\*\*\*\*\*\*\*\* WHY MCKINLEY SHOULD BE RE-ELECTED.

G. W. Jenkins, one of the most prominent residents of West Scranton, where he has been for years engaged in business, gave the following reasons yesterday why President McKinley should be re-

"Because his election is necessary for the welfare of the nation. He stands for sound money. If Mr. Bryan was elected all banks having loans to merchants, house owners, builders and others, would want their money and want it in gold. Why? Because the debt was + contracted on those terms. Mr. Bryan's election would mean a settle- + ment on a silver basis, and as silver is worth less than half the value of gold, they would lose at least 50 per cent. The banks are bound to protect their depositors and everybody would be pushed. This would apply to the mechanic as well as the merchant; it would apply to everybody who does a credit business.

"This is the present condition of affairs, and why President McKinley should be elected. His election means prosperity, while the election of Bryan means free silver, bankruptcy and ruin.

"The cry of imperialism is used to cover up the true issue, free silver. If President McKinley is an imperialist, so was Washington, Jefferson and Jackson, for they all trod the same path that President McKinley is now following. Better let well enough alone."

Of course, this is foreign to the public, as the milliners of this town only make a stay of three days in the city. We feel that the people of Scranton cannot fail to appreciate her efforts, both in millinery and dressmaking. All students of fashion will be welcomed, and any help which we can give the milliners or dressmakers of this town will be gladly given. \*\*

His knickerbockers had seen much service and he wore green golf stockings and low shoes. His playing is devoid of mannerisms and he plays a swift, rather than a deliberate game. With his manager, C. Europe. He has won 200 matches in the past year and makes a fine income from his exhibition games alone. This may be surmised from the fact that the Country club paid him \$250 for yesterday's exhibition. He spoke in most omplimentary terms of the Country elub links.

Verily the weather man smilled on the anxious Country clubite yesterday, for a more perfect day could not have been devised for the great exhibition match.
