FOREST CITY.

Epecial to the Scranton Tribune. Forest City, Oct. 18 .- Yesterday was a big day in labor circles in Forest City and Vandling. A big parade, with nearly two thousand men in line, marched from Forest City to Vandling and back again in the early afternoon. The Forest City and Vandling bands and Star Drum corps were in line. Organizer Fred Dilcher, District Secretary John Dempsey, Committeeman Henry Collins and the Forest City town officials rode in carriages. At the parade disbanded and the crowd went to the Davis opera house, filling it to overflowing. Speeches were

made by Messrs. Collins, Dempsey and Mr. Collins urged the men not to go and care for them until they could be disposed of to the best advantage of to work until orders came from the union, and said that "every man will get his old place back or the entire organization will again be called out, if necessary." Mr. Dempsey reviewed the strike at length, and urged upon his hearers to allow no efforts to remain undone that will strengthen the union. This is not the end of the question between labor and capital, he said, and the miners' only salvation is in remaining united. Otherwise, all that they have accomplished will soon be undone, and any hope of future advantage will be vain. Mr. Dilcher, whose voice was very hoarse from constant use, spoke but briefly. He congratulated the men on the bright outlook for an early settlement, but he said nothing official had yet materialized, and urged the men to stand firm until ordered to go back by the union. All three men mentioned the fact that the agreement will expire on April 1, when the agreement in the soft coal region comes to an end, and said that all possible means should be used to solidify the union before that time, so that they will be in a position to enforce further concessions if necessary

She was a zenious worker in the church, where her services will be greatly missed. She leaves one son, G. C. Finn, of Kingsley; a daughter, Alta, and her husband, N. M. Finn, besides the sister, Mrs. Corey. While these and many more must deeply mourn her loss, it is a confort to feel that it is of such as she that the Master will surely say, Well done, thou good and faithful servant, enter thou into the rest

Held a Pistol to a Young Man's Head, and Got His Watch.

Exclusive Wire from The Associated Press. Louisville, Ky., Oct. 18.-A handsome black-haired girl hailed W. S. Burch last night as he was returning to his home in East Walnut street. Being of a gallant nature, Burch asked if he might not protect her on the way home. She readily consented. Under an overhanging awning Burch put his arm around her. She nestled up to him and then he felt cold steel pressed gainst his head.

"I'll take your watch, if you please," she whispered. The girl was holding a pistol against his head. Burch handed over the watch.

The presence of so many Susquehanna county school ma'ams, whose perttiness is proverblal, makes the social side of life a very lively and attractive one in Montrose this week, and many a love-sick swain will mourn when on Friday the institute closes and the fair object of his adoration will return to the noble, though somewhat prosate, work of the

school room, carrying with her, doubt less, a measure of regret aningled with many pleasant memories. Yesterday morning's session opened with devotional exercises, conducted by Dr. Ferris.

Professor Larrabee gave his closing address, outside of sectional work, taking as his subject, "The Golden Mean." He warned the teachers of the danger of becoming fanatics and enthusiasts along special lines of work and told them how to avoid it: While being enthusiastic, be, also, conservacent. 115

He was fol-lowed by Dr. Davis, who described the functions of plant and animal life, and irged that teachers take pains to bring out the perfection of nature before their students. In the second section, Prof. Larrabee gave an entertaining and instructive talk on "Odds and Ends," and Dr. Ferris gave another of his inspiring talks on mathematics. In the third section, Doctors Davis and Yoder divided time between "Relation of Plants and Animals" and "Child
