

WEST SCRANTON

WEST PARK AND LINCOLN HEIGHTS

MANY NEW HOMES RECENTLY BUILT IN THESE SECTIONS.

With the Opening of Spring Additional Buildings Will Be Erected on the Recently Graded Tracts. Parties on Lincoln Avenue and Rock Street—Campaign Formally Opened—Deaths and Funerals. Other Shorter News Notes and Personal Paragraphs.

The possibilities of a Greater West Scranton are gradually dawning upon the residents hereabouts, and in another year, when the miners' strike will have been settled and business confidence is restored, a building boom may be expected which will surpass anything heretofore experienced along that line. Already expansion is noticeable in the outlying districts that is surprising, and a visitor to West Park and Lincoln Heights will be more than surprised at the development during the past year.

The tract of land fronting on North Main avenue has been divided into avenues, streets and building lots, and several handsome dwellings just completed have been tenanted. Between the Gram and Schlager boulevards on Main avenue, the Davis, Smith and Pettit properties attract much attention and are considered to be three of the most substantial houses in West Scranton.

Ex-Patrolman James Saul has taken possession of his new home on Hyde Park avenue, between the boulevards, and another pretty dwelling at the corner of Pettibone street and Hyde Park avenue is ready for occupancy.

Select Councilman Simon Thomas' new double house facing on Pettibone street has just been completed, and the family of M. R. Stone took possession of their new home on Bromley avenue last week.

Four more new houses, one on Bromley and three on Sumner avenue, are in course of erection, and a double house recently completed on Sumner avenue is occupied by the families of Amos Remaly and W. R. Hughes. The family of Thomas Rice are also occupying their cozy cottage at the corner of Schlager boulevard and Bromley avenue.

The building of additional houses on the plot has been delayed this year owing to the exorbitant price of lumber, but it is expected that building material will be much cheaper next year.

spring. Several new houses are also in course of erection in Tripp park. Hyde Park, Bromley, Sumner, Lincoln and Rebecca avenues have been extended through the plot, the streets are graded and sidewalks have been laid, and together it is one of the most desirable residence locations in the city. The Cathedral cemetery is now reached from any of the above named avenues, and the North Main avenue and Lafayette street cars are easy of access from the plot.

The improvements southward are also being rapidly made. The Round woods tract has also been traversed by streets, avenues, boulevards, and several new houses are being built. The streets have been graded, sidewalks are laid, trees planted and other necessary improvements made, and next spring will witness a building boom in that section.

In Lincoln Heights annex a number of new dwellings have just been completed and occupied, and on the westerly side of Main avenue, new houses are continually going up, and being tenanted as soon as ready. The land company is now at work putting the finishing touches on the new cemetery plot recently laid out, and a number of burial lots have been disposed of. The unoccupied land between Washburn, Division and Fourteenth streets and the cemetery is also being graded through the plot. Risland and Jones have set apart several acres in their plot for a burying ground and named it the Cambrian cemetery, and a number of interments have already been made there.

A number of new buildings in town are nearly completed, notably Cooper's block on Scranton street and another block on Broadway, south of Jackson street. The roof of the new Baptist church on South Main avenue is nearly finished and the stone work is about completed.

It's the Light and Medium-weight Topcoat

We wish to call your attention to just at this time. Our selection of cloths, our particular attention to the tailoring and style give us the advantage over all others. We have no serious rivalry; no rivalry at all, except some of the best "Custom Tailors." In Ready-to-Wear Top Coats we show the largest range of cloth effects in this city. They reflect in styles the "very latest fashion plate" for this season; short, medium and long lengths. Light and medium shades of the new "Rosemond" and "Auburn" Covert and Whipcord, with various differences of "Full Box Back." Some are very full with that stylish "hang" from the shoulder; others are medium—"both are stylish." The best value for your money, beyond any question, whatsoever. Our display windows will give some idea of what we try to explain here: Prices from **\$10 to \$25**

A Ready To Wear Suit

May appear to you the same kind of a suit as a "Ready-Made." But there is a difference—a vast difference. The system applied to our Ready-to-Wear Clothes is exactly the same as the custom Tailor uses—only on a larger scale, every suit being cut separate. If you wish to save part of your tailor's bill and see what we can do for you in suits from **\$10.00 to \$25.00.**
