

CLEVELAND'S Superior Baking Powder

Good Health depends upon the food you eat.

Cleveland's Baking Powder adds to the healthfulness of all risen flour-foods, while it makes the food lighter, sweeter, finer-flavored, more delicious. Exercise care in purchasing baking powder to see that you get the kind that makes the food more wholesome and at the same time more palatable.

CLEVELAND BAKING POWDER CO., NEW YORK.

There are many mixtures, made in imitation of baking powder, which the prudent will avoid. They are lower in price than cream of tartar powders, but they are made from alum and are dangerous to use in food.

SCHOOL BOARD IS GENEROUS

COAL CONTRACTORS GRANTED TEN PER CENT. INCREASE.

Board Went Behind Its Contracts and Allowed the Extra Ten Per Cent. Because the Coal Companies Are Now Paying Their Men Ten Per Cent. More Wages—Dr. O'Malley the Only Protestor—Dispute Over Clark Coal Company's Contract—Warned Against Deficiencies

The school board of the city of Scranton last night decided by a unanimous viva voce vote to go behind its coal contracts and grant the contractors who are supplying coal to the various schools of the city an increase of ten per cent. over their contract price, because of the ten per cent. increase granted to their employes by the various coal companies as a result of the recent strike.

The matter was brought up by two reports presented by the supply committee recommending two opposite things. One of these reports read as follows:

With reference to coal contracts for the Third and Fourth districts: We recommend that the company having the contracts be permitted to withdraw from the agreement and that their contract check be returned to them and that we advertise for bids for said districts.

Also that the company which has been furnishing coal to the schools of the city be allowed a ten per cent. increase on the price bid on account of having granted an increase of ten per cent. to their employes.

Also that said company located in the extreme south end of the city be allowed 20 cents additional for hauling to the schools in the north end of the city.

SECONDD REPORT.
The second report differed from the above, inasmuch as instead of the paragraph permitting the Clark Tunnel Coal company to withdraw, it contained another which read:

We recommend that the company having the contracts be permitted to withdraw from the agreement and that their contract check be returned to them and that the contracts for said districts be awarded to the next highest bidder. Chairman Evans, of the supply committee, charged certain members of the committee with trying to break down the contract with the Clark Tunnel company so that the other bidders could get a show.

Dr. O'Malley protested vigorously against the granting of the ten per cent. increase and characterized it as being unbusinesslike and childish. His words went for naught, however.

A motion was made to amend that portion of the report referring to the Clark Tunnel company by making it read that if the company be not willing to continue their contract after the ten per cent. increase was granted, that their contract be annulled and a new contract awarded to the next highest bidder.

This amendment was adopted, and then the entire report, as amended, was carried.

A brief report from the finance committee showed that one deficiency has already been created and that there is a danger of others being created.

WARNED ABOUT DEFICIENCIES.

Chairman Flynn of the committee reported that the appropriation for machinery under the building account was already overdrawn \$482. He also stated that there was a balance of only \$570 remaining in the material appropriation and a balance of only \$62 in the rent account. He warned the board against creating deficiencies. It might be mentioned that the fiscal year is not yet half expired.

The following recommendations of the building committee were unanimously adopted:

That the plans and specifications for the new addition to No. 15 as prepared by John A. Duckworth, architect, be accepted and that the secretary be instructed to advertise for bids for the erection of the building.

Also that a new sewer line be constructed for said building, the superintendent of repairs and the engineer both reporting that it is necessary that this work should be done; the plans and specifications for the addition to the building to include this sewer so that bids submitted shall include both the new addition and this much needed improvement.

We recommend that Architect James H. Feeley be employed to prepare plans and specifications for a retaining wall which it is necessary to erect at No. 16 school.

That William Goerlitz be employed as janitor at old No. 5 in order to protect the property at a salary of five dollars a month.

That Mrs. Maria Sear be employed as janitress at No. 5 for eight school purposes.

The teachers' committee recommended that the schools throughout the city be closed next Thursday af-

ternoon, in order that the children might have a chance to attend the unveiling of the Soldiers' and Sailors' monument. This recommendation was adopted, as was one providing for the appointment of an assistant to the principal of No. 14 school.

Upon the invitation of Mr. Walsh, the board decided to visit the new No. 2 school building on Saturday afternoon. Adjournment was made until next Monday night.

LOVE AT FIRST SIGHT.

Wedded at the Windsor. After a Two Weeks' Courtship.

Love at first sight is not confined to novels, but is found in every-day life. Two weeks ago Howard Gould, the advance agent for the Bennett-Moulton company, which played all week in the Grand, met Mrs. Edith Garney in Scranton and Saturday the couple were united in marriage by Rev. W. J. Hill, pastor of the Deer Memorial church, in the parsonage of the Windsor hotel. The ceremony was witnessed by Mr. and Mrs. Lee, Mr. and Mrs. Allen, Mr. Miller, Miss Carrie Turner and Danny Simons of the company.

Mr. Gould is tall and dashing, and his bride is a pretty blonde. Mrs. Garney is the widow of James Garney, a well-known resident of Scranton, who died about three years ago. Gould was married before, but exhibited divorce papers which he secured from his first wife on grounds of desertion.

The ceremony raised quite a stir in the Windsor hotel and everybody, from the proprietor to the cook, seemed anxious to remove every obstacle likely to stand in the path to happiness of the couple. The carelessness of a laundryman, however, delayed the ceremony a half-hour and greatly dis-

appointed the groom, who wanted to be married in a high collar. His particular collar was five inches high and when it did not return from the laundry with the others Mr. Gould was greatly chagrined. He finally consented to wear a four-inch collar and the ceremony took place, although rather hasty.

Mr. and Mrs. Gould, after receiving congratulations of friends at the hotel, left on a short wedding trip. Mrs. Gould will accompany her husband on his tour for some weeks.—Wilkes-Barre News.

RETURN OF THE FUGITIVE IVORY

City Detective John Moir Yesterday Brought the Assailant of Harvey Irving Back from Dayton, O.

City Detective John Moir yesterday afternoon returned from Dayton, O., with William Ivory, colored, who is wanted here on the charge of attempting to kill Harvey Irving, at the latter's home in Raymond court, on the night of September 4. Ivory will give a hearing this morning before Alderman Miller. He admits his guilt, but claims that he shot only in self-defense.

Immediately after the shooting Ivory left the city, and the local authorities forwarded descriptions of him to the police bureaus all over the country. Thursday a telegram was received from the Dayton chief of police, stating that Ivory was arrested, and Friday Detective Moir packed his grip and went in quest of the fugitive.

Ivory was in Dayton during the last two or three weeks, and was recognized on the street by one of the Ontario sleuths, from the description sent on from here.

Ivory's attack on Irving was of a very blood-thirsty nature, according to the story told by the assaulted man. The latter alleges that he was sitting on the steps in his house, late at night, dozing off into the Land of Nod, when he was aroused from his slumbers by a mighty clout on the head, and on starting to his feet saw that it was Ivory, armed with the wooden back of a chair, who had struck him. As he struggled to his feet, Ivory drew a revolver and fired, striking him in the back.

The injuries he received were so serious in nature that he was taken to the Lackawanna hospital, and there, after a few weeks' care, recovered from his wounds. Ivory admits striking Irving with the chair and doing the shooting, but says it was all in self-defense.

THE STATE C. E. CONVENTION.

The Opening Feature of It Will Be a Quiet Hour.

"Red letter" days will those of November 20, 21 and 22 be to the thousands of young people who will attend in Philadelphia, the state (Pennsylvania) Christian Endeavor convention, active preparations for which have been going on for many months. This Quiet Hour service will form the opening session of the convention after devotional exercises, and will be a demonstration along the lines of cleansing and consecration—the first being a preparation for service, and the other a determination to do "God's work, in God's way, for God's glory, with God's power." This time of med-

itation will strike the keynote of the day's work and worship. Very wisely the committee have arranged that the special feature of the convention shall be the "Quiet Hour," and most wisely have they chosen Rev. Floyd W. Tompkins, D. D., rector of Holy Trinity Protestant Episcopal church and resident trustee of the United society, as its leader. To all who have come under the influence of Dr. Tompkins' magnetic personality, it will be a joy indeed to have for the leader of this supreme meeting a man of such sweet simplicity and deep spirituality.

POLICE PICKINGS.

Vanderbilt Simpson, the young colored boy who was Saturday morning caught in the act of stealing various articles at the Four-cent store, and handed over to Patrolman Parry, will probably be released from police custody today. A letter was yesterday received at the central station from the manager of the store expressing his willingness to have the boy released and assented to pushing the case.

Henry Ball was yesterday arraigned before Mayor Moir in police court, on the suspicion of larceny. Ball was seen by Patrolman Hart bargaining with an employe at the Globe store, and on investigation that policeman discovered Ball had disposed of five 2-cent stamps at the extremely low rate of 5 cents. He took him to the central station, where he received his hearing and was discharged.
