Sir: I beg space in your valuable paper to try to answer an article which appeared in the Chicago Record and which was written by William E. Curtis. This gentleman may be an able newspaper man, but it seems to me that, as far as this article is concerned, either he don't understand mining or he has been misguided by some-body, or else he has wilfully lied to the public for the sake of injuring the cause of the miners ou strike for better wages and better conditions. I would say that the month of August, 1900, the one selected by Mr. Curtis, is, I believe, the best month that we have seen in the anthracite coal fields for many years, and should not be taken as an example of what the mine workers' wages are the year around. But the month in question does not give the miners what Mr.

I have here before me a large number of due bills belonging to those men whose names ap-peared in the article complained of, and I was just wondering whether or not Mr. Curtis had seen the pay-roll of this company where some of these men whose names he mentions have not received one cent of these wages for months, If not, I will call his attention to them. Now, Martin Lawless, for the months of April, June, Jely, August and September, did not draw one cent of pay; it was all taken in the pluck-me store. The next that I will call your attention to is that of William Gouse, who in the month of June, 1900, himself and laborer, worked four days and received \$1.75 for the whole, or \$715 cents each for four days work. In December, 1800, his earnings and expenses were the same. so that he did not receive any pay. Again, William Suckless worked twenty-four days in March, 1900, of about twelve to fourteen hours per day, and received \$21.70 in payment for it. I could multiply these cases, but I will stop and follow Mr. Curtis down his list, for I don't suppose that he has seen any of those that I have just mentioned; for he wasn't looking for them, that's not his business.

Indifference

A deep pit, in which thousands of diggers are foolishly expecting

to find success. Seems impossible to believe that any man could so come to understand this busy life. But the happy-go-lucky sort of folks appear to think that, some time and in some inexplicable manner, they should be able to run across some degree of success. So, they indifand indefinitely peck

away at life's troubles. Far better 'twould be, were they to squarely face the issues; and nothing would HELP better than a sayings fund, reinforced weekly till really needed. That's the sentiment of thousands of savers— strong fighters of indifference, Better get in line!

WAS THERE PROBABLE CAUSE FOR CONTEST?

City Solicitor Vosburg Will File City's Answer to Request That It Pay Costs of the Contest.

City Solicitor Vosburg will today file his answer to the rule granted by court on himself and Mayor Moir, directing them to show cause why probable cause should not be declared to have existed to justify the bringing of the Eighth ward election contest and why the cost of such contest should not be paid by the city.

This rule was petitioned for and obtained by E. W. Thayer and M. J. Mc-Andrew, examiner and stenographer, respectively, because court, in handing down the opinion deciding the contest in favor of the respondent, William H. Thomas, failed to dispose of the matter of costs. Mr. Vosburg does not believe that

the city should be saddled with this

big bill of costs, which will amount to

nearly \$1,500, and in his answer he af-

firms that there was no probable cause existing which would justify the bringing of this contest as, he contends, was amply shown by the testimony taken. He states that it can be proved by the examiner's report that the contest. ant had a greater majority against him at the end of the contest than was shown on the face of the returns orig-

CANDIDATES GIVEN AN EN-THUSIASTIC GREETING.

Received by a Big Assemblage of Citizens and Escorted to the Opera House with Music and Fireworks. Not a Third of the Crowd Who Wanted to Hear Congressman Brumm and A. J. Colborn, Jr., Could Be Accommodated in the Theater.

Carbondale fairly outdid itself last light in its enthusiastic greeting to the Republican county candidates and the speakers who accompanied them to plead the cause of Republicanism The party arrived from the county seat at 7 o'clock. They were met by the Mozart band and the City Republican club. Carriages were furnished for the visitors and reception committee, while nearly a thousand formed in line and paraded the principal streets.

It was certainly a Republican night. Even the air seemed to be laden with invigorating Republicanism. It put life into the spectators all along the They cheered and hurrahed, turned on the lime light and sent up the red fire in a manner that left no doubt as to how they will vote on the

6th of November. When the procession reached the Grand Opera House there were three times as many in the throng as could gain entrance and the seats and standing room were occupied in next to no time. Occasionally a Democrat who found the arraignment of his political idols too hot, would leave the audience and make room for an eager man on the outside, hungry for the truth about the great problems which had been perplexing his mind.

KIMBALL CHAIRMAN.

G. S. Kimball acted as chairman. and after the T. J. Reynolds Glee club had rendered a couple of selections, he introduced, in his usual happy style, Congressman Brumm, of Pottsville.

The honorable gentleman waded right into his subject and illuminated it with all the fire of his ardent nature. He did not mince matters. He contradicted Bryan's extravagant and impossible promises about a stable government for the Philippines-which he proposes to establish in a minutewith McKinley's calm and deliberate execution of affairs—with McKinley's promise to establish a stable government as soon as he can.

The congressman declared he is an imperialist— an imperialist to the backbone, but the kind of imperialism he believes in is the imperialism of the American home, where every mother is an empress and every father

an emperor. The speaker then elaborated upon the immense moral influence of this republic. Like the aurora borealis from the north it shone down on the Brazilians of the south and they thirsted for a republic until they forced the last monarch from Ameri-

ABOUT THE TRUSTS.

In dealing with the trusts Mr. Brumm said that the people had seen fit to trust the Democrats with four years of government, but he didn't ing he cited the fact that Democrats throughout the state have never shown any generosity in allowing Republican representation on the bench when they could prevent it. "What is sauce for the goose is sauce for the gander,"he said and we should discard all maudlin sentimentality and elect a Republican judge in this county,"

in which opinion the audience concurred, as it showed by its applause. A. J. Colborn, Jr., was next introduced by Chairman Kimball and for forty-five minutes he had the big audience bursting into applause at his every period. It was one of Mr. Colborn's most eloquent efforts on the stump in this county and those who had the pleasure of hearing it little wondered that his services are in such demand by the national committee.
