JERMYN AND MAYFIELD.

Enthusiastic Republican Rally Last Evening—Speech of Major Hancock—Other News of Interest.

A large and enthusiastic gathering of Republicans greeted the county candidates and speakers at the Republican mass meeting in Enterprise hall last evening. Before the meeting opened the Citizens' band played some patriotic selections, which were much enjoyed. Upon the platform were seated Major Hancock, of Baltimore; Attorneys George M. Watson, John M. Harris, H. D. Carey, John H. Fellows, John Copeland, Thomas P. Daniels, W. K. Beck, P. A. Philbin and W. S. Badger. The chair was occupied by Attorney Carey, who introduced Major Hancock, who delivered the principal address of the evening.

Major Hancock reminded his hearers of their interest in the government and of the common sense sentiment which was a strong characteristic of the American people. It was this every day common sense that made our country what it is. He considered the duties of citizenship to be great and precious for any one, unless an uneducated demagogue, to try and deceive the people. He congratulated the men that they had won the strike and would return to work; they were entitled to their share of that prosperity that prevailed throughout the land.

He said that if Bryan was elected a money panic would follow such as was never known before. He traced the want and misery following the election of '92, when the people voluntarily relinquished the era of prosperity and recounted many pitiful incidents of want and poverty that had come under his personal observation.

Coming to the election of President McKinley, he said you gave us back your confidence and we returned to you that prosperity you had before. In fifty years every era of prosperity has been given by the Republican party. He gave numberless proofs of the wonderful industrial growth under the present administration, and in his plain and simple language convinced the majority of his hearers that their duty in the coming election was to uphold the great party who had made the country in many respects the leading country of the world today.

Morrison's "Faust."

Seventeen years before the public, presented over ten thousand times, witnessed by millions of people and still one of the strongest and most popular evening attractions in the world. That is Lewis Morrison's production of "Faust." Everything in connection with the attraction has always been kept up to such a high standard that its quality is unexcelled.

This season special attention has been paid to the handling up of all its details, with numerous innovations in the scenic, electrical and other effects, all of which combine to bring about a practically new and complete production, and when it comes to this city next Monday night its presentation, as usual, will bear out all promises made by its management.

Bennett & Moulton Company.

It has been the aim of Bennett & Moulton to have the best repertoire company on the road, and it is said they have succeeded to an extent that is only being equaled by other companies who have not watched their flight from the rear to the front rank in the profession. Bennett & Moulton's success is due to the careful manner in which they select their production, and keeping every promise they make to the public. The company this season is made up of exceptionally clever people, headed by their charming, sympathetic and capable actress, Miss Clara Turner.

She acts with splendid intensity and it is her boast that she never appears on the stage improperly groomed. Her repertoire is a collection of the most beautiful plays that money can buy, and the resources of such artists as Warth and Redfern have been taxed on more than one occasion to produce costumes for her productions. For their productions this season Bennett & Moulton have purchased entirely new scenery, properties, electrical effects, etc.

This company will be seen at the Academy all next week with daily matinees except Monday, Tuesday, 29 and 30. The great beauty Melba will appear at every performance. Ladies' bargain performance Tuesday night.
