arrangement, similar to that in force in the bituminous coal field. The operators in those regions meet their employes each year and fix the wage scale. If this proposition and that relating to the abolition of the sliding scale are brought before the convention and negotiations with the mine owners are opened, it might considerably delay the settlement of the strike.

TROOPS ARE DEPARTING

Battery C Will Break Camp Today. Other Regiments Are to Follow Soon-Edward Coyle's Funeral.

By Exclusive Wire from The Associated Press. Shenandoah, Pa., Oct. 7 .- General Gobin announced tonight that if the weather conditions are favorable tomorrow Battery C will break camp and leave for home. The situation in this district, the general says, is not such as to require the presence of the troops and he intends to order all the soldiers away as soon as possible. Edward J. Coyle, the second victim of the riot of Sept. 21, who died Friday, will be buried tomorrow. All the local unions, it is said, will attend the funeral. Organizer Harris said today that he will go to Panther Creek valley tomorrow for the purpose of assisting in the organization of the mine workers there.

SETTLEMENT SEEMS ASSURED.

It Is Believed That All Miners Will Be in Favor of Accepting Increase. By Exclusive Wire from The Associated Press.

Wilkes-Barre, Oct. 7 .- The coming convention of miners to agree upon was the principal topic of conversation among the strikers today. The delefrom the Wyoming Valley will be guided a great deal by what President Mitchell says. If he advises a settlement upon the 10 per cent. increase basis the representatives to the convention from this district will probably be unanimous for it.

The coal operators of this section who have been interviewed on the subject think that President Mitchell will not stand in the way of a settlement. Sheriff Harvey left town for Hazle ton this morning. The sheriff is more anxious than the operators or men for a settlement. When leaving town he said:

"Now here I am off again. This is the third week of the siege. I have not had a quiet hour to myself since the trouble started. Fortunately, so far there has been no serious trouble, but a big strike like this brings one clos to a powder magazine. You don't know what time there is going to be an explosion. I hope for the best, but I am prepared for the worse."

Men Are Confident That the Strike Will Soon Be Settled.

Carmel last night that he would.

However, the local strikers say that unless they are ordered back, they will not report for work, no matter what inducements the operators and coal carrying companies offer. An attempt will be made tomorrow to start up several collieries in this section, but strike leaders say the men will not respond.

FLIGHT OF PRINCE INEANTHOR Accusations Against French Administration in Cambodia.

By Exclusive Wire from The Associated Pres. Paris, Oct. 7.-The flight of the Cambodian Prince Inkathor to Brussels is furnishing the Parisians with much interesting reading and is giving the foreigners a glimpse of French colonial officialdom. A leading paper somewhat indiscreetly publishes a letter containing the grievances which Inkathor presented to the French gov-ernment in behalf of his father. This appeal for justice is eloquently worded and is almost pathetic, although the defenders of the governor general of Cambodia, Doumer, assert that Inkanthor and his father, King Norodom, are strikingly faithful to the Oriental traditions of mendacity. The docu-ment charges Doumer and his surrounding with robbing and browbeating the king. He particularly com-plains that Doumer suppressed his ight to farm out the Cambodian gamng saloons, because the concessionaire declined to pay the governor general an annual blackmail of \$25,000. The king, it appears, was thereby deprived of a revenue of \$140,000 and 400 taels

n gold. Much the same accusations are brought against Doumer's predecessors, and the Prince Inkanthor says he found among the leading personages in the colonial world of Paris a man who became rich on selling King Norodom brass for gold and sorry Australian hacks for French thoroughbreds. An inspired reply to the document, just published, admits that the French administration is not above reproach, but declares the documents are not worthy of credence, as Inkanthor is an mpostor, representing himself to be the heir to the throne, when the French government alone decides this matter and has designated the king's brother as his successor. It is further asserted that in the gambling question King Norodom violated the convention by authorizing traveling gaming hells in order to exact a larger income. Moreover, the king is accused of conspiring to overthrow French domination by fo-

menting an insurrection. It is now reported that the French government has asked that Inkanthor be expelled from Belgium, and the terms of a settlement of the strike Parislans are waiting to see what is going to happen to King Norodom, who is sixty-seven years old. He is not likely to be disturbed, as today he telegraphed to the government expressing regret at his son's action, and saying his son was not authorized to make a claim against France. At the same time the king telegraphed to Inkanthor, at Brussels, ordering him to return home immediately and threatening him with serious punishment in case of disobedience.

ere so deeply engaged in their play that none of them seems to exactly know what occurred, but it appears that one of them, George Meyers, 10 years old, threw some gasoline on the fire from a bottle and that part of the liquid reached McBride's clothing. Clifford Moser, one of the oldest boys in the company, with the aid of Leroy and John Sutts, rolled McBride on the ground, extinguishing the flames. He was taken home by Mrs. Moser, Mrs. Corwell and Mrs. Cottrell, three women living near the place where the accident occurred.

"Arrest George Meyers; he did it," were the first words McBride said to his mother, according to her statement to Coroner Bowers, who investigated the case. McBride, before he died, told his mother that Meyers had deliberately thrown the liquid on his clothing and then set fire to it. Meyers denies this, and says that he picked the bottle up from an ash heap and was ignorant of its contents. He declares that he simply threw the open bottle across the fire, the liquid from which suddenly flared up and set fire to McBride's clothing. A careful inves-tigation seems to confirm Meyers' statement that the affair was accidental.
