

ELECTION MAY NOT BE HELD

COMMISSIONERS SAY TIME IS TOO SHORT.

Declare They Cannot Get the Ballots Printed and the Arrangements for Tuesday's Election Perfected in Time—If Not Held Tuesday the Election May Be Postponed for an Indefinite Period—It Will Be Difficult to Get Common Branch of Councils Together.

It would appear as if the special councilmanic elections in eight of the wards of the city, which were to have been held on next Tuesday, would have to be postponed.

The commissioners served notice on Mayor Mohr yesterday morning that they could not be sure that the ballots printed in time for an election on Tuesday next, on account of the fact that the primaries are not to be held until Saturday.

The mayor didn't take kindly to the proposition at first, and informed the commissioners in his opinion, they would have plenty of time to get the ballots printed, they replied in most emphatic terms that they would not, and the mayor accordingly directed City Clerk Lavette to send out a call for a special meeting of the council for tonight.

ABOUT SPECIAL ELECTIONS.

The law governing the holding of special elections to fill councilmanic vacancies, provides that the council shall fix the time for holding such special elections. This time has already been fixed for next Tuesday, and if it is necessary to postpone it, the new date, as well, will have to be fixed by council.

The select council will probably meet tonight, but it's dollars to doughnuts that the common council will not. There will probably be eight members of the common branch present, but the remaining five will undoubtedly be absent. This is because the common branch, since the resignation of the eight members last Thursday night, consists of eight Democrats and five Republicans.

There is at present no chairman, Chairman Griffiths having been one of the members who resigned. If a meeting is held tonight the first thing which would have to be done would be to elect a chairman. This is just what the Democrats want, and just what the Republicans don't want. The Democrats want to elect Councilman Calbin as chairman, and they could do it if a meeting was held.

STATUS OF COUNCILS.

Before the resignations of the eight councilmen were received the Democratic majority in each of the wards which would have to be done would be to elect a chairman. This is just what the Democrats want, and just what the Republicans don't want.

The election of a Democratic chairman at this time would permit the control of the estimates committee by that party. Four of the members of that committee were among those who resigned, and Luther Keller is now the only Republican and the only member remaining. This is, perhaps, the most important committee in councils.

There is no question but that at least three of the five Republican members will remain away tonight to prevent a quorum being present.

MR. MORRIS' STATEMENT.

County Commissioner John C. Morris was last night by a Tribune reporter regarding the matter, and declared that it was an impossibility to have the ballots properly certified, the election officers furnished with all supplies, the ballot boxes put in, and other arrangements made in time to hold the general election Tuesday. He also said that these general elections were the source of great expense to the county, and that he thought it would be a good idea to wait and see if any other resignations be tendered before holding them.

PROGRESSIVE EUCHRE PARTY.

Prize Winners at the Knights of Columbus Party. The Knights of Columbus conducted a progressive euchre party last night in a splendidly decorated hall on North Washington avenue. Eighty-five couples sat down to play at 9 o'clock, and the game was continued, with a brief intermission, until 11:30 o'clock.

SYRACUSE MEN RELEASED.

Cases Against Galinsky and Bellison Were Withdrawn. The cases against Philip Galinsky and Benjamin Bellison, the two Syracuse men arrested in this city a few days ago on information furnished by the Syracuse police authorities, were yesterday withdrawn by the prosecutor, Max Elstein, who came to this city.

at the commissioners' office to receive the returns. Sunday we aren't in session, and even if we were and did count them, where would you find a printing shop to print the ballots on the Sabbath? As things are, we would not be able to get the ballot to the printers before 10 o'clock Monday morning. Then after they were printed we would have to prepare them for the election officers and give them over into the latter's hands, together with all necessary election supplies.

"We would have to put in the ballot boxes, and all things considered it would be an impossibility to be ready by Tuesday. The trouble lies in the date fixed for holding the caucuses. They should have been held, say today or tomorrow, and this would have given ample time for preparing for the elections.

"We are perfectly willing, of course, to have everything ready in reasonable time, and by Wednesday or Thursday the election could probably be held. In the interests of the county, however, we think that the election ought to be postponed until all the resignations are in."

NORTON WAS STRUCK BY A DURYEA CAR

Old Forge Man Seriously Injured While Walking Along Street Car Tracks.

George Norton, of Connetquot, Old Forge borough, was struck by an out-bound Duryea car on the Scranton railway, about 10:30 o'clock last night, and was taken to the Lackawanna hospital, where his condition was reported as being very serious, early this morning.

His left leg sustained a compound fracture and his skull is thought to have been fractured. He was also badly bruised. The accident occurred near the Old Forge Methodist church. Norton was walking along the tracks and in the darkness was not seen by the motor-man.

The car was in charge of Conductor Gilmore and Motorman Harrington, and they, with the assistance of the passengers, picked Norton up and placed him in the car. He was then brought to the city and taken to the hospital.

LARGE ICE CONTRACT.

Lake Lodore Will Furnish Supply to Big New York Concern. President Charles Robinson, of the Lake Lodore Improvement company, has returned from New York, where he effected a five-year contract with the American Ice company for a minimum annual supply of 1,000,000 tons.

This is the largest ice supply contract ever executed in Pennsylvania, as the specified amount is but a mere suggestion of the ice which will be really used. Lake Lodore, Lake Keene and Elk lake constitute the company's water supply. They have a combined area of between seven and eight hundred acres, and can easily furnish from one to two million tons of ice a winter.

The company's property is the only one near enough New York and Philadelphia to supply the lakes on the Pocono that could be depended upon for a sure and sufficient supply of ice by the metropolitan company.

The Lake Lodore company is now constructing at Keene lake, a 1,000,000 acre, and is capable of holding 20,000 tons of ice. Four such structures will be built by the company. Charles Robinson is president of the company and the other officers are John H. Jordan, secretary and manager; M. W. O'Boyle, first vice president; E. J. Robinson, second vice president; J. Croghan, treasurer; W. H. Mallin, assistant manager; R. W. Jordan, John H. Toy, of Pittston; Patrick McNally, of Honesdale, directors.

SHANTY FULL OF EXPLOSIVES.

Overheated Stove Caused Blaze in Workmen's Shed. An overheated stove caused a sudden blaze yesterday afternoon in the shanty erected for the use of the workmen engaged on the foundations of the new Young Men's Christian association building. The structure was considerably damaged by the flames, and a number of overcoats left in it by workmen were burned or partially ruined.

When the flame first rushed from the window there was a general stampede in the workmen, and a loud cry went up: "Look out for the explosion. The shanty's full of dynamite." The shed did indeed contain three kegs of powder and a box of dynamite, but luckily the firemen had the blaze under control before any explosion could occur.

OPINIONS ON THE CHANGE

COLONEL SANDERSON IS OF NO UNCERTAIN MIND.

He Says Stick to the Third Class City—To Go Into Second Class Under Existing Circumstances Would Be Disastrous—Secretary of the Board of Trade, Is Confident We Ought to Go Forward and Accept Our New Responsibilities—Other Opinions.

COLONEL GEORGE SANDERSON, Attorney at Law and Former Select Councilman of the Thirteenth Ward.

Scranton, Pa., Dec. 11, 1900. Editor of the Tribune. Sir: Your request for my views on the advisability of the city entering second-class cities under laws as they now exist, has been in my mind for some time. I am emphatically opposed to it. I consider it would be fraught with grave danger to the people, especially those who pay our taxes.

To often, the swelling idea of expansion, "Greater Scranton," etc., leads people to conclusions that in cooler moments they would be appalled at. The idea of "room to expand," as put by one of your communists, is erroneous. We can expand just as well out of the city as in it. The question of taxation is very serious. The burden is placed on business. Today there are vacant stores on all our streets. What could we expect if the system of taxation as applied in second-class cities were to be put in force? Today the relations of landlord and tenant as regards rentals have reached reasons beyond which we cannot go without disaster to business.

The new enterprises which we want do not ask "Are you a second-class city," but they want to know about taxes, city affairs, etc. They don't care a rap about second-class cities. Then, consider the school board question, with ward boards and a central board, with each ward board levying taxes and right to issue bonds. Consider the power of an unwieldy body as our councils would be instead of a centralized authority, as is conducted in the North American cities, where responsibility is undivided and easy to place.

Sir: In reply to yours of Dec. 10, asking for suggestions or opinions on second-class city problem, I beg to say that I am not conversant enough with the present charter laws of Pittsburgh and Allegheny to speak intelligently as to their adaptation to the city of Scranton. It is difficult, however, after all that has been said on the subject, to reconcile ourselves to the idea of Scranton remaining a city of the third class and being governed by laws adapted to cities the size of Pittston, Carbondale and other small municipalities. I believe that a determined effort upon the part of our citizens would result in the passage of a suitable law that would be eminently satisfactory to both Scranton, Pittsburgh and Allegheny. At best the present third-class city laws are as much an anachronism in the present second-class city laws as we can better adapt ourselves to the larger garment than to the smaller.

charge of threatening the life of his aged mother, Mrs. Mary Connolly. He was arrested by Constable Pierstein, and was in an intoxicated condition when arraigned before the alderman. He is about thirty years of age, and was very abusive in the magistrate's office, and insolently declared that he would like to see the man who could make him work.

DOGS BEING POISONED.

Systematic Effort Being Made to Rid Dalton of Its Canines.

The following has been sent to The Tribune by H. D. Swarts, of Dalton, with a request that it be published: "Within the past three weeks, there have been thirteen dogs poisoned in this little village, and I think it is high time to get these dogs out of the way. W. F. Brower's pointer dog was the first to meet death in this way. Mr. Brower valued his dog at one hundred dollars. The next two dogs to meet this same fate belonged to Gus Allen, manager of the Dalton Amusement company, Scranton. Then Mr. Smith's two shepherd dogs, Mr. Lewis, the blacksmith, and Mr. Moxley, the liveryman, each lost a dog. Mr. John L. Swarts owned a fox hound and a Gordon setter; both were poisoned. Tonight the water returns and finds his English setter has been treated likewise.

"There are several gangs of chicken thieves located within a short distance of this village, and the indications point strongly in their direction, as it is necessary to get these dogs out of the way in order to make their nightly raids in a more successful way. A few nights ago they visited the henneries of Mr. Fred Snyder and Fred Palmer and John L. Swarts and took nearly all the chickens they possessed. If these men who are poisoning these dogs could only see them in the awful agony they suffer before death, I am satisfied they would never poison another dog. If the party or parties who have been doing this poisoning are located, one hundred dollars reward will be given. "Every family who has a flock of chickens have armed themselves with a double-barrel shotgun and they are loaded with buckshot. They have sworn vengeance on the thieves, if caught. They have fully made up their minds that they would not call to them to surrender, but would shoot both loads of buckshot into their bodies."
