

An Absolutely Pure Product

The importance of pure foods, liquids, etc., is being emphasized more today than ever before. We know of no article upon which absolute purity is more necessary than beer.

The best beer is that which will keep the longest, and it is very easy for you to prove to your entire satisfaction which is the best of any number of different makes.

Another very important matter that we would call public attention to is that we are not connected with any trust or combination. This alone should appeal to the hearts of the patriotic American.

RAILROAD TIES.

Cost More Than the Metal Which Is Used Upon Them.

The demand for railroad ties in the United States is something enormous. A new mile of standard single track, without taking into consideration the switches and sidetracks, requires about 4,500 ties.

HAD 62 CHILDREN.

In the Harleian manuscript—numbers 978 and 980—in the library of the British Museum, mention is made of the most extraordinary family that has ever been known in the world's history.

It is recorded in one of the old histories of Newcastle that "a certyne gentleman of large estates" rode "thirty-and-three miles beyond the Tyne to prove this wonderful story."
