#### Vaudeville at the Lyceum.

Two big audiences yesterday at the Lyceum attested to the popularity of the vandeville en-tertainments which are being given there under the management of J. K. Burke. Marie Jansen, who was to be one of the strong features of yesterday's bill, was unable to come to the city owing to the serious illness of her father at New Rochelle, N. Y. There were a number of good things on the programme, however, and the abence of a Jansen or so was not a very serious

Josephine Gassman, who sings the ditties of her race in an inimitable manner, and three little pickaninnies, were the tavorites yesterday. Their turn was encored in a most cuthusiastic manner. The Takezawas Imperial Japanese troupe of acrobats gave a wonderful exhibition. Their performance in the afternoon was not complete, as they arrived in the city too late to get their apparatus in shape. At night their wonderful exhibi-tion closed with a thrilling slide for life from

the dome of the theater.

William H. Shoan, who succeeded Louis Mana as the Hans Nix of "The Telephone Girl" company appeared in that eccentric role and with the assistance of Alice Holbrook and Ben T. Dillon, gave a laughable sketch entitled "Some

#### Spooners at the Academy.

One of the largest houses of the season greeted he Spooners at the Academy of Music last evening. In spite of the inclement weather the house was crowded and many were forced to stand, proving beyond a doubt the popularity of this organization, which plays this city each year, and every time it comes is stronger than ever. Last evening the play presented was Howard Hall's great comedy drama. "The Solder of the Empires." As is noted on the programme the action of the piece takes place during the one hundred days which followed Na-poleon's escepe from Elba, and his defeat at Waterloo and final exile to St. Helena.

Miss Edna May Spooner appeared to advan-tage in the role of Louise Devere, the Icacing female role of the piece, and Augustus Phillips who has appeared here with this organization several times, portrayed the leading male rele-that of Guilbert De Montville, and merited much applause. Miss Cecil Speoner was certainly the pink of perfection as Vivette Girard and kept the audience convulsed. Her dancing is by

far the best ever seen in this city. Senter Payton as M. Moulinet, a notary, was exceedingly clever, as was Truman Johnston, as Major Durant and H. S. Stafford, as Hector, In fact each member of the company was all that could be expected in the different parts assigned to them. The members of the company this season are Misses Edna and Cecil Spooner, Olive Grove, Helen Cameron, Mrs. Spooner, Jessie Me-Allister; Messrs. Augustus Phillips, Senter Payton, Truman Johnston, Edward Curtis, H. Staf-ford, W. L. West, B. F. Wilson, R. K. Spooner, C. C. ### THE MARKETS.

Wall Street Review.

Wall Street Review.

New York, Nov. 26.—The reactionary tendency which weighed on the stock market during the latter part of last week was distinctly overcome teday and prices resumed their upward course. The advance was by no means uniform, the striking gains being confined to comparatively tew stocks. In some stocks the resistance was not more than enough to enable them only to hold their own while a small number by positive weakness gave a slight irregularity to the market. The course of prices was by no means determined at once. Bear traders operated on the short side of the market for a considerable after the opening. Notable strength in particular stocks, accompanied by rumors of changes of control helped the smarket and the bears were finally driven to waver. While the strength in the market was renewed there was by no means the large volume of business which has been the average for over two weeks past. The Southern Railway stocks were in special demand. Many rumors were current of developments in the company, including an alleged lease to the Pennsylvania, and a coming increase of dividend. No authoritative sanction could be had for any of these rumors. The common and preferred stocks advanced an extreme 3 points each. Strength was radiated first to the southern group and then to the southwestern, in which some striking gains were recorded. Both the preferred stocks on which dividends are paid or are earned and the low priced common stocks for which dividend prospects are remote at the best were affected alike. The weekly carnings reported today on some of these systems showed sharp decreases from last year's corresponding period, notably in Missouri Pacific and Denver and Rio Grande. Nevertheless the stocks held a prominent place in the advance. Gains in the group ran from one to nearly three points. The more northerly grangers came into the movement, especially Burlington, but did not show such marked strength. The leading specialities were very strong, including Sugar and People's Gas. secures to the purchaser an unquestionable guarantee of superlative worth. You pay for a name, WON AND MAINTAINED solely by the force of their sterling merit.

The STIEFF NAME is one of the strongest guarantees of excellence that was ever attached to a manufactured article, and is so recognized in all parts of the country. Valuable as it is, it costs the buyers of the STIEFF Planos nothing.

The favorite fiction of the mano dealer, who cautions you against "paying for a came," loses all effect when you consider that the prices of STIEFF Planos were relatively the same forty years ago, when the name was unknown, that they are today. Price was made imperative by the cost of superlative quality just as it is today, and always will be so long as that quality is maintained. BUT GET PRICES FROM US.

They are much lower than some people would have you believe and favorable terms are made to such as desire them.
