

The Heart Cry of the Motherless Maiden.

When the mother is taken from the home, the loss falls heavily on each member of the family. But in time kindly Nature heals the wounds, dulls the memory, and comforts the heart.

She is perplexed about conditions of which she cannot speak to any other. She thinks of the family physician. But her delicate nature shrinks from the questions she might be called upon to answer.

ANY MOTHER WOULD SAY what almost every mother knows, that Dr. Pierce's Favorite Prescription is the best medicine for the cure of womanly ills.
