## **BRYAN AGAIN** AT LINCOLN

The Gandidate Will Devote the Last Day of the Gampaign to a Trip Through the State.

Mr. Bryan Says That the Fight Has Been Won-An Answer to Mr. Flint-New York and Illinois the Battle Grounds of the Campaign.

By Exclusive Wire from The Associated Press

Lincoln, Neb., Nov. 4.-Colonel W. J. Bryan and Mrs. Bryan arrived at their home in this city at 6 o'clock this evening, coming direct from Chicago. They were driven to their residence on D street, where Mr. Bryan will remain until tomorrow morning, when he will start upon a flying trip through Nebraska, devoting the last day of the campaign to his own state. When Mr. and Mrs. Bryan arrived at Lincoln they found a large number of their friends at the depot, and some

of the more zealous of them sent loud cheers upon the appearance of the Democratic candidate on the train platform. Many of them escorted him to his residence and still others were there awaiting his arrival There were suggestions of a speech but Mr. Bryan declined to yield to the request, saying that Sunday was one day which he reserved for rest and that he hoped to be able to address them some time tomorrow.

The trip from Chicago was comparatively quiet. Mr. Bryan had withheld from the press the announcement of the road over which he would travel until the last moment, because he desired no demonstrations along the line on Sunday.

Mr. Bryan was met at Omaha by number of his personal friends. During the day Mr. Bryan was asked for a statement as to the probable cutcome of the election. In reply he

"The fight has been made and won. Money and coercion robbed us of a victory in 1896 but I believe they will be powerless to change the result this time. The people are in earnest and very few can be bought. Our organization is much better than it was in 1896 and therefore there is less danger of fraud. So far attempts at intimidation have been rare this year where they were very common in 1896, and even where intimidation has been attempted it has angered the employes

#### coerced them. Attention to Flint. Mr. Bryan's attention was called to the address of Charles R. Flint and

others who claim to be Democrats but who urge Democrats to vote the Republican ticket. Mr. Bryan said that he was very glad to find that Mr. Flint was supporting McKiniey and added: "Mr. Flint is the leading member of the rubber goods manufacturing company and is also connected with the starch trust. He has been the most conspicuous defender of the trust principles in the United States, havng made a speech at Boston in May. 1899, and another at Chicago recently on that subject. I am glad to have all trust magnates support the Republican ticket for if I am elected they will not be visiting the white house and asking favors in return for campaign support. Our appeal is to the people who suffer from the trusts. not to the monopolists who profit by them. Next to imperialism and militarism the trust question has done more than any other to convince the plain reople that the Republican party is entirely given over to the control of the organized wealth. Imperialism exploits abroad while private mono-

tem of specilation at home and abroad." When Mr. Bryan reached Lincoln tonight he had been absent from his home for about five and a half weeks, having left this city on the 27th of last September. Since the campaign began he has traveled 16,000 miles and deliv-

poly plunders at home and the large

party is intended to support the sys-

army advocated by the Republican

The greater part of the tour just completed was made on the special car "Rambler," which, for the most part, was attached to special trains. Dur-ing the tour speeches have been made succession in Nebraska, South Dakota, North Dakota, Minnesota, Wis-consin, Indiana, Illinois, Michigan, Ohio, New York, West Virginia, Maryland, Delaware and New Jersey. Incidental visits were also made to the states of Kentucky, Pennsylvania and Connecticut. One set speech was de-livered at Louisville and another at New Haven. Brief talks were made in two or three other Connecticut towns, as were also in Philadelphia and Alex-

## The Battle Grounds.

In point of time, New York and Illinois have received more attention from the national candidate than any other two states. All told, eight or nine days were given to New York and about seven days to Illinois, and in addition to speeches throughout the two states, the city of New York and Brooklyn in the one and of Chicago in the other were quite thoroughly canvassed. Indiana and Ohio have also been the scenes of great activity on his part. He made two campaigning visits to both of the last named states, in addition to incidental speeches on special occa-

The campaign has been confined almost exclusively to the country east of Lincoln and north of Mason and Dixon's line. There have been several speeches in Kansas and Nebraska, but up to this date only the eastern part of these two states have received at tention. Connecticut is the only New England state which has been visited and only upon the occasion of a visit to Louisville did Mr. Bryan go south of the Ohio river. Of the territory covered, Iowa is the only state in which no speeches have been made Mr. Bryan has gone all around that state and has crossed it six or seven times during the campaign, but he has not done more in the way of cam-paigning than to shake hands with the people congregated at the railroad stations. Pennsylvania also received comparatively little attention, but Mr. Bryan stopped long enough in passing from Delaware to New Jersey to make one brief talk in Philadelphia.

Mr. Bryan's health has improved from the beginning of his tour and he SANGUINE AS TO RESULTS of resorting to a physician, or advice, or assistance. For the most part the weather has been excellent and no engagement to speak has been broken Mrs. Bryan joined her husband in New York a week ago and has traveled with him since.

## **SOUND MONEY PARADE** IN NEW YORK

Thousands of Enthusiastic Men March in the Rain and Mud. -81,000 Men in Line.

By Exclusive Wire from The Associated Press, New York, Nov. 4 .- The great parade of Sound Money men took place yesterday between 10 a. m. and 6 p. m. Thousands of enthusiastic men marched up Broadway and Fifth avenue, carrying flags and banners, and the pageant was all the more impressive because of so great an outpouring on such an inclement day,

The Associated Press placed the number of men in line by actual count at \$7,615, and the column took nearly seven hours to pass a given point, Some other estimates, however, put the number at above 100,000.

Mr. Croker's insulting Bryan legends strung across the route of the parade were not molested by the paraders, and the boss's scheme to fret the marchers to acts of what he might proclaim as "Republican rowdyism" was completely circumvented. Governor Roosevelt, Lieutenant Gov-

ernor Woodruff, B. B. Odell, jr., and others reviewed the parade, which was led by General Anson G. McCook, as

## LEDGER COAL ARTICLES.

Anthracite Looking Forward to a Brisk Trade.

By Exclusive Wire from The Associated Press. Philadelphia, Nov. 4.-The Ledger in ts coal article tomorrow will say: The anthracite trade is looking forward to a brisk season, but work at the mines has not yet got fully under way. A great deal of preliminary preparation has been necessary and various minor disputes have to be adjusted, while church holidays last week interfered with mining and the election excitement this week will prolong the idleness at various places Afterwards, however, full working is expected, but coal companies and individual operators probably by next week will be in a position to turn out an ample supply of coal. The mild weather has retarded consumption and this has been of advantage in limiting the urgent demand where supplies are short. There are, however, large numbers of orders for coal to be filled, and it is expected that the 50 cents per ton advance in prices will be main-

tained. Vote for J. A. Scranton for county

## CONDITIONS OF ALASKA

General Randall, Upon His Arrival, Found That Affairs of Nome Had Reached the Gritical Stage.

### REIGN OF LAWLESSNESS

Labor Organizations Which Prevent Men from Working for Less Than \$1.00 an Hour Are Responsible for Much Destitution - Claim Jumping the Order of the Day. Relief Must Be Provided for the Indians-The Presence of Venturesome White Men Is Discouraged.

By Exclusive Wire from The Associated Press. Washington, Nov. 4 .- Brigadier General George M. Randall, commanding the department of Alaska, under date of Sept. 20, at St. Michael, has submitted his annual report. A great deal of the report is devoted to conditions at Nome, which he found upor his arrival at a critcal stage. It was difficult to obtain convictions by jury trial in the United States commission er's court, which emboldened the law less. Labor organizations prevented men from working for less than \$1.00 an hour, and were the cause of much destitution and want and destruction

Fully 18,000 people arrived at Nome in June. Claim jumping was the order of the day. Nearly every one seemed to think he had a divine right to take possession of a claim or town lot wherever found. Many property owners were disposed to defend their rights by taking the law into their own hands. The arrival of troops the rear, killing two Americans and prevented bloodshed and serious disorder. On the request of the chamber of commerce, the military took charge, thoroughly examined into all complaints and where the sites of property could be determined, placed it in the possession of the lawful owner. Captain W. A. Bethel, who acted as judge advocate in these cases, is highly

praised by General Randall. The sanitary conditions were placed under the charge of Major Charles E. Ebert, surgeon, who has heretofore reported upon conditions. The energetic efforts of the military improved these conditions during the summer.

There were about 500 men working on the beach at Nome with machinery at one time, and many declined to give gold, while others admitted they were taking out only from \$4 to \$6 a day. The beach was practically worked out last year. The Tundra is believed to be rich, but it would require large capital to produce results. There is a large area of country which has not been prospected, where gold can yet be found, but it requires men of experience to develop such a country. General Randall discusses the various points where mining operators have been in progress, most of which have come to the knowledge of the public in

reports from Alaska. Military Post.

He says it has been decided to establish a permanent military post on the island of St. Michael. He recommends the purchase of two stern wheel river steamers for operations on the Yukon, and that all coal, forage and building material intended for Alaskan posts be started from Seattle not later than June 15, and shipped in sailing vessels for economy. Also that a cable be laid from Seattle, via Juneau and Sgguay, to Valdez, connecting with the telegraph line now being built over the all American route from Valdez to Fort Egbert and down the Yukon river to Fort Michael. When this line is complete, General Randall says, the military headquarters should be in Southern Alaska or at Seattle.

He recommends a life saving station in the vicinity of Nome, as the tales by death and drowning on the shores of Pering sea are appalling and there is no knowledge of how many lives were lost. He also recommends that lighthouses with fog whistles be established in southeast Alaska at the fol-

lowing places: Cape Fox, near the Southern boundof the territory: Cape Commana, entrance from the north into Congas Narrows; Five Fingers, in Frederick Sound, also a fog signal at Ninmak Pass. He also recommends a military reservation at Dutch Harbor and a coaling station, and thinks that the need may arise at some future time for erecting fortifications at this place.

Gen. Randall devotes considerable

space to the natives of Alaska and says that the Esquimaux has been unnoticed by those he has befriended and has been allowed to die for the lack of proper care and food. For years he has extended his hospitality to adventurerous white men and his hut has been the shelter for shipwrecked sailors and frost-bitten miners. From all points Cape York, Port Clarence, Topek, oGlofin Bay, Yukon river and elsewhere reports have been received of sickness, starvation and mortality so great that it promised to wipe out almost the entire race, Lieut. Jarvis of the United States reve nue reported these facts to Gen. Randall and the tug Meteor was placed at his disposal for relief work and a hundred destitute natives cared for at Nome. The revenue cutter Bear has been distributing supplies to the destitute natives, while others in the vicinity of Fort St. Michael have been cared for by the commanding officer of that post. The work of Lieut. Jarvis is highly commended by Gen. Randall. In closing this particular feature of his report, Randall says:

Relief for Indians.

many parts of the United States provision been made for the Indian. Reservations have been set spart for him and food and clothing supplied. In Alaska it was not necessary

# Keystone State's Prosperity.

The industrial statistics in the annual report of the Secretary of Internal Affairs for 1899, just issued, show that Pennsylvania industries enjoyed tremendous prosperity under President McKinley's administration. The following comparison is made from the records of fortyfour industries, representing 354 establishments. The same industries and establishments were recorded during every year from 1892 to 1899 inclusive;-

Year.	Average Persons Employ'd	Aggregate Wages Paid	Average Yearly Earnings	Val. of Product
1892	136,882	\$67.331.876	\$491.90	\$269,452,465

### ectorere to do much but the great rush of white men that followed the discoveries of gold has completely changed everything. The gam-and for bearing animals have about disappeared and the native's means of sustenance are gone I therefore recommend that the government af-ford some relief to the natives until such time

as they can take care of themselves. General Randall has the following to say regarding relief to white men who venture into Alaska:

I am of the opinion that it would be a mis take for the government to give any general aid in future to the venturesome classes of white men who come to Alaska. About three hunanswers concerning the prospects for dred have been sent out on transport and other vessels this year and many more will be sent before the close of navigation. The conditions are now generally known throughout the states and the expectation of government aid in return. out doubt been the most hopeful prospect in view to a considerable number who have come to the country since 1897 and especially in the recent rush to Nome.

## DISHONEST DOLLAR A NATIONAL FRAUD

Dr. Parkhurst Makes This State ment in His Sermon on Politics.

By Exclusive Wire from The Associated Press. New York, Nov. 4.-The Rev. Dr. Charles H. Parkhurst at the Madison Avenue Presbyterian church, today took next Tuesday's election as the basis of his sermon. It was Dr. Parkhurst's church which Mr. and Mrs. W. J. Bryan attended last Sunday, when in New York. As Dr. Parkhurst's topic for today was announced a week ago, the church could hardly hold the people who came to listen.

The doctor said in part that patriotism meant the devoting of ourselves to our country, rather than our country to ourselves. No patriotic American could fail to recognize as one of the perils confronting America, the strained relations which exist between the two competing classes of our population. He added:

After the presidential candidate, who to a considerable extent stands as the representative of industrial disaffection, has been defeated—as it is said he will be—the situation so far will not be altered at all. The candidate has not made the disaffection; it is the disaffection that has made the candidate. And there is such an in-undation of it, and in some of its ingredients so rabid and irredeemable as to have succeeded in temporarily waterlogging a great political party, that when well affoat and its compass in good working order exists for beneficent and divine

It is undoubtedly the fact, with regard to this part of the country at any rate that no consideration is just now operating with such tremend-ous effect as the consideration of the dollar. I want to say parenthetically though, that I am not speaking now of the technical economic properties of the dollar-I am not a banker or a olitical economist and yet without being either and being simply a preacher of righteousness, it is axiomatic to say that a dishonest dollar is a national traud, and that to indulge in a dollar that makes believe that it is a whole dollar when it is only a half dollar, would be to transform our entire people into a great Amer-ican Ananias. That may not be the phraseology of the economics but that is the Mount Sina

The preacher next warned his hearers that righteousness was not the only thing to be sought by a nation, and that, in fact, prosperity has some perils all its own.

### EXPERIMENTING ON **EMERGENCY RATIONS**

Board of Officers Detailed by War Department to Eat Prepared Food at Reno, O. T.

By Exclusive Wire from The Associated Press. Fort Reno, O. T., Nov. 4 .- The board of officers detailed by the war department to discover, if possible, an emergency ration that will meet all the requirements of troops engaged in active warfare while away from their base of supplies and in a hostile country where provisions are scarce, left here yesterday with a detachment of twenty-five men from Troop A, Eighth cavalry, for experimental purposes. The men will observe the same routine as if they were engaged in an active campaign against an enemy. The members of the board are Captain S. W. Fountain, Eighth cavalry, and Captain S. W. Fos-

ter, Fifth cavalry. Captain and Assistant Surgeon J. D. Poindexter, stationed at Fort Reno, accompanied the expedition. A single ration is supposed to contain enough food to sustain a man a day and in its package weighs slightly more than a pound. The board has two different emergency rations with which it will experiment. The first is a ration prepared by the board after an examinaion and analysis of the food preparations used in nearly all the European armies. The board's observations and conclusions are embodied in the ration, which was manufactured under its supervision. The second is a ration produced by a company in New Jersey. The New Jersey ration consists of tea in place of chocolate and a combination of meat and breadstuffs compactly arranged. The board's own ration consists of two cakes of pure sweet chocolate, three cakes of a combination of meat and breadstuffs, in compressed form, and a small quantity of salt and pepper for seasoning.

Captain Fountain, who is president of the board, said of the experiment:

Our expedition will leave for the Reno just a it had been called suddenly away from its base of supplies to light an enemy in an un-known and hostile country. The routine of daily life will approximate as closely as possible the conditions of actual warfare. Five regular field ations and five of the board's emergency rations will be issued to each man at the start. For two days the men will live on the regular army field rations. On the third days this field ration will be abandoned and the men put or food for five days. The test will be as rigorou

as possible so far as food is concerned. While the troopers are subsisting on the mergency rations, Captain Poindexter will have evening. The temperature of each man will be taken at intervals during the day. This record will show whether he loses or gains in weight whether his strength diminishes or increases, and the condition of his health.

## GOOD WEATHER TUESDAY.

By Exclusive Wire from The Associated Press. Washington, Nov. 4.-The weather bureau tonight issued the following: Sunday, Nov. 4, 10 p. m.

Special Forecast for Tuesday: For the first time in ten days the weather may shows a clear sky over the whole region from the Pacific to the Atlantic except over a small area on the middle Atlantic coast, where some rain is falling as a result of a severe storm the center of which is off Hatterss. The press ure is high over the western half of the country. These conditions will surely give clear, fine weather and pleasant temperatures in all states

on Monday except possibly showers on the in-mediate middle Atlantic coast.

While it is possible for a storm to develop somewhere in this broad area by Tuesday the conditions are unusually favorable for the con-tinuation of the fine weather of Monday over to and throughout Tuesday.

**EXPERIENCE** 

Strikes a Submerged Wreck, Carry ing Away Her Starboard' Proneller-Machinery Smashed.

By Exclusive Wire from The Associated Press. New York, Nov. 4.-The American ine steamer St. Paul limped into port this morning under the port engine after having incurred the most serious experience of her career. On Oct. 31st the St. Paul struck a supposed submerged wreck, carrying away the starboard propeller causing the engines to race so fiercely that the shaft broke and all connections snapped. The starboard engines were so severely wrecked that they are useless and it will take months to replace them with a new set. The after outboard shaft tubing was carried away.

The ship is leaking considerably When the accident occurred the cabin passengers were quite excited but they were soon restored to quiet by the prompt report that the steamer was in no danger. The wind was blowing neavily from the northeast with a high cross sea. The engineers examined the breaks and disconnected the starboard engines and the St. Paul proceeded on her voyage under the port engine at a reduced speed.
