## THE MARKETS.

Wall Street Review.

Wall Street Beview.

New York, Nov. 14.—The striking fact about today's stock market was the decreased volume of tracling. Yesterday's reaction was checked and outte an imposing show of strength was made afterwards, but there was no renewal of the intermittent buying demand which carried prices up with a rush all through last week. The market in fact dropped back into an affair of ordinary importance, business continuing on a large scale compared with the normal, but the movement of prices obviously depending on artificial stimulants. Yesterday's sharp decline induces some selling orders from outside sources this morning, but the powerful support by the bull pools who are still operating for an advance checked the decline and secured control of the market almost inomeliately. There was some small buying for London account, but it was not a pertinent factor in the market. Its probable also that there was some buying from speculative interests which have been watching for a reaction ever since the election. The buying fell off as prices rose above yesterday's level. The most effective movements of the day were in Pennsylvania company of the same character as the series of acquirements of stock in other companies carly in the year. The necompanying strength of Baltimore and Ohio, Notfolk and Western and some of the coalers was intended to give color to these rumors, but no authoritative confirmation was forthecoming, and the stock of Pennsylvania company of the same character as the series of acquirements of stock in other companies carly in the year. The necompanying strength of Baltimore and Ohio, Notfolk and Western and some of the coalers was intended to give color to these rumors, but no authoritative confirmation was forthecoming, and the stock of Pennsylvania country in the penns in the stock of Pennsylvania country in the penns in the stock of Pennsylvania country in the penns i some of the coalcis was to these rumors, but no authoritative confirm tion was fortheoming, and the stock of Pennsy tion was fortheoming, and the stock of Pennsy vania was highly manipulated all day. The buying of Notthern Pacific, both common and preferred, seemed of a more substantial character. The statement of the condition of the company, preferred, seemed of a more substantial character. The statement of the condition of the company; issued by the trust in dissolving the voting trust and the desirability of additional holdings for Centralized control, following the dissolution of the trust, offered plausible motives for the buying. The trading in the local traction grew out of the statements in the annual report of the Manhattan companies as to the progress being made toward electrical equipment and the friendly co-operation of the Metropolitan street railway. The advances extended all the way from 18½ in Pennsylvania to 7½ in General Electric. These stocks about measure the dimensions of the upward movement, gains elsewhere being for the most part in sympathy. Consequently when heavy realizing developed in Northern Pacific and Pennsylvania, which practically wiped out their carly gains and in fact the whole market tuned weak again and fell back to an average level, about as low as that of the moving. There was a final rally, but it was lacking in snap and was not well maintained, the market elesing irregular. Pacific Mail, Linsed Oil preferred and one or two of the steel stocks, were actively reactionary. Total sales, 522,400 shares.

The bond market was irregular in sympathy with stocks. Total sales, par value, \$2,970,000, U. S. refunding 25 declined ½ and the 5s registered, advanced ½ and do, coupon % per cent. on the last call.

"The Gunner's Mate."

The attraction at the Lyccum next Saturday, matince and night, Nov. 17, will be tae naval drama. "The Gunner's Mate," by William J. Makierman, dramatic editor of the Newark Sunday Call, and is under one management of Augustus Pitou, to whom is also due the credit for the magnificent productions of Chauncey Olcott's beautiful plays. The drama deals in main with life aboard our war ships, but there is no war in it.

The scenes are laid in New York city and aboard the cruiser New York. It is a mammoth securic production of wondrous beauty. The Scenic production of wondrous production of the Scenic production of wondrous production of the S

# Make Home Attractive

What is more gratifying to parents than to have their boys and girls spend their evenings at home, away from the temptations and allurements leading to sins and crimes that have caused so many tears of sorrow and regret? And what would cause them more misery than to feel that they had not done their part toward making home more attractive, thereby preventing a desire to stay out at nights? It is an unquestionable fact that nothing lends more attraction to the home, is more elevating to the mind, or more inspiring to the soul than music

#### THE PIANO

has made this generation the most musical that ever lived. No other instrument compares with it for general adaptability alike to the demands of the virtueso, the musician, the amateur and the student. But while you are about to buy a piano, see to it that you get one that is a MUSICAL INSTRUMENT.

Are the best in quality that money, brains and experience can produce -this is true. How good a Piano is depends on the skill-the facilitythe conscientiousness and the experience of the manufacturer. The house of CHARLES M. STIEFF not only have one of the best equipped manufacturing plants in the United States, but they have only skilled workmen and use the very best materials that can be purchased. This is backed by a conscientious effort to put the most piano value to the dollar in every instrument they make. Just as much to your interest as it is to ours that you should thoroughly examine the STIEFF before you buy elsewhere. We want you to try it, and compare it, and study it-YOU'LL THEN WANT TO BUY IT and the price is CORRECT. Pianos of other makes at prices to suit the most economical,
