Seasonable Cloak News....

Summer lingered long with us, and although November has come, the warm weather Shirt Waists were still seen on the streets up till a few days ago. Because of the unparalleled mildness of the season we were slow in completing our full line of

Coats and Capes for Winter
And the delay has been to your advantage, as a visit to the department any day during the present week will prove, for some of the leading manufacturers of highly tailored garments became panic-stricken, and you know what effect that has on prices.

Well, the Cheap Sale Time
Has not come yet, and we don't want you to think for one moment that prices are cut and slashed to pieces, but there is a substantial saving from regular prices in many of the newest and best garments of the season, while extreme novelties are offered at figures far below what they ought to bring at this season had the weather been different.

And the Line Is So Complete
In every conceivable class of Coats, Jackets, or Capes for Ladies, Misses, Children and even the Babies, as to leave nothing to be desired. Every new fad and fancy is seen at its best, as well as the more staple styles which ladies of quieter tastes prefer as a rule. A finer cloak stock than we show has never been seen in this section of the state, and yet the prices are less than they should be. You know why of course
